Narod Ne Bezmolvstvet:

Stalin's Nomads Robert Kindler, 2018-07-31 Robert Kindler's seminal work is a comprehensive and unsettling account of the Soviet campaign to forcefully sedentarize and collectivize the Kazakh clans. Viewing the nomadic life as unproductive and their lands unused and untilled, Stalin and his inner circle pursued a campaign of violence and subjugation rather than attempting any dialog or cultural assimilation. The results were catastrophic as the conflict and an ensuing famine 1931-1933 caused the death of nearly one third of the Kazakh population. Hundreds of thousands of nomads became refugees and a nomadic culture and social order were essentially destroyed in less than five years. Kindler provides an in-depth analysis of Soviet rule, economic and political motivations, and the role of remote and local Soviet officials and Kazakhs during the crisis. This is the first English language translation of an important and harrowing history largely unknown to Western audiences prior to Kindler's study. The translation of this work was funded by Geisteswissenschaften International Translation Funding for Work in the Humanities and Social Sciences from Germany, a joint initiative of the Fritz Thyssen Foundation, the German Federal Foreign Office, the collecting society VG WORT, and the Borsenverein des Deutschen Buchhandels (German Publishers Booksellers Association).

The Hungry Steppe Sarah Cameron, 2018-11-15 The Hungry Steppe examines one of the most heinous crimes of the Stalinist regime: the Kazakh famine of 1930-33. More than 1.5 million people perished in this famine, a quarter of Kazakhstan's population, and the crisis transformed a territory the size of continental Europe. Yet the story of this famine has remained mostly hidden from view. Drawing upon state and Communist party documents as well as oral history and memoir accounts in Russian and in Kazakh, Sarah Cameron reveals this brutal story and its devastating consequences for Kazakh society. Through the most violent of means, the Kazakh famine created Soviet Kazakhstan, a stable territory with clearly delineated boundaries that was an integral part of the Soviet economic system and it forged a new Kazakh national identity. But this state-driven modernization project was uneven. Ultimately, Cameron finds neither Kazakhstan nor Kazakhs themselves were integrated into the Soviet system in precisely the ways that Moscow had originally hoped. The experience of the famine scarred the republic for the remainder of the Soviet era and shaped its transformation into an independent nation in 1991. Cameron uses her history of the Kazakh famine to overturn several assumptions about violence, modernization, and nation-making under Stalin, highlighting in particular the creation of a new Kazakh national identity and how environmental factors shaped Soviet development. Ultimately, The Hungry Steppe depicts the Soviet regime and its disastrous policies in a new and unusual light.

Sutela, 1991-07-26 Although the history of centrally planned economies has been widely studied the development of socialist thinking on the subject has remained largely uncharted In this 1991 work Pekka Sutela presents a detailed analysis of Soviet economic thought and theory Dr Sutela traces the competing currents in the Marxist tradition of socialist economies from the Revolution to the present day In particular he shows how the Gorbachev economic reform programme of 1987 rose from the work of Nobel Prize economist L V Kantorovich and his followers However this programme failed and the author explains in some detail why this happened Since then Soviet economists have tried to abandon their traditional theory of central planning and move along the path and long established contacts with leading Soviet economists Pekka Sutela is able to show how Soviet economic thinking has moved from dogmatism through reformism to pragmatism **American Contributions**
