Surviving Jewel Mitri Raheb, Mark A. Lamport, 2022-05-24 The Christian church was born in the Middle East and grew there for centuries Its interaction with Islam turned Christianity in this once predominantly Christian region into a marginalized jewel surviving at great peril within a difficult even sometimes hostile political and religious climate Of course the story of Christianity over the last 1 300 years is not solely one of conflict marginalization and persecution but is also about accommodation interchange and cooperation This introductory book details the history of the church in its Middle Eastern birthplace through the past two thousand years It is a story described as a lost history by Philip Jenkins but it is here uncovered and placed on display For those with eyes to see the church of the Middle East is here revealed as a precious jewel still catching the light

Shared Histories Paul Scham, Walid Salem, Benjamin Pogrund, 2016-09-17 There is no single history of the development of the Israeli Palestinian conflict The Israeli historical narrative speaks of Zionism as the Jewish national movement of building a refuge from persecution and of national regeneration The Palestinian narrative speaks of invasion expulsion and oppression Its no wonder peace remains elusive This volume attempts to present both histories with parallel narratives of key points in the 19th and 20th centuries to 1948 The histories are presented by fourteen Israeli and Palestinian experts joined by other historians journalists and activists who then discuss the differences and similarities between their accounts By creating an appreciation understanding and respect for the other the first steps can be made to foster a shared history of a shared land The reader has the opportunity to witness first hand a respectful confrontation between the competing versions of the Israeli Palestinian conflict

The Middle East in International Relations Fred Halliday, 2005-01-24 The international relations of the Middle East have long been dominated by uncertainty and conflict External intervention interstate war political upheaval and interethnic violence are compounded by the vagaries of oil prices and the claims of military nationalist and religious movements The purpose of this book is to set this region and its conflicts in context providing on the one hand a historical introduction to its character and problems and on the other a reasoned analysis of its politics In an engagement with both the study of the Middle East and the theoretical analysis of international relations the author who is one of the best known and most authoritative scholars writing on the region today offers a

compelling and original interpretation Written in a clear accessible and interactive style the book is designed for students policymakers and the general reader Israel on High Alert Ron Rhodes,2018-02-06 The Middle East has long been spiraling out of control causing global uncertainty and fear What does this turmoil mean for Israel and why has peace been so elusive In Israel on High Alert author and Bible teacher Ron Rhodes offers a clear view of the situation and future faced by Israel You will explore the history of the current Middle East conflict what Scripture says about the ongoing battle and God s plans for Israel how the events in the Middle East affect us today Touching on everything from mainstream and radical Islam to the current efforts to rebuild the Jewish temple this book will guide you through the past present and God ordained future for the nation of Israel Find assurance in knowing that even amid chaos and uncertainty God s plan is already in action and it will never fail **Zionism and the Arabs, 1936-1939 (RLE Israel and Palestine)** Ian Black,2015-05-22 In this work first published in 1986 the author shows how the Zionists of the late Thirties related to the Arabs of Palestine and of the neighbouring countries to what extent they perceived the existence of an Arab Question how they defined it and how they dealt with it The Arab question is as old as the Zionist movement itself From the moment that Zionists began to immigrate to Ottoman Palestine in the last decades of the nineteenth century it became apparent that they were not returning to an empty land and that they could expect opposition to their enterprise from the inhabitants of the country they considered theirs Comprising diplomatic political social economic and cultural history this book is a close analysis of the spectrum of views and opinions pertaining to Zionist relations with the Arabs Compulsion in Religion Samuel Helfont,2018 Compulsion in Religion investigates religion and politics in Saddam Hussein s Iraq as well as the roots of the religious insurgencies that erupted in Iraq following the American led invasion in 2003 In looking at Saddam Hussein s policies in the 1990s many have interpreted his support for state religion as evidence of a dramatic shift away from Arab nationalism toward political Islam While Islam did play a greater role in the regime s symbols and Saddam s statements in the 1990s than it had in earlier decades the archival records and the regime s internal documents challenge this theory Citizenship, Belonging, and Nation-States in the Twenty-First Century Nicole Stokes-DuPass,Ramona Fruja,2017-07-15 Citizenship Belonging and Nation States in the Twenty First Century contributes to the scholarship on citizenship and integration by examining belonging in an array of national settings and by demonstrating how nation states continue to matter in citizenship analysis Citizenship policies are positioned as state mechanisms that actively shape the integration outcomes and experiences of belonging for all who reside within the nation state This edited volume contributes an alternative to the promotion of post national models of membership and emphasizes that the most fundamental facet of citizenship a status of recognition in relationship to a nation state need not be left in the relic galleries of an allegedly outdated political past This collection offers a timely contribution both theoretical and empirical to understanding citizenship nationalism and belonging in contexts that feature not only rapid change but also levels of entrenchment in ideological and historical legacies **Encyclopedia of Postcolonial Studies**

John Charles Hawley, 2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person's contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume

**National and International Politics in the Middle East** Edward Ingram, 2013-07-23 First published in 2004 Professor Kedourie is known for his unforgettable essays for the pattern of interpretation and view of the world which hold his readers spellbound even when they strongly disagree with his opinions and for Middle Eastern Studies which recently reached its majority and which he and Frank Cass together have turned into the foremost scholarly journal in its field These essays are presented to him by a group of his admirers overseas

