Books Abridged ,1958 **Fin-de-Siècle Splendor** Dewei Wang,1997 The reigning view of literary historians has been that the May Fourth movement of 1919 marks the division between the traditional and the modern in Chinese literature This book argues that signs of reform and innovation can be discerned long before May Fourth and that as China entered the arena of modern international history in the late Qing it was already developing its own complex matrix of incipient modernities It demonstrates that late Qing fiction nurtured a creative innovative poetics one that was spurned by the reformers of the May Fourth generation in favor of Western style realism The author recognizes that a full account of modern Chinese fiction needs to ask why so many genres styles themes and figures found in late imperial fiction were repressed by modern Chinese literary discourse He focuses on four genres of late Qing fiction that have been either rudely dismissed in pejorative terms or simply ignored depravity romances court case and chivalric cycles grotesque exposés and scientific fantasies The author shows that in spite of the realist orthodoxy that has dominated Chinese literature since the May Fourth movement these unwelcome genres have continually found their way back into mainstream discourse their influence being increasingly evident in recent decades This first comprehensive study of late Qing fiction discusses more than sixty works at least half of which have rarely or never been dealt with by Western or Chinese scholars Richly informed by contemporary literary theory this book constitutes a polemical rethinking of the nature of Chinese literary and

cultural modernity **The Animal Picture-Book. Abridged from "The Illustrated Natural History" [by J. G. Wood]. With ... Plates, Etc**, 1876 **The Gothic's Gothic (Routledge Revivals)** Benjamin Franklin Fisher IV, 2016-05-05 First published in 1988 this book aims to provide keys to the study of Gothicism in British and American literature It gathers together much material that had not been cited in previous works of this kind and secondary works relevant to literary Gothicism biographies memoirs and graphic arts Part one cites items pertaining to significant authors of Gothic works and part two consists of subject headings offering information about broad topics that evolve from or that have been linked with Gothicism Three indexes are also provided to expedite searches for the contents of the entries This book will be of interest to students of literature **John Cowper Powys in Search of a Landscape** C.A. Coates, 1982-06-18 *The Novel: An Alternative History, 1600-1800* Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society Having excavated the world's earliest novels in his previous book literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry* This is the period of such classic novels as *Tom Jones* *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists Spanish picaresques French heroic romances massive Chinese novels Japanese graphic novels eccentric English novels and the earliest American novels These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres epistolary novels romances Gothic thrillers novels in verse parodies science fiction episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant garde works As in his previous volume Moore privileges the innovators and outriders those who kept the novel novel In the most comprehensive history of this period ever written Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative Though written for a general audience *The Novel An Alternative History* also provides the scholarly apparatus required by the serious student of the period This sequel like its predecessor is a zestfully encyclopedic avidly opinionated and dazzlingly fresh history of the most elastic of literary forms Booklist **The Cambridge Companion to 'Robinson Crusoe'** John Richetti, 2018-04-26 An instant success in its own time Daniel Defoe's *The Adventures of Robinson Crusoe* has for three centuries drawn readers to its archetypal hero the man surviving alone on an island This Companion begins by studying the eighteenth century literary historical and cultural contexts of Defoe's novel exploring the reasons for its immense popularity in Britain and in its colonies in America and in the wider European world Chapters from leading scholars discuss the social economic and political dimensions of Crusoe's island story before examining the after life of Robinson Crusoe from the book's multitudinous translations to its cultural migrations and

transformations into other media such as film and television By considering Defoe's seminal work from a variety of critical perspectives this book provides a full understanding of the perennial fascination with and the enduring legacy of both the book and its iconic hero The Saturday Review of Politics, Literature, Science and Art, 1911 **Dickens and the Imagined Child** Peter Merchant, Catherine Waters, 2016-04-22 The figure of the child and the imaginative and emotional capacities associated with children have always been sites of lively contestation for readers and critics of Dickens In Dickens and the Imagined Child leading scholars explore the function of the child and childhood within Dickens's imagination and reflect on the cultural resonance of his engagement with this topic Part I of the collection examines the Dickensian child as both characteristic type and particular example proposing a typology of the Dickensian child that is followed by discussions of specific children in *Oliver Twist* *Dombey and Son* and *Bleak House* Part II focuses on the relationship between childhood and memory by examining the various ways in which the child's eye view was reabsorbed into Dickens's mature sensibility The essays in Part III focus upon reading and writing as particularly significant aspects of childhood experience from Dickens's childhood reading of tales of adventure they move to discussion of the child readers in his novels and finally to a consideration of his own early writings alongside those that his children contributed to the *Gad's Hill Gazette* The collection therefore builds a picture of the remembered experiences of childhood being realised anew both by Dickens and through his inspiring example in the imaginative creations that they came to inform While the protagonist of *David Copperfield* that favourite child among Dickens's novels comes to think of his childhood self as something which he left behind upon the road of life for Dickens himself leafing continually through his own back pages there can be no putting away of childish things

Charles W. Eliot, 2018-08-01 Regarded by many as the most comprehensive anthology of all time The Harvard Classics was first published in 1909 under the supervision of the Harvard president Charles W. Eliot. The publisher P. F. Collier challenged Eliot to make good on this statement and Dr. Eliot's Five Foot Shelf was the result. Eight years later Eliot added a further 20 volumes as a sub-collection titled The Harvard Classics Shelf of Fiction offering some of the greatest novels and short stories of world literature. The exhaustive anthology of the The Harvard Classics comprises every major literary figure, philosopher, religion, folklore and historical subject up to the twentieth century.
