Romanticism and Theatrical Experience Jonathan Mulrooney, 2019-01-10 Bringing together studies in theater history print culture and literature this book offers a new

consideration of Romantic period writing in Britain Recovering a wide range of theatrical criticism from newspapers and periodicals some of it overlooked since its original publication in Regency London Jonathan Mulrooney explores new contexts for the work of the actor Edmund Kean essayist William Hazlitt and poet John Keats Kean's ongoing presence as a figure in the theatrical news presented readers with a provocative reimagining of personal subjectivity and a reworking of the British theatrical tradition Hazlitt and Keats in turn imagined the essayist and the poet along similar theatrical lines reframing Romantic prose and poetics Taken together these case studies illustrate not only theater's significance to early nineteenth century Londoners but also the importance of theater's textual legacies for our own reassessment of Romanticism as a historical and cultural phenomenon

The English Prose Treatises of Richard Rolle Claire Elizabeth McIlroy, 2004 The author argues that in these devotional works which appealed to a broad readership in late medieval England Rolle successfully refines traditional affective strategies to develop an implied reader identity the individual soul seeking the love of God which empowers each and every reader in his or her own spiritual journey Jacket

Ben Jonson, John Marston and Early Modern Drama Rebecca Yearling, 2016-01-05 This book examines the influence of John Marston typically seen as a minor figure among early modern dramatists on his colleague Ben Jonson While Marston is usually famed more for his very public rivalry with Jonson than for the quality of his plays this book argues that such a view of Marston seriously underestimates his importance to the theatre of his time In it the author contends that Marston's plays represent an experiment in a new kind of satiric drama with origins in the humanist tradition of *serio ludere* His works deliberately unpredictable inconsistent and metatheatrical subvert theatrical conventions and provide confusingly multiple perspectives on the action forcing their spectators to engage actively with the drama and the moral dilemmas that it presents The book argues that Marston's work thus anticipates and perhaps influenced the mid period work of Ben Jonson in plays such as *Sejanus* *Volpone* and *The Alchemist*

The Secret Within Wolfgang Riehle, 2014-02-07 Spiritual seekers throughout history have sought illumination through solitary contemplation In

the Christian tradition medieval England stands out for its remarkable array of hermits recluses and spiritual outsiders from Cuthbert Godric of Fichale and Christina of Markyate to Richard Rolle Julian of Norwich and Margery Kempe In *The Secret Within* Wolfgang Riehle offers the first comprehensive history of English medieval mysticism in decades one that will appeal to anyone fascinated by mysticism as a phenomenon of religious life In considering the origins and evolution of the English mystical tradition Riehle begins in the twelfth century with the revival of eremitical mysticism and the early growth of the Cistercian Order in the British Isles He then focuses in depth on the great mystics of the fourteenth and fifteenth centuries Richard Rolle the first great English mystic the author of *The Cloud of Unknowing* Walter Hilton Margery Kempe and Julian of Norwich Riehle carefully grounds his narrative in the broader spiritual landscape of the Middle Ages pointing out both prior influences dating back to Late Antiquity and corresponding developments in mysticism and theology on the Continent He discusses the problem of possible differences between male and female spirituality and the movement of popularizing mysticism in the late Middle Ages Filled with fresh insights *The Secret Within* will be welcomed especially by teachers and students of medieval literature as well as by those engaged in historical theological philosophical cultural even anthropological and comparative studies of mysticism

The End of Satisfaction Heather Hirschfeld, 2014-04-17 In *The End of Satisfaction* Heather Hirschfeld recovers the historical specificity and the conceptual vigor of the term satisfaction during the sixteenth and early seventeenth centuries Focusing on the term's significance as an organizing principle of Christian repentance she examines the ways in which Shakespeare and his contemporaries dramatized the consequences of its re or de valuation in the process of Reformation doctrinal change The Protestant theology of repentance Hirschfeld suggests underwrote a variety of theatrical plots to set things right in a world shorn of the prospect of making enough satisfacere Hirschfeld's semantic history traces today's use of satisfaction as an unexamined measure of inward gratification rather than a finely nuanced standard of relational exchange to the pressures on legal economic and marital discourses wrought by the Protestant rejection of the Catholic sacrament of penance contrition confession satisfaction and represented imaginatively on the stage In so doing it offers fresh readings of the penitential economies of canonical plays including *Dr Faustus* *The Revenger's Tragedy* *The Merchant of Venice* and *Othello* considers the doctrinal and generic importance of lesser known plays including *Enough Is as Good as a Feast* and *Love's Pilgrimage* and opens new avenues into the study of literature and repentance in early modern

