The Long View Richard Fisher, 2023-03-30 A wide ranging and thought provoking exploration of the importance of long term thinking Humans are unique in our ability to understand time able to comprehend the past and future like no other species Yet modern day technology and capitalism have supercharged our short termist tendencies and trapped us in the present at the mercy of reactive politics quarterly business targets and 24 hour news cycles It wasn't always so In medieval times craftsmen worked on cathedrals that would be unfinished in their lifetime Indigenous leaders fostered intergenerational reciprocity And in the early twentieth century writers dreamed of worlds thousands of

years hence Now as we face long term challenges on an unprecedented scale how do we recapture that far sighted vision Richard Fisher takes us from the boardrooms of Japan home to some of the world s oldest businesses to European laboratories where scientists work as custodians on centuries long experiments He examines the psychological biases that discourage the long view and talks to the growing number of people from the worlds of philosophy technology science and the arts who are exploring smart ways to overcome them How can we learn to widen our perception of time and honour our obligations to the lives of those not yet born *A New History of British Documentary* J. Chapman,2015-03-11 A New History of British Documentary is the first comprehensive overview of documentary production in Britain from early film to the present day It covers both the film and television industries and demonstrates how documentary practice has adapted to changing institutional and ideological contexts **British Cinema, Past and Present** Justine Ashby,Andrew Higson,2000 British Cinema Past and Present responds to the commercial and critical success of British film in the 1990s Providing a historical perspective to the contemporary resurgence of British cinema this unique anthology brings together leading international scholars to investigate the rich diversity of British film production from the early sound period of the 1930s to the present day The contributors address British Cinema Studies and the concept of national cinema the distribution and reception of British films in the US and Europe key genres movements and cycles of British cinema in the 1940s 50s and 60s questions of authorship and agency with case studies of individual studios stars producers and directors trends in British cinema from propaganda films of the Second World War to the New Wave and the Swinging London films of the Sixties the representation of marginalised communities in films such as *Trainspotting* and *The Full Monty* the evolution of social realism from *Saturday Night Sunday Morning* to *Nil By Mouth* changing approaches to Northern Ireland and the Troubles in films like *The Long Good Friday* and *Alan Clarke s Elephant* contemporary art and quality cinema from heritage drama to the work of Peter Greenaway Derek Jarman Terence Davies and Patrick Keiller *Stay, Watch, Pray* Frank Bahr,2022-05-24 The disciples asked Jesus to teach them how to pray Our prayers must be genuine but what God wants from us in prayer may not readily spring to mind for example to honor the holiness of God s name or to pray for people who abuse us Does merely adding God turn a wish into a prayer How is prayer related to our understanding of who God is his omniscience love and power In prayer we expect God to act but how does that relate to our own love and work We pray in the name of Jesus So what difference does it make that God s Son became flesh suffered died and lives again How does the Holy Spirit lead in prayer Why does the Bible provide us with actual prayers Do language literary form location time and body language matter And what does it mean that the apostle cautions Rom 8 26 For we do not know how to pray as we ought *Stay Watch Pray* tackles these questions and more **Longer Views** Samuel R. Delany,2016-03-15 Six essays from the critic and award winning author exploring topics such as theater LGBTQ scholarship cyborgs metaphors and *Star Wars* Reading is a many layered process like writing observes Samuel R Delany a Nebula and Hugo Award winning author and a major commentator

