Princeton and the Republic, 1768-1822 Mark A. Noll, 2004. Widely viewed during the Revolutionary period as a champion of both republicanism and evangelical Calvinism, the College of New Jersey nonetheless experienced great inner turmoil as its leaders tried to support the stability of the new nation by integrating sound principles of science and faith. Focusing on three presidencies—those of John Witherspoon, Samuel Stanhope Smith, and Ashbel Green—Mark Noll relates the dramatic institutional history of what is now Princeton University, a history closely related to the intellectual development of the early republic. Noll examines in detail the student rebellions and the trustees' disillusionment with the college, which, despite Witherspoon's and Stanhope Smith's efforts to harmonize traditional Reformed faith with a moderate Scottish enlightenment, led to the establishment of a separate Presbyterian seminary in 1812. As a cultural and intellectual history of the early United States, this book deepens our understanding of how science, religion, and politics interacted during the period. Close attention is given to the Scottish philosophy of common sense, which Stanhope Smith developed into an educational vision that he hoped would encourage a stable social order. Mark A. Noll, PhD, Vanderbilt University, teaches Christian thought and church history at Wheaton College. He is author of more than ten books, including *Religion and American Politics*. Christian *Ebony and Ivy* Craig Steven Wilder, 2014-09-02. A leading African American historian of race in America, Wilder exposes the uncomfortable truths about race, slavery, and the American academy, revealing that our leading universities, dependent on human bondage, became breeding grounds for the racist ideas that sustained it.

Schools for Statesmen Andrew H. Browning, 2022-06-16. Whatever principles are imbibed at college will run through a man's whole future conduct. William Livingston, signer of the Constitution. *Schools for Statesmen* explores the fifty-five individual framers of the Constitution in close detail and argues that their different educations help explain their divergent positions at the 1787 Constitutional Convention. Those educations ranged from outlawed Irish hedge schools to England's venerable Inns of Court, from the grammar schools of New England to ambitious new academies springing up on the Carolina frontier. The more traditional schools that focused on Greek and Latin classics—Oxford, Harvard, Yale, William and Mary—were deeply

conservative institutions resistant to change But the Scottish colleges and the newer American schools Princeton Philadelphia King s College introduced students to a Scottish Enlightenment curriculum that fostered more radical forward thinking leaders Half of the Framers had no college education and were often self taught or had private tutors most were quiet at the convention although a few stubbornly opposed the new ideas they were hearing Nearly all the delegates who took the lead at the convention had been educated at the newer innovative colleges but of the seven who rejected the new Constitution three had gone to the older traditional schools while three others had not gone to college at all Schools for Statesmen is an unprecedented analysis of the sharply divergent educations of the Framers of the Constitution It reveals the ways in which the Constitutional Convention rather than being a counterrevolution by conservative elites was dominated by forward thinking innovators who had benefited from the educational revolution beginning in the mid eighteenth century Andrew Browning offers a new and persuasive explanation of key disagreements among the Framers and the process by which they were able to break through the impasse that threatened the convention he provides a fresh understanding of the importance of education in what has been called the Critical Period of US history Schools for Statesmen takes a deep dive into the diverse educational world of the eighteenth century and sheds new light on the origins of the US Constitution

Princeton Alumni Weekly ,1977 The Practice of Pluralism Mark Häberlein,2009 Studies the development of religious congregations in Lancaster Pennsylvania from 1730 to 1820 Focuses on German Reformed Lutherans Moravians Anglicans and Presbyterians Also examines how Roman Catholics Jews and African Americans were absorbed into this predominantly white Protestant society Provided by publisher **The Papers of Benjamin Franklin** Benjamin Franklin,2024-01-02 This volume in the venerable Papers of Benjamin Franklin covers March 16 through September 12 1785 Franklin s final days as minister to France and his voyage home This volume covers Franklin s final months as minister to France and his voyage back to America He received his long awaited permission from Congress to return home accepted the king s parting gift of a miniature portrait surrounded by diamonds settled his accounts and arranged passage for himself and his two grandsons on a ship bound from England to Philadelphia Franklin instructed the French government on the culinary uses of maize and wrote a lengthy eye witness account of China that includes directions for making tofu His last public act in France was signing the Prussian American Treaty of Commerce which contained three unprecedented articles the two he wrote in 1782 guaranteeing protections during wartime for noncombatants and a third guaranteeing humane treatment for prisoners of war On the English coast Franklin met with his Loyalist son William and witnessed William s signing over his American property to his son William Temple Franklin Aboard the London Packet Franklin wrote three scientific papers including the copiously illustrated Maritime Observations His original line drawings are reproduced here for the first time The volume ends with an appendix containing supplementary documents from the French mission A New Jersey Anthology Maxine N. Empire, Religion and Revolution in Early Virginia, 1607-1786 J. Bell, 2013-07-30 The book is a new study that examines the contrasting extension of the Anglican Church to England s first two colonies Ireland and Virginia in the 17th and 18th centuries It discusses the national origins and educational experience of the ministers the financial support of the state and the experience and consequences of the institutions

