

The background of the book cover is a classical painting. It depicts an interior scene with a woman seated in the foreground, wearing a red shawl and a blue headscarf. She is looking towards the viewer. In the background, another figure is visible, and the architecture features classical columns and a large opening leading to an outdoor area with a landscape view.

Women in Ancient Greece Paul Chrystal, 2017-06-29 Examines women whose influence was positive as well as those whose reputations were more notorious Supremely well researched from many different historical sources Superbly illustrated with photographs and drawings Women in Ancient Greece is a much needed analysis of how women behaved in Greek society how they were regarded and the restrictions imposed on their actions Given that ancient Greece was very much a man's world most books on ancient Greek society tend to focus on men this book redresses the imbalance by shining the spotlight on that neglected other half Women had significant roles to play in Greek society and culture this book illuminates those roles Women in Ancient Greece asks the controversial question how far is the assumption that women were secluded and excluded just an illusion It answers it by exploring the treatment of women in Greek myth and epic their treatment by playwrights poets and philosophers and the actions of liberated women in Minoan Crete Sparta and the Hellenistic era when some elite women were politically prominent It covers women in Athens Sparta and in other city states describes women writers philosophers artists and scientists it explores love marriage and adultery the virtuous and the meretricious and the roles women played in death and religion Crucially the book is people based drawing much of its evidence and many of its conclusions from lives lived by historical Greek women *Nietzschean, Feminist, and Embodied Perspectives on the Presocratics* Joseph I. Breidenstein Jr., 2023-12-22 This book is the first sustained scholarly account of women and goddesses in presocratic philosophy It approaches the origin of western philosophy via Nietzsche Feminism and Embodied Cognition in order to argue that the presocratics were reviving within the largely patriarchal and death glorifying culture of archaic Greece a paleo neolithic goddess centered religiosity that affirmed life and rebirth By taking readers from prehistoric Europe to classical Athens Joseph I Breidenstein Jr provides a novel narrative of the dawn of western philosophy which is more comprehensive than traditional accounts and which helps us address contemporary problems the patriarchal attitudes and ideas that continue to corrupt academic philosophical culture the fascist dominator lifestyle that continues to threaten western democracy and which is encouraged by the patriarchal aspects of academia and the consumerism that continues to result from a materialistic secular paradigm that is being increasingly recognized as both intellectually untenable and socially unsustainable

Slave-Wives, Single Women and "Bastards" in the Ancient Greek World Morris Silver, 2018-01-31 Greek scholars have produced a vast body of evidence bearing on nuptial practices that has yet to be mined by a professional economist By standing on their shoulders the author proposes and tests radically new interpretations of three important status groups in Greek history the pallak the nothos and the hetaira It is argued that

legitimate marriage marriage by loan of the bride to the groom was not the only form of legal marriage in classical Athens and the ancient Greek world generally Pallakia marriage by sale of the bride to the groom was also legally recognized The pallak wifeship transaction is a sale into slavery with a restrictive covenant mandating the employment of the sold woman as a wife In this highly original and challenging new book economist Morris Silver proposes and tests the hypothesis that the likelihood of bride sale rises with increases in the distance between the ancestral residence of the groom and the father s household Nothoi the bastard children of pallakai lacked the legal right to inherit from their fathers but were routinely eligible for Athenian citizenship It is argued that the basic social meaning of hetaira companion is not prostitute or courtesan but single woman a woman legally recognized as being under her own authority kuria The defensive adaptation of single women is reflected in Greek myth and social practice by their grouping into packs most famously the Danaids and Amazons