on American literature and culture In this collection of six extended essays Delany challenges what he calls the hard edged boundaries of meaning by going beyond the customary limits of the genre in which he s writing By radically reworking the essay form Delany can explore and express the many layers of his thinking about the nature of art the workings of language and the injustices and ironies of social political and sexual marginalization Thus Delany connects in sometimes unexpected ways topics as diverse as the origins of modern theater the context of lesbian and gay scholarship the theories of cyborgs how metaphors mean and the narrative structures in the Star Wars trilogy Over the course of his career Kenneth James writes in his extensive introduction Delany has again and again thrown into question the world models that all too many of us unknowingly live by Indeed Delany challenges an impressive list of world models here including High and Low Art sanity and madness mathematical logic and the mechanics of mythmaking the distribution of wealth in our society and the limitations of our sexual vocabulary Also included are two essays that illustrate Delany s unique chrestomathic technique the grouping of textual fragments whose associative interrelationships a reader must actively trace to read them as a resonant argument Whether writing about Wagner or Hart Crane Foucault or Robert Mapplethorpe Delany combines a fierce and often piercing vision with a powerful honesty that beckons us to share in the perspective of these Longer Views An intellectually adventurous book Every page of every essay here rewards a second reading and a third Delany has a fearsomely stocked intellect and a wider range of experience than most writers can even imagine He is brilliant driven prolific The Nation One of science fiction s grand masters Delany s elegant command of language and deep insight into other authors works are delightful to behold Booklist Rare personal frankness and stunning erudition Recommended for readers who enjoy the challenge of being led into remote regions of a gifted mind Library Journal

The Super Summary of World History

Revised Alan Dale Daniel BA MBA JD,2008-10-20 The Super Summary of World History is a very compact history of the world emphasizing western culture and political processes The Super Summary is for the thinking person This new history raises exciting questions and puts events into new perspectives to stimulate real thinking about history rather than accepting that the past is set in stone History isn t just names and dates but a range of decisions and actions that often turn on the smallest circumstance The Super Summary analyzes a few events in depth but most are put into their historical framework so the reader can discern where and how all of this action escorts us to the present day If history seems dull pick up The Super Summary to discover that Western History is alive with controversy and consequence

Wisdom · Visions et expériences du monde Jan De Maeyer ,Vincent Viaene,2016-05-02 The attraction and repulsion between the Roman Catholic Church and modernity in Europe between 1750 and 2000 Emiel Lamberts 1941 professor emeritus of contemporary history at KU Leuven is an international expert in the political and religious history of Europe in the 19th and 20th centuries His work and the central themes in his research are the starting point in World Views and Worldly Wisdom No less than eighteen leading international researchers put different aspects of his work in the spotlight A

recurring theme however is the attraction and repulsion between the Roman Catholic Church and modernity in Europe between 1750 and 2000 The ambivalent relationship with modernity is therefore the leitmotiv of the first part of this volume whereas the second part focuses on the repositioning of the Church and the tensions between religion ideology and politics In this way the volume reflects Lamberts s fascination for the history of political institutions as well as his research on Christian democracy The contributions address in a comparative way and from a transatlantic viewpoint this broad period of time in history which gave rise to different social movements and different models of society in Belgium and elsewhere Contributors Winfried Becker Universit t Passau Bruno B thouart Universit du Littoral C te d Opale Hans Blom Universiteit van Amsterdam Alfredo Canavero Universit degli Studi di Milano Philippe Chenaux Pontificia Universit Lateranense Roma Andrea Ciampani LUMSA Roma Jo Deferme KU Leuven Jan De Maeyer KADOC KU Leuven Henk De Smaele Universiteit Antwerpen Carine Dujardin KADOC KU Leuven Jean Dominique Durand Universit Lyon 3 Michael Gehler Jean Monnet Chair Universit t Hildesheim Institut f r Neuzeit und Zeitgeschichtsforschung Wien Susana Monreal Universidad Cat lica del Uruguay Patrick Pasture KU Leuven Patrick M W Taveirne The Chinese University of Hong Kong Peter Van Kemseke Europese Commissie KU Leuven Vincent Viaene Attach bij het Huis van Koning Filip Els Witte Vrije Universiteit Brussel

