festival gourd rattle building a model of an Alaskan totem pole and creating a Japanese Wayang kulit or shadow puppet Kids are encouraged to make a difference and become active supporters of the rainforests no matter where they live

*Nature-based Tourism and Conservation* Clement Allan Tisdell, Clevo Wilson, 2012-01-01 This book tackles the two edge sword of non consumptive wildlife tourism on net does it add to or detract from species conservation The book does so with a treasure trove of original survey research on the supply and demand for wildlife tourism on both public and private lands from Antarctica to rainforests to marine wildlife The economic analysis is one of the first to apply new behavioral economics to analyzing tourists choices John Loomis Colorado State University US Does nature based tourism help or hinder biodiversity conservation The answer provided by this authoritative volume is that it depends on context and type of tourism and is no easy panacea Indeed it can result in an under supply of nature conservation from an economic point of view This book provides an excellent synthesis supported by case studies of the tourism conservation trade off problem it will appeal to both academic and practitioner audiences R Kerry Turner CBE University of East Anglia UK This book encapsulates a lifetime s scholarly work between the authors It sets out the platform upon which nature based tourism may be discussed and debated which it then enriches by a series of case examples mostly drawn from personal experience In doing so it performs a valuable service to all interested in this field by capturing those detailed insights into nature based tourism that are often only acquired by experience Stephen Wanhill Editor Tourism Economics In today s world even nature seems to have to pay its own way Nature based Tourism and Conservation provides detailed real life examples of how this is working in various parts of the world from rainforests to Antarctica and how the tradeoffs can best be measured Clem Tisdell and Clevo Wilson provide a unique economic perspective to the various issues involved providing practical illustrations of how others can incorporate the various ways of considering costs and benefits when deciding how to define the role nature based tourism when planning conservation measures This book will be useful to a wide range of audiences from national protected area agencies to private land owners who are establishing their own nature based tourism enterprises Jeffrey McNeely International Union for Conservation of Nature Switzerland Nature based Tourism and Conservation unearths new or neglected principles relevant to tourism and recreational economics environmental valuation and economic theory Its three parts have chapters on nature based tourism and its relationships to conservation including case studies dealing with the consequences of World Heritage listing of natural sites Antarctic subtropical and tropical national park based tourism and an NGO s conservation efforts modelled on ecotourism The final part focuses on tourism utilizing particular wildlife including sea turtles whales penguins royal albatross glow worms and tree kangaroos Australian Vegetation R. H. Groves, 1994-07-21 Australian vegetation has interested botanists and naturalists since Europeans first encountered Australia and its plant life This 1994 edition of Australian Vegetation reviews the vegetation of the continent as a whole In the introductory section chapters on phytogeography vegetation history and alien plants set the scene for further sections

covering all the major vegetation types The plant life of extreme Australian habitats is also discussed and the book closes with a chapter on the conservation of Australian vegetation Each chapter written by experts on each particular habitat type will inform and stimulate the interests of students and professional botanists especially those fortunate enough to see for themselves the unique vegetation and flora of Australia

**Chasing Neotropical Birds** Bob Thornton, 2005-04-01 From Belize to Brazil the forests of the American neotropics are home to an astonishing array of birds over 3 700 different species or nearly 40 percent of all the birds on earth Because of this overwhelming abundance birders come from all over the world to try to catch glimpses of species that can be found nowhere else such as toucans and antbirds motmots and manakins bellbirds and cocks of the rock and practically all of the planet s hummingbirds Two such birding enthusiasts are Vera and Bob Thornton who have spent fifteen years photographing these special and exotic birds in the rainforests of eleven different countries of Central and South America In this book you ll find more than a hundred spectacular color photographs they took during their travels along with a highly entertaining account of their adventures and misadventures in chasing these exotic neotropicals The birds pictured here are among the Thorntons personal favorites birds that in their words either dazzled us with their beauty or charmed us by their behavior or in a few cases simply challenged us by the mystique of their rarity This latter category includes such elusive and sought after birds as the Black crowned Antpitta the Zigzag Heron the Rufous vented Ground Cuckoo the Bare necked Umbrellabird and the monkey eating Harpy Eagle In the accompanying text Bob Thornton engagingly describes the challenges as well as the magic of negotiating the neotropical rainforests in search of colorful birds to photograph For those who would like to follow in the Thorntons footsteps there are also helpful tips about photographic gear and techniques preferred places to see the birds lodging and guides For everyone who enjoys excellent nature photography Chasing Neotropical Birds is a must have volume on the coffee table or in the library
