Cracked Earth J.L. Villarreal, 2013-02-14 An earthquake and nuclear meltdown in Japan has forced the world's

governments to inoculate earth's population against a new form of radiation being used at the Fukushima nuclear plant in Japan. Those inoculated, the majority of the world's population, had a reaction which turned them into violent primitive humans. With all of the governments gone, a group of survivors must scavenge the abandoned world for supplies and fight off the primitive monsters to keep our civilization and our race from disappearing. With the world's population dwindling, they find out that these primitive beings are not their worst enemies but rather man himself. *Out of This World* Jacob

Berkowitz, 2009-09 Are we alone in the universe? Probably not, say most scientists. **Hosting Earth** Richard Kearney, Peter Klapes, Urwa Hameed, 2024-09-26 *Hosting Earth* is a timely and much needed volume in the emerging literature of environmental philosophy drawing upon art, science and politics to explore alternatives to the traditional domination of nature by humans. Featuring a dialogue with Mary Robinson, former UN High Commissioner for Human Rights and former President of Ireland, which addresses the current climate emergency, this book engages the question of ecological hospitality: what does it mean to be guests of the earth as well as hosts? It includes chapters by cutting edge scholars in the philosophy of nature as well as artists, scientists, psychologists and theologians. The contributors discuss proposals for a new Poetics of the Earth, opening horizons beyond our perilous Anthropocene to a new Symbiocene of mutual collaboration between human and non human species. Focusing on the central role that the human psyche plays in answering our current ecological emergency, *Hosting Earth* is for anybody invested in the future of our planet and how psychological, psychoanalytic and philosophical thought can reorient the current conversation about ecology. *Bulletin of the Atomic Scientists*, 1969-09 The *Bulletin of the Atomic Scientists* is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the *Bulletin's* iconic Doomsday Clock stimulates solutions for a safer world.

Look Homeward, Angel & Of Time and the River Thomas Wolfe, 2023-12-15 Thomas Wolfe's seminal works *Look Homeward, Angel* and *Of Time and the River* offer a profound exploration of the human experience framed within the complexities of familial bonds and the quest for identity. Utilizing a stream of consciousness narrative style, Wolfe crafts an evocative tapestry of his semi autobiographical characters, particularly the introspective Eugene Gant, whose journey reflects the universal struggle between aspiration and the pull of home. Set against the backdrop of early 20th century America, these novels delve into themes of nostalgia, memory and the passage of time, all conveyed through Wolfe's lush, lyrical prose that often teeters on the edge of the poetic. Thomas Wolfe, an American novelist born in 1900 in Asheville, North Carolina, was greatly influenced by his own tumultuous upbringing in a family of stone masons and his experiences of both small town life and the vastness of the American landscape. His formative years, marked by the dichotomy of ambition and the warmth of home, propelled him to articulate the intricacies of his personal narrative. Wolfe's encounters with literary giants such as Sherwood Anderson and F. Scott Fitzgerald further shaped his distinctive voice and experimental approach to storytelling. Readers are encouraged to engage with Wolfe's works as they grapple with not only the nuances of Gant's experience but

also the larger questions of belonging and self discovery This profound duality encapsulates a poignant reflection on life itself making both novels essential reading for those interested in the emotional depths of American literature *ETs on Earth, Volume Two* Robert Shapiro,2013-04-01 You've noticed lately haven't you that for the past few years UFOs and phenomena in the skies are all over the place Well hold on to your hats You can be pretty sure this is only going to increase in its frequency in the skies In this book you'll be able to read a little bit about who the beings in the UFOs are where they're from why they're here and so on In the future it won't just be airplane pilots reporting on these things You'll be talking about it among yourselves because regular folks just like you will be seeing these ships This time don't keep it quiet Just talk about it with your neighbors or your friends online It gives other people permission to believe what they saw People have been taught you know not to believe what they see So you can believe it it's real St. Nicholas Mary Mapes Dodge,1876 The Living Age

,1886 **New People Of The Flat Earth** Brian Short,2018-01-16 A man chases after a mysterious metal object that may not even exist and his journey leads him on to ever greater levels of madness dissociation and metaphysical conundrums After ten years in a Zen monastery Proteus knows it's time to leave A troubled solitary man he knows what he seeks is not to be found sitting in meditation His problem is that during his time at the monastery he's discovered something strange inside his mind the ability to connect with a mysterious silent metallic spherical object he calls Mosquito His connection to this possibly extraterrestrial object which seems to dwell on an existential plane of its own gives Proteus a flimsy sense of purpose So when Mosquito abruptly disappears one day Proteus can't bear the loss and he sets off in pursuit of answers Thus starts a surreal philosophically maddening quest for meaning Chasing the elusive Mosquito leads Proteus to in between worlds where things do not quite hold together and where the living and the dead must learn to live in and out of the boundaries of time The further he gets from sanity the closer he comes to something that may turn out to be wisdom Playful but unapologetically challenging *New People of the Flat Earth* is a breathtakingly original novel that defies categorisation or summary