Rethinking Religion and Politics in a Plural World Julia Berger, 2021-01-14 In this book Julia Berger examines internal meaning making structures and processes driving NGO behavior identifying constructs from within a religious tradition that forge new ways of pursuing social change She evaluates the operation of a distinct rationality arguing that action is guided not simply by beliefs and values but also by a combination of elements so intrinsic as to constitute an organizational DNA These hidden structures and rationalities manifest themselves in new modes of engagement and agency they help us to see the pivotal role of religion in shaping notions of peace progress and modernity To demonstrate the operation and salience of such a rationality Berger draws on the example of the worldwide Baha i community Emerging in 19th century Iran the community s theological engagement with questions of justice the unity of humankind and the emerging global order constitute one of the most distinct and compelling yet least researched examples of religious engagement with the pressing questions of our time Analyzing events spanning a 75 year period from 1945 2020 this book provides a unique historical and contemporary perspective on the evolving role of religion and civil society in the modern world *The Challenge of World Theatre History* Steve Tillis, 2020-09-19 The future of theatre history studies requires consideration of theatre as a global phenomenon The Challenge of World Theatre History offers the first full scale argument for abandoning an obsolete and parochial Eurocentric approach to theatre history in favor of a more global perspective This book exposes the fallacies that reinforce the conventional approach and defends the global perspective against possible objections It moves beyond the conventional nation based geography of theatre in favor of a regional geography and develops a new way to demarcate the periods of theatre history Finally the book outlines a history that recognizes the often connected

developments in theatre across Eurasia and around the world It makes the case that world theatre history is necessary not only for itself but for the powerful comparative and contextual insights it offers to all theatre scholars and students whatever their special areas of interest **Allen Tate** John V. Military Situation in the Far East United States. Congress. Senate. Committee on Armed Services,1951 *The Space Between* Heidi L. Maibom,2022 When Barack Obama nominated Sonia Sotomayor to the US Supreme Court his comments that a judge should have the heart the empathy to recognize what it s like to be a young teenage mom the empathy to understand what it s like to be poor or African American or gay disabled or old caused a furor Objective reasoned and impartial judgment were to be replaced by partiality sentiment and bias critics feared This concern about empathy has since been voiced not just by conservative critics but by academics and public figures In *The Space Between* Heidi Maibom combines results from philosophy psychology and neuroscience to argue that rather than making us more biased or partial empathy makes us more impartial and more objective The problem is that we don t see the world objectively in the first place Maibom explains We see it in terms of how we are placed in it as an extension of our interests capabilities and relationships This is a perspective and it determines what we pay attention to how we interpret events and what matters to us individually It is not private however By means of the imagination Maibom contends we can place ourselves in another person s web interests capabilities and relationships and viewing the world from there experience a new way of interpreting and valuing what happens This broadens and deepens our understanding of others and the world around us It also helps us understand the greater reality of who we are ourselves Maibom s book weaves together results from philosophy psychology and neuroscience to provide a positive up to date view of what it really means to take another person s perspective and how empathy rather than being the enemy of objectivity is the foundation of it **David Mitchell's Post-Secular World** Rose Harris-Birtill,2019-01-10 Since the publication of *Ghostwritten* 1999 David Mitchell has rapidly established himself as one of the most inventive and important British novelists of the 21st century In this landmark study Rose Harris Birtill reveals the extent to which Mitchell has created an interconnected fictional world across the full run of his writing Covering Mitchell s complete fictions from bestselling novels such as *Cloud Atlas* 2004 *The Bone Clocks* 2014 and *number9dream* 2001 to his short stories and his libretti for the operas *Sunken Garden* and *Wake* this book examines how Buddhist influences inform the ethical worldview that permeates his writing Using a comparative theoretical model drawn from the Tibetan mandala to map Mitchell s fictional world Harris Birtill positions Mitchell as central to a new generation of post secular writers who re examine the vital role of belief in galvanizing action amidst contemporary ecological political and humanitarian crises David Mitchell s *Post Secular World* features two substantial new interviews with the author a chronology of his fictions and a selected bibliography of important critical writings on his work
