Britton, Arthur C. Graesser, 2014-02-25 What is text understanding It is the dynamic process of constructing coherent representations and inferences at multiple levels of text and context within the bottleneck of a limited capacity working memory The field of text and discourse has advanced to the point where researchers have developed sophisticated models of comprehension and identified the particular assumptions that underlie comprehension mechanisms in precise analytical or mathematical detail The models offer a priori predictions about thought and behavior not merely ad hoc descriptions of data Indeed the field has evolved to a mature science The contributors to this volume collectively cover the major models of comprehension in the field of text and discourse Other books are either narrow covering only a single

theoretical framework or do not focus on systematic modeling efforts In addition this book focuses on deep levels of understanding rather than language codes syntax and other shallower levels of text analysis As such it provides readers with up to date information on current psychological models specified in quantitative or analytical detail **Manga** Eike Exner,2025-07 A groundbreaking story of Japanese comics from their nineteenth century origins to the present day The immensely popular art form of manga or Japanese comics has made its mark across global pop culture influencing film visual art video games and more This book is the first to tell the history of comics in Japan as a single continuous story focusing on manga as multipanel cartoons that show stories rather than narrate them Eike Exner traces these cartoons gradual evolution from the 1890s until today culminating in manga s explosion in global popularity in the 2000s and the current shift from print periodicals to digital media and smartphone apps Over the course of this 130 year history Exner answers questions about the origins of Japanese comics the establishment of their distinctive visuals and how they became such a fundamental part of the Japanese publishing industry incorporating well known examples such as Dragon Ball and Sailor Moon as well as historical manga little known outside of Japan The book pays special attention to manga s structural development examining the roles played not only by star creators but also by editors and major publishers such as K dansha that embraced comics as a way of selling magazines to different often gendered readerships This engaging narrative presents extensive new research making it an essential read for enthusiasts and experts alike **Swordbane** Paul Joseph Santoro Emerick,2022-08-17 A dark plot unfolds in the western lands of the Kingdom of Swordbane with the formation of an unholy alliance deliberate spread of a deadly affliction and a newly conspired war looming on the horizon after the Kingdom of Swordbane has just emerged victorious from a bitter twenty year long war with its eastern rival neighbor Masterminding this dark plot built on social malaise from corruption and an espoused propaganda of revisionism a former vassal of the kingdom emerges who seeks to claim the status of the ultimate dark lord and chosen vessel In seeking to receive special divine powers this aspiring dark lord will pave a bloody path of death and destruction in order to ultimately create a new prosperous social and political order inspired from the ashes of the once great Lupercalian Empire Only a group of unlikely but personally connected heroes seek to stand in the way and fight back to preserve what is left of the kingdom Throughout their trials and hardships both the heroes and this ambitious dark lord will reflect upon their past life events while seeking to move forward with the challenges they face ahead in the ultimate war of perceived good versus evil Whoever wins in this struggle one thing is certain among all of them life will never be the same Princess Knight, Part 1 Osamu Tezuka,2011-11-01 Set in a medieval fairy tale backdrop Princess Knight is the tale of a young princess named Sapphire who must pretend to be a male prince so she can inherit the throne Women have long been prevented from taking the throne but Sapphire is not discouraged and instead she fully accepts the role becoming a dashing hero ine that the populous is proud of The playful cartooning style of Princess Knight is comparable to that of Disney la Snow White and the Seven Dwarfs Considered by many as one of the first major
