over El Salvador All shared the experience of having become refugees and having settled in a new country under the same circumstances and when the war in their own country ended they shared a concern about the issues involved in deciding whether to return there Their diversity allows Hayden to examine the ways in which the language of national identity played out in different contexts and sometimes contradictory ways Drawing on contemporary theories of migration and space Hayden identifies the discourses narratives and concepts that Salvadorans in Costa Rica had in common and then analyzes the ways in which their experiences and their uses of those discourses varied She focuses on key spatial concepts that Salvadorans used in talking about displacement and re emplacement in order to show how they constructed the experience of settlement and how such variables as gender and age influenced their experiences Because nationality was an idiom they used to relate their experiences she pays particular attention to the role of national belonging and national difference in terms of both the ways in which the Salvadorans were received by Costa Ricans and their reactions to their new lives in Costa Rica A concluding chapter compares them with Salvadorans who emigrated to other countries The story of these displaced Salvadorans focusing on the lives of real people can give us a new understanding of how individuals feel a sense of belonging to a sociocultural space By exploring many meanings of the nation and national belonging for different people under varying conditions Hayden s study provides fresh insights into the dynamics of migration gender and nationalism

first decades of the twenty first century to consider the nation building process from the margins while also questioning traditional scholarly works that have reproduced rather than deconstructed Costa Rica s exceptionalist national mythology which hail Costa Rica as Central America s white democratic nonviolent and egalitarian republic In this compelling political economic and lived history Kordick suggests that Costa Rica s exceptionalist and egalitarian mythology emerged during the Cold War as revolution civil war military dictatorship and state violence plagued much of Central America From the vantage point of Costa Rica s premier coffee producing region she examines local national and transnational processes This deeply textured narrative details the inauguration of coffee capitalism which heightened existing class divisions a successful armed revolt against the national government which forged the current political regime and the onset of massive out migration to the United States Kordick s research incorporates more than one hundred oral histories and thousands of archival sources gathered in both Costa Rica and the United States to produce a human history of Costa Rica s past Her work on the recent past profiles the experiences of migrants in the United States mostly in New Jersey where many undocumented Costa Ricans find low paid work in the restaurant and landscaping sectors The result is a fine grained examination of Tarraz s development from the 1820s to the present that reshapes traditional understandings of Costa Rica and its national past

Ellen Moodie,2011-09-01 El Salvador s civil war which left at least 75 000 people dead and displaced more than a million ended in 1992 The accord between the government and the Farabundo Mart National Liberation Front FMLN has been lauded as a model post Cold War peace agreement But after the conflict stopped crime rates shot up The number of murder victims surpassed wartime death tolls Those who once feared the police and the state became frustrated by their lack of action Peace was not what Salvadorans had hoped it would be Citizens began saying to each other It s worse than the war El Salvador in the Aftermath of Peace Crime Uncertainty and the Transition to Democracy challenges the pronouncements of policy analysts and politicians by examining Salvadoran daily life as told by ordinary people who have limited influence or affluence Anthropologist Ellen Moodie spent much of the decade after the war gathering crime stories from various neighborhoods in the capital city of San Salvador True accounts of theft assaults and murders were shared across kitchen tables on street corners and in the news media This postconflict storytelling reframed violent acts rendering them as driven by common criminality rather than political ideology Moodie shows how public dangers narrated in terms of private experience shaped a new interpretation of individual risk These narratives of postwar violence occurring at the intersection of self and other citizen and state the powerful and the powerless offered ways of coping with uncertainty during a stunted transition to democracy *Salvadorans by Flight* Molly Todd,2007 **Missing Mila, Finding Family** Margaret E.

Susan Bibler Coutin,2016-04-15 In Exiled Home Susan Bibler Coutin recounts the experiences of Salvadoran children who migrated with their families to the United States during the 1980 1992 civil war Because of their youth and the violence they left behind as well as their uncertain legal status in the United States many grew up with distant memories of El Salvador and a profound sense of disjuncture in their adopted homeland Through interviews in both countries Coutin examines how

they sought to understand and overcome the trauma of war and displacement through such strategies as recording community histories advocating for undocumented immigrants forging new relationships with the Salvadoran state and for those deported from the United States reconstructing their lives in El Salvador In focusing on the case of Salvadoran youth Coutin s nuanced analysis shows how the violence associated with migration can be countered through practices that recuperate historical memory while also reclaiming national membership **Beyond Displacement** Molly Todd,2010-12-22

During the civil war that wracked El Salvador from the mid 1970s to the early 1990s the Salvadoran military tried to stamp out dissidence and insurgency through an aggressive campaign of crop burning kidnapping rape killing torture and gruesome bodily mutilations Even as human rights violations drew world attention repression and war displaced more than a quarter of El Salvador s population both inside the country and beyond its borders **Beyond Displacement** examines how the peasant campesinos of war torn northern El Salvador responded to violence by taking to the hills Molly Todd demonstrates that their flight was not hasty and chaotic but was a deliberate strategy that grew out of a longer history of collective organization mobilization and self defense
