Tricksters of Gotham Robert E. Terrill, 2025-08-08 Tricksters of Gotham explores the trickster tale through an in depth look at Christopher Nolan s Batman trilogy Batman Begins The Dark Knight and The Dark Knight Rises The trickster figure is an ancient and variable figure versions of which populate the myths and folklore of many human cultures worldwide Conceptualising the trilogy as a single aggregate text with a clear narrative arc the author explores the variety of trickster figures present in the films and draws clear parallels with the surrounding social and political context Departing from the central argument that the Batman trilogy shows a variety of trickster characters even Batman himself this book shows contemporary trickster figures to be rich and relevant cultural resources that can focus our attention on those elements of the social order that have become too rigid hierarchical or exclusionary The author argues that they can model tactics for engaging with tricksters when they inevitably arise in civic culture offering insights about how to manage interactions with these figures who can be both productively disruptive and potentially destructive This book pays close attention to the characters portrayed in the Nolan Batman trilogy not only the Batman and the Joker but the more minor characters as well to discover what trickster like tactics they may offer In this way the book intends to render these films as a sort of equipment for civic life and to encourage similar analyses of other contemporary cultural artifacts Through close readings of these films the book renders the Nolan Batman trilogy as what rhetorical theorist Kenneth Burke refers to as equipment for living This book will interest scholars and students of rhetoric and public culture film studies and communication

Exploding the Western Sara L. Spurgeon, 2005-03-01 The frontier and Western expansionism are so quintessentially a part of American history that the literature of the West and Southwest is in some senses the least regional and the most national literature of all The frontier the place where cultures meet and rewrite themselves upon each other s texts continues to energize writers whose fiction evokes destroys and rebuilds the myth in ways that attract popular

audiences and critics alike Sara L Spurgeon focuses on three writers whose works not only exemplify the kind of engagement with the theme of the frontier that modern authors make but also show the range of cultural voices that are present in Southwestern literature Cormac McCarthy Leslie Marmon Silko and Ana Castillo Her central purposes are to consider how the differing versions of the Western mythic tales are being recast in a globalized world and to examine the ways in which they challenge and accommodate increasingly fluid and even dangerous racial cultural and international borders In Spurgeon's analysis the spaces in which the works of these three writers collide offer some sharply differentiated visions but also create new and unsuspected forms providing the most startling insights Sometimes beautiful sometimes tragic the new myths are the expressions of the larger culture from which they spring both a projection onto a troubled and troubling past and an insistent prophetic vision of a shared future Ifá Divination, Knowledge, Power, and Performance Jacob K.

Nation, Memory, Myth Steve Vizard, 2025-04-16 In Nation Memory Myth Steve Vizard brings an original perspective to the foundational myth of Gallipoli as a sacred bearer of Australian national values and identity In this scrupulously researched close reading of the Gallipoli mythology Vizard dissects the elements common to all national myths that transform them into compelling symbolic performances of cultural memory and kinship unpicking the tensions and explaining the ambiguities embodied within Nation Memory Myth offers the reader a challenging new look at the extraordinary vitality of myth as a unifying force that generates meaning for a nation and its citizens Only by understanding myth s evolution across time and by disentangling it from history memory and forgetting can we begin to sense what an Australia in the twenty first century may mean Whether you are an Anzacophile or an Anzacophobe Steve Vizard has provided a fascinating framework for understanding Anzac s imaginative stronghold over the Australian nation Clare Wright A tour de force of narrative synthesis an utter joy to read Professor Vizard leaps into the foundational myth of the Anzac and leads his readers through a

