### Rainy Season:

**Guyana** Kirk Smock, 2008 South America s often overlooked English speaking country lies far off the well trodden tourist path Guyana is the ideal destination for the discerning visitor seeking adventure Within its vast interior the Guiana Shield one of the four pristine tropical rainforests left in the world converges with the Amazon Basin creating a unique geography composed of coastal waters mangroves marshes savannas mountains and tropical rainforests Bordered by Venezuela Brazil Suriname and the Atlantic Ocean the lively locals a melting pot of East Indian and African descendants peppered with Chinese Europeans and Amerindians create a culture decidedly more Caribbean than Latin Roundabout Activity Book - C, 1994 The Books In This Series Guide Children Through Various Pictorial Activities Which Help Them In Developing Basic Concepts And Pre Reading Skills These Extensively Illustrated Books Also Provide Explicit Notes For Teachers The Worksheets Have Been Widely And Successfully Tested In Schools Books A B And C Focus On Concept Building Activities While Book D Teaches Pre Reading Skills In Hindi *The Asian Monsoon* Bin Wang, 2006-01-13 This is a timely interdisciplinary scientific overview of the atmosphere the ocean and the land surface as it interacts with physical chemical and biological processes The high level of detail sets it apart from other studies of monsoon meteorology The text includes analysis of paleoclimate records human influences on the monsoon climate and the economic impacts of the monsoon on economies and to human health *Buddhist Monastic Life* Môhan Wijayaratna, 1990-11-30 This 1991 book provides a brief yet detailed account of the ideal way of life prescribed for Buddhist monks and nuns in the Pali texts of the Theravada school of Buddhism The author describes the way in which the Buddha s disciples institutionalized his teachings about such things as food dress money chastity solitude and discipleship This tradition represents an ideal of religious life that has been followed in South and Southeast Asia for over two thousand years In previous writing on the early period of Buddhist monasticism scholars have usually tried to give an historical account of the evolution of the monastic order and so have seen the extant Vinaya texts as coming from distinct historical periods This book takes a different approach by presenting a synchronic account which allows the author to show that sources are in fact predominantly consistent and coherent

**Religion at Work in Globalised Traditions** Anders Kaliff,2014-03-26 Why do traditions disappear How is the disappearance of tradition also a vehicle for social change and re inventions of practices and new traditions Using case studies from one Sukuma area along the southern shores of Lake Victoria in Tanzania global processes of how religions work in practice are analysed by focusing on rainmaking witchcraft and Christianity Traditionally Sukuma society was culturally and cosmologically structured around the chief the ancestors and rainmaking Everything was dependent upon the rain Rainmaking as a ritual practice has disappeared and ancestral propitiations are declining while at the same time Christianity is spreading and witchcraft and witch killings are increasing Although Christianity as a religion may provide answers and hopes for life after death the religion provides few solutions in the here and now when it comes to poverty and suffering problems and challenges that have to be solved Witchcraft on the other hand does or is believed to do so and the increase in witchcraft is analysed in relation to the impacts of more than a century of globalisation from the missionaries and colonizers onwards With the declining ancestral tradition witchcraft and Christianity as religious practices supplement each other in the ways they are believed to work in providing answers solutions or divine interferences in different realms this world and the Otherworld Offering an approach going beyond structural functionalism on different premises the book's focus on religion at work will facilitate new understandings of how to study religion as it is perceived and believed in practice **Vegetable**

Joyce, Cunningham, Kenda, Olney, Deanna K., Kumar, Neha, 2025-07-28 In Tanzania fruit and vegetable F V production is the fastest growing agricultural subsector 1 Production is concentrated among smallholder farmers who face numerous barriers which hamper intensification These include lack of quality inputs insufficient financing limited access to subsidies limited extension services and limited and unreliable access to markets The CGIAR Research Initiative on Fruit and Vegetables for Sustainable Healthy Diets FRESH now under the CGIAR Science Program on Better Diets and Nutrition BDN Area of Work 3 is testing the effectiveness of its end to end approach in Northern Tanzania 2 This approach described in more detail in Research Brief 1 combines demand food environment and supply interventions to increase desirability affordability accessibility and availability of F V The supply interventions are designed to address known barriers faced by F V farmers For example the provision of climate resilient vegetable cultivars tackles the lack of quality inputs whereas training on safe and sustainable vegetable production including integrated pest management tackles limited extension services The International Food Policy Research Institute IFPRI and partners are conducting a longitudinal evaluation to assess the impact of the FRESH end to end approach in Tanzania on household vegetable production and F V intake among women of reproductive age The evaluation is being conducted among 2 611 households living in 33 villages in five districts in the Arusha and Kilimanjaro regions In this research brief we describe baseline findings on the production of vegetables fruit and staple crops and the inputs used in production among different types of farming households in the study area **Costa Rican Natural**

**History** Daniel H. Janzen, 2018-12-14 This volume is a synthesis of existing knowledge about the flora and fauna of Costa Rica The major portion of the book consists of detailed accounts of agricultural species vegetation amphibians reptiles mammals birds and insects This is an extraordinary virtually unique work The tremendous amount of original previously unpublished firsthand information is remarkable Peter H Raven Director Missouri Botanical Garden An essential resource for anyone interested in tropical biology It can be used both as an encyclopedia a source of facts on specific organisms and as a source of ideas and generalizations about tropical ecology Alan P Smith Ecology Monsoons over China Ding

Yihui, 2013-03-09 The monsoon over China is one of the major components of the general circulation on a global basis Its activity bears a significant regional implication in East Asia and Southeast Asia Recently the remarkable relationship and teleconnection between this part of the monsoon and other regions over the world have been revealed However little of the overall picture of monsoons over China is known by meteorologists in English speaking countries This monograph provides the first opportunity to extensively introduce this subject and give a comprehensive and systematic description of the major aspects of monsoons over China with a special emphasis on the fluctuations of the monsoon on various scales and the effects of the Tibetan Plateau on the monsoon Much highly original material and achievements Chinese and Western meteorologists have made from the past 20 years have been incorporated with a unifying approach In each chapter the observational and theoretical including modelling treatment will be closely combined in order to fully illustrate the relevant problems The

unique thermal and dynamical effects of the Tibetan Plateau on the monsoon circulation features which are one of the central problems of the Asian monsoon are highlights of this monograph Researchers in meteorology and weather forecasters should find this book a very useful introduction to monsoons over China not only for its systematic treatment of the subject but also because of its considerable historical information This monograph is equally suitable for graduates or more advanced students in meteorology hydrology and oceanography