England **Reading Early Modern Women** Helen Ostovich, Elizabeth Sauer, Melissa Smith, 2004 This remarkable anthology assembles for the first time 144 primary texts and documents written by women between 1550 and 1700 and reveals an unprecedented view of the intellectual and literary lives of women in early modern England *The Constitution of Shelley's Poetry* Edward T. Duffy, 2011-07 The Constitution of Shelley's Poetry is a close philosophical reading of Prometheus Unbound and other Shelley works from the perspective of the argument or drama of language played out in its pages The book urges and practises close reading but in the thought of Stanley Cavell it finds and develops philosophical grounds for this ostensibly old fashioned approach and it implicitly proposes an understanding of language very different from those currently assumed in literary studies **Sir Philip Sidney, Cultural Icon** R. Hillyer, 2010-04-12 This study analyzes Sir Philip Sidney's reputation from his own day to the present by discussing his reception in the work of authors as diverse in time and type as Sir Fulke Greville Christopher Hill Charles Lamb Edmund Waller and Thomas Warton the elder

Theatrical Convention and Audience Response in Early Modern Drama Jeremy Lopez, 2002-12-05 This book gives a detailed and comprehensive survey of the diverse theatrically vital formal conventions of the drama of Shakespeare and his contemporaries Besides providing readings of plays such as Hamlet Othello Merchant of Venice and Titus Andronicus it also places Shakespeare emphatically within his own theatrical context and focuses on the relationship between the demanding repertory system of the time and the conventions and content of the plays Lopez argues that the limitations of the relatively bare stage and non naturalistic mode of early modern theatre would have made the potential for failure very great and he proposes that understanding this potential for failure is crucial for understanding the way in which the drama succeeded on stage The book offers perspectives on familiar conventions such as the pun the aside and the expository speech and it works toward a definition of early modern theatrical genres based on the relationship between these well known conventions and the incoherent experience of early modern theatrical narratives *The Variorum Edition of the Poetry of John Donne, Volume 4.2* John Donne, 2021-11-02 This volume the ninth in the series of The Variorum Edition of the Poetry of John Donne presents newly edited critical texts of 25 love lyrics Based on an exhaustive study of the manuscripts and printed editions in which these poems have appeared Volume 4.2 details the genealogical history of each poem accompanied by a thorough prose discussion as well as a General Textual Introduction of the Songs and Sonets collectively The volume also presents a comprehensive digest of the commentary on these Songs and Sonets from Donne's time through 1999 Arranged chronologically within sections the material for each poem is organized under various headings that complement the volume's companions Volume 4.1 and Volume 4.3 **On Not Defending Poetry** Catherine Bates, 2017 Sidney's Defence of Poesy the foundational text of English poetics is generally taken to present a model of poetry as ideal the poet depicts ideals of human conduct and readers are inspired to imitate them Catherine Bates sets out to challenge this received view Attending very closely to Sidney's text she identifies within it a model of poetry that is markedly at variance from the one presumed and

shows Sidney's text to be feeling its way toward a quite different indeed a de idealist poetics Following key theorists of the new economic criticism *On Not Defending Poetry* shows how idealist poetics like the idealist philosophy on which it draws is complicit with the money form and with the specific ills that attend upon it among them commodification fetishism and the abuse of power Against culturally approved models of poetry as profitable as benefiting the individual and the state as providing in the form of intellectual moral and social capital a quantifiable yield the *Defence* reveals an unexpected counter argument one in which poetry is modelled rather as pure expenditure a free gift a net loss Where a supposedly idealist *Defence* sits oddly with Sidney's literary writings which depict human behaviour that is very far from ideal a de idealist *Defence* does not In its radical reading of the *Defence* this book thus makes a decisive intervention in the field of early modern studies while raising larger questions about a culture determined to quantify the value of the humanities and to defend the arts on those grounds alone