America's God Mark A. Noll, 2002-10-03 Religious life in early America is often equated with fire and brimstone Puritanism yet by the nineteenth century Americans had moved away from the severe European traditions of which Puritanism was the most influential In its place arose a singularly American set of beliefs marked by heightened spiritual inwardness a new confidence in individual reason and an attentiveness to the economic and market realities of Western life In America s God Mark Noll has given us the definitive history of Christian theology in America from the time of Jonathan Edwards to the presidency of Abraham Lincoln

The Pursuit of Knowledge Under Difficulties, 1995-12 This first history of nontraditional education in America covers the span from Benjamin Franklin s Junto to community colleges It aims to unravel the knotted connections between education and society by focusing on the voluntary pursuit of knowledge by those who were both older and more likely to be gainfully employed than the school age population

Rethinking America John M. Murrin, 2018-04-02 For five decades John M Murrin has been the consummate historian s historian This volume brings together his seminal essays on the American Revolution the United States Constitution and the early American Republic Collectively they rethink fundamental questions regarding American identity the decision to declare independence in 1776 and the impact the American Revolution had on the nation it produced By digging deeply into questions that have shaped the field for several generations Rethinking America argues that high politics and the study of constitutional and ideological questions broadly the history of elites must be considered in close conjunction with issues of economic inequality class conflict and racial division Bringing together different schools of history and a variety of perspectives on both Britain and the North American colonies it explains why what began as a constitutional argument that virtually all expected would remain contained within the British Empire exploded into a truly subversive and radical revolution that destroyed monarchy and aristocracy and replaced them with a rapidly transforming and chaotic republic This volume examines the period of the early American Republic and discusses why the Founders assumptions about what their Revolution would produce were profoundly different than the society that emerged from the American Revolution In many ways Rethinking America suggests that the outcome of the American Revolution put the new United States on a path

to a violent and bloody civil war With an introduction by Andrew Shankman this long awaited work by one of the most important scholars of the Revolutionary era offers a coherent interpretation of the complex period that saw the breakdown of colonial British North America and the founding of the United States

The Protestant Temperament Philip Greven,1988-09-15 Bringing together an extraordinary richness of evidence from letters diaries and other intimate family records of the seventeenth and eighteenth centuries Philip Greven explores the strikingly distinctive ways in which Protestant children were reared in America In tracing the hidden continuities of religious experience of attitudes toward God children the self sexuality pleasure virtue and achievement Greven identifies three distinct Protestant temperaments prevailing among Americans at the time the Evangelical the Moderate and the General The Protestant Temperament is a powerful reassessment of the role of child rearing and religion in early American life

Jonathan Dickinson and the Formative Years of American Presbyterianism Bryan F. Le Beau,2021-12-14 During the eighteenth century Presbyterians of the Middle Colonies were separated by divergent allegiances mostly associated with groups migrating from New England with an English Puritan background and from northern Ireland with a Scotch Irish tradition Those differences led first to a fiery ordeal of ecclesiastical controversy and then to a spiritual awakening and a blending of diversity into a new order American Presbyterianism Several men stand out not only for having been tested by this ordeal but also for having made real contributions to the new order that arose from the controversy The most important of these was Jonathan Dickinson Bryan Le Beau has written the first book on Dickinson whom historians have called the most powerful mind in his generation of American divines One of the founders of the College of New Jersey now Princeton University and its first president Dickinson was a central figure during the First Great Awakening and one of the leading lights of colonial religious life Le Beau examines Dickinson s writings and actions showing him to have been a driving force in forming the American Presbyterian Church accommodating diverse traditions in the early church and resolving the classic dilemma of American religious history the simultaneous longing for freedom of conscience and the need for order This account of Dickinson s life and writings provides a rare window into a time of intense turmoil and creativity in American religious history

The Piety of John Witherspoon L. Gordon Tait,2001-01-01 Presbyterian minister John Witherspoon was a key figure politically and religiously in the formative years of the United States In this fresh account of Witherspoon s thought L Gordon Tait focuses on Witherspoon s piety the way Witherspoon believed that the Christian faith should take visible and practical form in ministry politics and everyday obedience and devotion The Piety of John Witherspoon is filled with photographs from Witherspoon s life and Tait s comprehensive treatment of Witherspoon makes a significant contribution to the understanding of his impact on church education and society
