Railroads Coast To Coast:

Rails of California's Central Coast Walter Rice, Emiliano Echeverria, 2008 Diversity is the prime characteristic of the California Central Coast's many rail operations. Readers will be attracted by the varying scope of Central Coast Santa Cruz, Monterey and San Luis Obispo Counties rail systems. They range from local horsecar services and the narrow gauge electrified plant railroad that served the Santa Cruz Cement Company at Davenport to the Southern Pacific Railroad's Coast Line and its engineering marvel Cuesta Grade highlighted by the world famous horseshoe curve. Local streetcar systems and long ceased regional railroads are part of the area's rail legacy. Rare historic images blended with contemporary photography chronicle the region's railways from times past to the present.

Railroads of Southwest Florida Gregg M. Turner, 1999 When the first Iron Horse arrived in Southwest Florida at Charlotte Harbor in 1886, nearly 150,000 miles of railroads already existed in America. The transcontinental route was open and Pullman sleeping cars were in wide use. But despite a late start, railroads forever transformed this beautiful region of the Sunshine State and connected its people to the outside world. In *Railroads of Southwest Florida*, the golden age of railroading is documented with captivating images of stations, machines and the people whose lives were affected by this significant form of transportation. From interior views of well-furnished passenger cars to scenes of hardworking men who made it all possible, this collection provides a thorough look at a fascinating, almost forgotten heritage.
