The Moving Metropolis Oliver Green, 2003

The Moving Metropolis Sheila Taylor, 2001 Illustrated throughout this book covers the history of transport in London from its beginnings in early 19th century to the present day It covers all phases of the public transport system from horse drawn vehicles to electronic underground

Imperial Contagions Robert Peckham, David M. Pomfret, 2013-01-01 *Imperial Contagions* argues that there was no straightforward shift from older enclavist models of colonial medicine to a newer emphasis on prevention and treatment of disease among indigenous populations as well as European residents It shows that colonial medicine was not at all homogeneous on the ground but was riven with tensions and contradictions Indigenous elites contested and appropriated Western medical knowledge and practices for their own purposes Colonial policies contained contradictory and cross cutting impulses This book challenges assumptions that colonial regimes were uniformly able to regulate indigenous bodies and that colonial medicine served as a tool of empire

Light and Photomedia Jai McKenzie, 2020-09-02 *Light and Photomedia* proposes that regardless of technological change the history and future of photomedia is essentially connected to light It is a fundamental property of photomedia binding with space and time to form and inform new explicitly light based structures and experiences Jai McKenzie identifies light space time structures throughout the history of photomedia from the early image machines through analogue and digital image machines to the present day She proposes that they will continue to develop in the future and takes us to future image machines of the year 2039 With the use of the theories of Paul Virilio Jean Baudrillard and Vilém Flusser featuring artists including Henri Cartier Bresson Nam June Paik Yves Klein Eadweard

Muybridge Martha Rosler Cindy Sherman and Michael Snow as well as their photographic images Light and Photomedia places the reader in a new history and future which although mostly overlooked by the canon of photomedia theory is an essential line of enquiry for contemporary thinking and dialogue in photography Relocating Modern Science K. Raj,2007-01-05 Relocating Modern Science challenges the belief that modern science was created uniquely in the West and was subsequently diffused elsewhere Through a detailed analysis of key moments in the history of science it demonstrates the crucial roles of circulation and intercultural encounter for their emergence Street Food Charlie Taverner,2023 This is the story of the women men boys and girls who hawked oysters cherries cabbages and pies on London s streets feeding the capital throughout its transformation from medieval city to global metropolis Street Food reconstructs the working lives of these poor traders following them from the back alleys and cramped rooms they called home to the taverns bridges and corners where they set up shop It describes fast moving food chains heaving markets rumbling wheelbarrows scruffy donkeys rushing traffic and advertising cries that echoed through the city The first long term comprehensive history of street selling in London the book explores the intricacies of hawkers work and their profound social economic and cultural importance to metropolitan life between the late sixteenth and early twentieth centuries Based on the largest collection of archival and published evidence to date it not only highlights the crucial roles street sellers played in fuelling the capital s expansion but argues that their endurance over three centuries raises challenging questions about major narratives and processes of urban history like modernization the rise of retail and the improvement of the streets And it examines why the street food of the past like the continuing vitality of street vendors around the world is so different to the fashionable street food ubiquitous across London today *Top 10 Dominican Republic* DK Eyewitness,2015-09-01 DK Eyewitness Travel Guide Top 10 Dominican Republic will lead you straight to the very best this nation has to offer The guide is divided by area with restaurant reviews for each as well as recommendations for hotels bars and places to shop Rely on dozens of Top 10 lists from the Top 10 museums to the Top 10 events and festivals There s even a list of the Top 10 things to avoid Whether you re looking for the things not to miss at the Top 10 sights or want to find the best nightspots this guide is the perfect pocket sized companion DK Eyewitness Travel Guide Top 10 Dominican Republic contains a pull out map and guide that includes fold out maps useful phone numbers and 60 great ideas on how to spend a day in the Dominican Republic **Urban Discourses of Crisis, Resilience, and Resistance** Eric Prieto,Liam Lanigan,Anni Lappela,2025-07-11 This volume seeks to address questions of urban crisis from an interdisciplinary perspective that foregrounds the particular roles that literature and the creative arts play in both conceptualizing and addressing the multiple challenges facing cities Noting that the successive crises of recent years from the 2008 recession to COVID 19 seem to have put an end to the triumphalist tone of much urban writing in the 1990s this book argues that the current historical moment calls for a different kind of urban discourse focused on reassessment and regrouping This edited collection features a variety of different approaches including

close readings of literary works interviews essays in cultural and architectural history and sociological ethnographic and urban planning studies These chapters explore a range of challenges currently faced by cities and foreground the search for solutions

Archibald Liversidge, FRS Roy M. MacLeod, 2009 When Archibald Liversidge first arrived at Sydney University in 1872 as reader in Geology and Assistant in the Laboratory he had about ten students and two rooms in the main building In 1874 he became professor of geology and mineralogy and by 1879 he had persuaded the senate to open a faculty of science He became its first dean in 1882 In 1880 he visited Europe as a trustee of the Australian Museum and his report helped to establish the Industrial Technological and Sanitary Museum which formed the basis of the present Powerhouse Museum's collection Liversidge also played a major role in the setting up of the Australasian Association for the Advancement of Science which held its first congress in 1888 For anyone interested in Archibald Liversidge his contribution to crystallography mineral chemistry chemical geology strategic minerals policy and a wider field of colonial science

British Art and the First World War, 1914-1924 James Fox, 2015-07-30 The First World War is usually believed to have had a catastrophic effect on British art killing artists and movements and creating a mood of belligerent philistinism around the nation In this book however James Fox paints a very different picture of artistic life in wartime Britain Drawing on a wide range of sources he examines the cultural activities of largely forgotten individuals and institutions as well as the press and the government in order to shed new light on art's unusual role in a nation at war He argues that the conflict's artistic consequences though initially disruptive were ultimately and enduringly productive He reveals how the war effort helped forge a much closer relationship between the British public and their art a relationship that informed the country's cultural agenda well into the 1920s

