The Composer Embalmed Abigail Fine, 2025-06-05 The first granular study of nineteenth century composer devotion a network of devotees who preserved tangible traces of composers through relics rituals pilgrimage exhumation and embalming During the nineteenth century music institutions promoted artworks they deemed timeless and made composers into figureheads of a lasting Western canon Alongside this institutional face of the canon was a more intimate impulse to preserve touch and embrace the residues of the dead In Germany and Austria between 1870 and 1930 music lovers venerated the bodies houses and belongings of composers as relics shrines and talismans In *The Composer Embalmed* Abigail Fine documents the vernacular and eccentric ways that composers have been remembered Fine navigates a wealth of unknown archival material to recover the stories of devotees from pilgrims who felt time stop in historic houses to music loving doctors who made skulls into sacred specimens dilettantes who displayed Beethoven's mask as a relic of the beautiful death and interwar critics of those dilettantes who disparaged piety as a false religion a kitsch replica In isolation these practices may look like simple acts of affection But in the aggregate Fine asserts acts of devotion constituted what we might broadly understand as relic culture a culture that sought to possess the body of the departed genius and that superimposed habits of anthropological collecting onto artifacts of Austro-German heritage By excavating objects ephemera amateur lyric visitors books letters and travelogues *The Composer Embalmed* reveals the underbelly of the canon where guilty pleasures blur the boundary between sanctity and desecration