Tortoise Lloyd Llewellyn-Jones,2003-12-31 Greek women routinely wore the veil That is the unexpected finding of this meticulous study one with interesting implications for the origins of Western civilisation The Greeks popularly and rightly credited with the invention of civic openness are revealed as also part of a more Eastern tradition of seclusion Llewellyn Jones work proceeds from literary and notably from iconographic evidence In sculpture and vase painting it demonstrates the presence of the veil often covering the head but also more unobtrusively folded back onto the shoulders This discreet fashion not only gave a privileged view of the face to the ancient art consumer but also incidentally allowed the veil to escape the notice of traditional modern scholarship From Greek literary sources the author shows that full veiling of the head and face was commonplace He analyses the elaborate Greek vocabulary for veiling and explores what the veil meant to achieve He shows that the veil was a conscious extension of the house and was often referred to as tegidion literally a little roof Veiling was thus an ingenious compromise it allowed women to circulate in public while maintaining the ideal of a house bound existence Alert to the different types of veil used the author uses Greek and more modern evidence mostly from the Arab

world to show how women could exploit and subvert the veil as a means of eloquent sometimes emotional communication First published in 2003 and reissued as a paperback in 2010 Llewellyn Jones book has established itself as a central and inspiring text for the study of ancient women

Light and Darkness in Ancient Greek Myth and Religion Menelaos Christopoulos, Marion Meyer, Olga Levaniouk, 2010-09-25 Light and darkness played an important role beyond the division of time in ancient Greek myth and religion the contributors to *Light and Darkness in Ancient Greek Myth and Religion* consider its function on both the individual and social level as manifested in modes of thought and behavior and expressed in language beliefs ritual and iconography The book is divided into five parts color semantics appearance and concealment eye sight insight being and beyond and cult Each subdivision contains a wealth of information for the reader ranging from detailed explanations of the interplay between lexical categories that denote darkness and light and the effect of blindness on metaphysical matters to the qualities of cultic light This unique volume will be of interest to readers in fields as diverse as

ancient Greek history metaphysics and iconography *Girls and Women in Classical Greek Religion* Matthew Dillon, 2003-09-02 It has often been thought that participation in fertility rituals was women's most important religious activity in classical Greece. Matthew Dillon's wide-ranging study makes it clear that women engaged in numerous other rites and cults and that their role in Greek religion was actually more important than that of men. Women invoked the gods' help in becoming pregnant, venerated the god of wine, worshipped new and exotic deities, used magic for both erotic and pain-relieving purposes, and far more besides. Clear and comprehensive, this volume challenges many stereotypes of Greek women and offers unexpected insights into their experience of religion. With more than fifty illustrations and translated extracts from contemporary texts, this is an essential resource for the study of women and religion in classical Greece. *Rituals of Death and Dying in Modern and Ancient Greece* Evy Johanne Håland, 2014-10-02 Winner of the AFS Elli Knings Maranda Prize 2016 Multidisciplinary or post-disciplinary research is what is needed when dealing with such complex subjects as ritual behaviour. This research therefore combines ethnography with historical sources to examine the relationship between modern Greek death rituals and ancient written and visual sources on the subject of death and gender. The central theme of this work is women's role in connection with the cult of the dead in ancient and modern Greece. The research is based on studies in ancient history combined with the author's fieldwork and anthropological analysis of today's Mediterranean societies. Since death rituals have a focal and lasting importance and reflect the gender relations within a society, the institutions surrounding death may function as a critical vantage point from which to view society. The comparison is based on certain religious festivals that are dedicated to deceased persons and on other death rituals. Using laments, burials, and the ensuing memorial rituals, the relationship between the cult dedicated to deceased mediators in both ancient and modern society is analysed. The research shows how the official ideological rituals are influenced by the domestic rituals people perform for their own dead, and vice versa, that the modern domestic rituals simultaneously reflect the public performances. As this cult has many parallels with the ancient official cult, the following questions are central: Can an analysis of modern public and domestic rituals in combination with ancient sources tell the reader more about the ancient death cult as a whole? What does such an analysis suggest about the relationship between the domestic death cult and the official? Since the practical performance of the domestic rituals was and still remains in the hands of women, it is crucial to discover the extent of their influence to elucidate the real power relations between women and men. This research represents a new contribution to earlier presentations of the Greek reality but mainly from the female perspective, which is highly significant since men produced most of the ancient sources. This means that the principal objective for this endeavour is to question the ways in which history has been written through the ages, to supplement the male with a female perspective, perhaps complementing an Olympian Zeus with a Chthonic Mother Earth. The research brings both ancient and modern worlds into mutual illumination; its relevance therefore transcends the Greek context both in time and space. *Coming of Age in Ancient*