Science in the 20th Century and Beyond Jon Agar, 2013-05-20 A compelling history of science from 1900 to the present day this is the first book to survey modern developments in science during a century of unprecedented change conflict and uncertainty The scope is global Science's claim to access universal truths about the natural world made it an irresistible resource for industrial empires ideological programs and environmental campaigners during this period Science has been at the heart of twentieth century history from Einstein's new physics to the Manhattan Project from eugenics to the Human Genome Project or from the wonders of penicillin to the promises of biotechnology For some science would only thrive if autonomous and kept separate from the political world while for others science was the best guide to a planned and better future Science was both a routine if essential part of an orderly society and the disruptive source of bewildering transformation Jon Agar draws on a wave of recent scholarship that explores science from interdisciplinary perspectives to offer a readable synthesis that will be ideal for anyone curious about the profound place of science in the modern world

Word Monkey Christopher Fowler, 2023-08-24 A delight a glorious witty and life affirming ragbag of autobiography cultural commentary and hard won wisdom ANDREW TAYLOR author of *The Shadows of London* Perceptive wise and illuminating an unmissable farewell Barry Forshaw FINANCIAL TIMES The most hilarious life affirming

book you'll read this year SAGA magazine Wit and wisdom that make every page turn what a fine talent the world has lost STARBURST This is the memoir Christopher Fowler always wanted to write about writing It's the story of how a young bookworm growing up in a house where there was nothing to read but knitting pamphlets and motorcycle manuals became a writer a word monkey and pursued a sort of career in popular fiction And it's a book full of brilliant insights into the pleasures and pitfalls of his profession dos and don'ts for would-be writers and astute observations on favourite and not so favourite novelists But woven into this hugely entertaining and inspiring reflection on a literary life is an altogether darker thread In Spring 2020 just as the world went into lockdown Chris was diagnosed with terminal cancer And yet there is nothing of the misery memoir about Word Monkey Past and present intermingle as in prose as light as air he relates with wry humour and remarkable honesty what he knows will be the final chapter in his story Deeply moving insightful and surprisingly funny this is Christopher Fowler's life-affirming account of coming to terms with his own mortality A remarkable book by a remarkable writer amazingly entertaining and informative and also for obvious reasons one of the most moving SIMON MASON author of the DI Wilkins Mysteries Wonderful there is no bitterness here but a hearty celebration of how art defines a life with dark humour on the right occasions and the deliberate aim to leave a positive message his enthusiasm is infectious and sobering when you are aware that he was dying as he wrote these pages Maxim Jacobowski CRIME TIME

Science, Technology and Medicine in Colonial India David Arnold, 2000-04-20 Interest in the science technology and medicine of India under British rule has grown in recent years and has played an ever-increasing part in the reinterpretation of modern South Asian history Spanning the period from the establishment of East India Company rule through to Independence David Arnold's wide-ranging and analytical survey demonstrates the importance of examining the role of science technology and medicine in conjunction with the development of the British engagement in India and in the formation of Indian responses to western intervention One of the first works to analyse the colonial era as a whole from the perspective of science the book investigates the relationship between Indian and western science the nature of science technology and medicine under the Company the creation of state scientific services imperial science and the rise of an Indian scientific community the impact of scientific and medical research and the dilemmas of nationalist science

Science and Empire Paul F. Cranefield, 2002-08-22 East Coast fever is a lethal disease of cattle caused by a parasite that multiplies within T lymphocytes causing them to become lymphoblasts that behave like cells in leukaemia and lymphoma This is the story of the disease and its effects on farmers as well as of the scientists who studied it The disease was unknown to western science or to veterinary practice until it was introduced into Rhodesia in 1901 It devastated the cattle-raising and ox-cart-dependent transport systems of Rhodesia and South Africa and was not fully brought under control for some 50 years The book describes the social and economic impact of the outbreak the scientific investigations into it and the effort to control it The scientific study of the disease was done in part by the famous bacteriologist Robert Koch whose many early

errors had a negative effect on later investigators whose work was far more sound

Imperial medicine and indigenous societies David Arnold,2017-03-01

Tokyo in Transit Alisa Freedman,2011 This work discusses literary depictions of mass transit in 20th century Tokyo in the decades preceding WWII It cuts across literary and historical sociological analysis and contributes to the growing body of work examining Japanese urbanism gender and modernism

Scientist of Empire Robert A. Stafford,2002-07-18 Sir Roderick Murchison 1792 1871 was a giant of the imperial age His career was tied intimately to the expansion of the political economic and scientific realm of the British Empire A founding father of geological science and geographical exploration he was both President of the Royal Geographical Society and Director General of the Geological Survey His identification of the Silurian system in geology and subsequent prediction of the location of economic riches are as notable as his patronage of David Livingstone and other figures of Victorian exploration More than any contemporary Murchison emerged as the eminent Victorian who sold science to the imperial government on the grounds of utility as much as prestige Robert Stafford uses this study of a man s life and work to investigate the bargain struck between science and the forces of imperialism in mid Victorian Britain This illuminates the broader and still present intimacy between science and government

An Empire on Display Peter H. Hoffenberg,2001-05-20 An examination of world s fairs in Britain and its two most important 19th century colonies Australia and India arguing that the fairs provided a forum for shaping both national and imperial identities