complex tumultuous reading of the Gallipoli narrative to ask what is this thing this Australia Lucid engaging rigorous compelling Simply excellent Ian MaxwellM As a political and military event Gallipoli might well have been absurd Vizard shows that it is only as a myth that it achieves a grandeur which endures Thomas Kenneally **Rabi'a From Narrative to Myth** Rkia Elaroui Cornell,2019-01-03 Rabi a al Adawiyya is a figure shrouded in myth Certainly a woman by this name was born in Basra Iraq in the eighth century but her life remains recorded only in legends stories poems and hagiographies The various depictions of her as a deeply spiritual ascetic an existentialist rebel and a romantic lover seem impossible to reconcile and yet Rabi a has transcended these narratives to become a global symbol of both Sufi and modern secular culture In this groundbreaking study Rkia Elaroui Cornell traces the development of these diverse narratives and provides a history of the iconic Rabi a s construction as a Sufi saint Combining medieval and modern sources including evidence never before examined in novel ways Rabi a From Narrative to Myth is the most significant work to emerge on this quintessential figure in Islam for more than seventy years **Studying Hinduism** Sushil Mittal,Gene Thursby,2009-01-19 This book is an indispensable resource for students and researchers wishing to develop a deeper understanding of one of the world s oldest and most multifaceted religious traditions Sushil Mittal and Gene Thursby leading scholars in the field have brought together a rich variety of perspectives which reflect the current lively state of the field Studying Hinduism is the result of cooperative work by accomplished specialists in several fields that include anthropology art comparative literature history philosophy religious studies and sociology Through these complementary and exciting approaches students will gain a greater understanding of India s culture and traditions to which Hinduism is integral The book uses key critical terms and topics as points of entry into the subject revealing that although Hinduism can be interpreted in sharply contrasting ways and set in widely varying contexts it is endlessly fascinating and intriguing **Thinking Through Myths** Kevin Schilbrack,2003-09-02 Eight outstanding essays from leading academics deconstruct perennial problems of rationality imagination and narrative to trace the influence of myth in our own beliefs origins and potential futures Thinking Through Myths attempts to reconcile the opposed claims of pragmatism and beauty calling for the acknowledgement of myths in everyday experience The Archetypal Cosmos Keiron Le Grice,2011-06-09 The modern world is passing through a time of critical change on many levels cultural political ecological and spiritual We are witnessing the decline and dissolution of the old order the tumult and uncertainty of a new birth Against this background there is an urgent need for a coherent framework of meaning to lead us beyond the growing fragmentation of culture belief and personal identity Keiron Le Grice argues that the developing insights of a new cosmology could provide this framework helping us to discover an underlying order shaping our life experiences In a compelling synthesis of the ideas of seminal thinkers from depth psychology and the new paradigm sciences Le Grice positions the new discipline of archetypal astrology at the centre of an emerging world view that reunifies psyche and cosmos spirituality and science mythology and metaphysi and enables us to see mythic gods heroes and themes in a fresh light He

draws especially on the work of C G Jung Joseph Campbell Richard Tarnas Fritjof Capra David Bohm and Brian Swimme
Heralding a rediscovery of the gods and the passage into a new spiritual era The Archetypal Cosmos presents a new
understanding of the role of myth and archetypal principles in our lives one that could give a cosmic perspective and deeper
meaning to our personal experiences **What Has Wittenberg to Do with Azusa?** David J. Courey, 2015-02-26 Global
Pentecostalism is a twenty first century phenomenon Yet in North America where the movement was born it has stalled
Courey uncovers the cause of this plateau in the triumphalism that is characteristic of both North American Protestantism
and Pentecostalism Through the identification of parallels between Martin Luther and contemporary Pentecostals Courey
detects in Luther's Theology of the Cross a potent remedy for this tension Utilising this insight Courey reflects on other faith
traditions and provides a counterpoint to the triumphalism that inhibits the development of Pentecostalism in North America
and around the world This work comprises of three parts The first is historical charting the antecedents and development of
Pentecostal triumphalism The second is an experiment in historical theology seeking basic resonances between Luther and
early Pentecostals and examining the Theology of the Cross as a means of probing Pentecostalism The final section is an
effort in constructive theology applying the theologia crucis to some of the central aspects of Pentecostalism Hidden