**Radical Christianity in Palestine and Israel** Samuel J. Kuruville, 2013-03-27 Christianity arose from the lands of biblical Palestine and regardless of its twentieth century associations with the Arab Israeli conflict to Christians around the world it remains first and foremost the birthplace of Christianity Nevertheless the size of the Christian population among Palestinians today living in Israel and the Palestinian territories is now relatively insignificant In Radical Christianity in the Middle East Samuel J Kuruville argues that Christian Palestinians often employ politically astute as well as theologically radical means in their efforts to prove relevant as a minority community within Israeli and Palestinian societies Examining the political background of the gradual collapse of secular Arab Nationalism to be replaced by Islamic liberation movements he reveals a trend within the Christian Palestinian Church which saw increasing politicisation in the 1980s and

1990s In the face of often restrictive Israeli policies such as land confiscation along with the First Intifada there was a drive towards setting up inter Church and faith activism with the goal of Palestinian liberation Kuruvilla charts the development of a theology of Christian liberation in particular through the work of Palestinian Anglican cleric Naim Stifan Ateek and Palestinian Lutheran Pastor Mitri Raheb From its roots in 1960s Latin America liberation theology has been adapted and contextualised within the specific situation within Israel and Palestine to produce a framework that emphasises peace and reconciliation while recognising the importance of resistance and national unity Theology has impacted Christian perceptions of Palestinians struggle with Israel the idea of a land promised to the sons of Abraham and the moral responsibilities that come with this are pitted against Israeli oppression of both Christian and Muslim inhabitants of the Holy Land and their desire for independence and justice Through this comprehensive study of the often overlooked theological political and practical position of Christians in Palestine Kuruvilla provides a new and insightful perspective on one of the most written about conflicts

*Migration, Ethics and Power* Dan Bulley, 2016-11-03 In 2014 the ethics and politics of hospitality were brought into stark relief Three years into the Syrian conflict which had already created nearly 2.5 million refugees and internally displaced 6.5 million the UN called on industrialised countries to share the burden of offering hospitality through a fixed quota system The UK opted out of the system whilst hailing their acceptance of a moral responsibility by welcoming only 500 of the most vulnerable Syrians Given the state's exclusionary character what opportunities do other spaces in international politics offer by way of hospitality to migrants and refugees Hospitality can take many different forms and have many diverse purposes But wherever it occurs the boundaries that enable it and make it possible are both created and unsettled via exercises of power and their resistance Through modern examples including refugee camps global cities postcolonial states and Europe as well as analysis of Derridean and Foucauldian concepts *Migration Ethics and Power* explores The process and practice of hospitality The spaces that hospitality produces The intimate relationship between ethics and power This is a brilliantly contemporary text for students of politics international relations and political geography

*The Mind of Jihad* Laurent Murawiec, 2008-08-11 This book examines contemporary jihad as a cult of violence and power All jihadi groups whether Shiite or Sunni Arab or not are characterized by a similar bloodlust Murawiec characterizes this belief structure as identical to that of Europe's medieval millenarians and apocalypticists arguing that both jihadis and their European cousins shared in a Gnostic ideology a God given mission endowed the Elect with supernatural powers and placed them above the common law of mankind Although the ideology of jihad is essentially Islamic Murawiec traces the political technologies used by modern jihad to the Bolsheviks Their doctrines of terror as a system of rule were appropriated by radical Islam through multiple lines of communication This book brings history anthropology and theology to bear to understand the mind of jihad that has declared war on the West and the world

**Arab Nationalism** B. Tibi, ed, trans Marion Farouk-Sluglett, Peter Sluglett, 1990-06-29 In this new edition Professor Tibi analyses the impact and function of nationalism

and its contribution to social and political change in the Third World taking the rise of nationalism in the Middle East as a historical example He concentrates on the period after the First World War when many Arab intellectuals became disillusioned with Britain and France as a result of the occupation of their countries Professor Tibi's careful study of the writings and influence of Sati al Husri illustrates the connection between modern Arab nationalism and nineteenth century German Romantic nationalism which will be of particular interest to the English reader Professor Tibi concludes that while nationalism has played a necessary and important role in the movement for national independence in the Middle East it has since developed into an ideology which seems to obstruct further social and political emancipation This book will be of particular interest to historians and social scientists as well as to specialists in the area itself **Britain's Moment in**

**Palestine** Michael J Cohen, 2014-02-24 In 1917 the British issued the Balfour Declaration for military and strategic reasons This book analyses why and how the British took on the Palestine Mandate It explores how their interests and policies changed during its course and why they evacuated the country in 1948 During the first decade of the Mandate the British enjoyed an influx of Jewish capital mobilized by the Zionists which enabled them not only to fund the administration of Palestine but also her own regional imperial projects But in the mid 1930s as the clouds of World War Two gathered Britain's commitment to Zionism was superseded by the need to secure her strategic assets in the Middle East In consequence she switched to a policy of appeasing the Arabs In 1947 Britain abandoned her attempts to impose a settlement in Palestine that would be acceptable to the Arab States and referred Palestine to the United Nations without recommendations leaving the antagonists to settle their conflict on the battlefield Based on archival sources and the most up to date scholarly research this comprehensive history offers new insights into Arab British and Zionist policies It is a must read for anyone with an interest in Palestine Israel British Colonialism and the Middle East in general **The Individual in History** ChaeRan Y.
