Sam Gompers Labors Pioneer:

Pioneers of Freedom McAlister Coleman, 1929 **American Heritage History of the Pioneers** Richard M. Ketchum, 2015-10-12 America's story is made up of many elements but through it have coursed two main streams that have nourished and carried a people forward to a destiny that was beyond all imagining when the story began One of these is an idea that goes back to the rim of recorded time It was first a dim gnawing hope that the future lay in a magic land off to the west Once that land was found it drew people to it like a magnet It is easy to say that it was gold or precious stones or land that led them on for it was all of these Yet it was more and here was the second great stream of American history There was something that literally drove people westward goading them across the endless mountains through steep passes across searing plains and desert into the face of terrors known and those unguessed It was vision It was courage It was at times the sheer joy of overcoming fantastic obstacles And it was also the conviction that what they were doing was different from anything that had happened before that nothing would ever be quite the same again and that the world would be a better place for what they had accomplished Eastward I go only by force Henry David Thoreau said but westward I go free The sleep of 100 centuries was stirred up in that surge toward the sunset for out of it emerged not only a new people and a new nation but a force that changed the globe **Monthly Labor Review**, 1997-03 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **The Journeyman Barber, Hairdresser and Cosmetologist**, 1949 The American Pressman, 1923 *The Garment Worker*, 1924 Hearings, Reports and Prints of the Senate Committee on Labor and Public Welfare United States. Congress. Senate. Committee on Labor and Public Welfare, **Two Faces of Exclusion** Lon Kurashige, 2016-09-02 From the Chinese Exclusion Act of 1882 to the Immigration Act of 1924 to Japanese American internment during World War II the United States has a long history of anti Asian policies But Lon Kurashige demonstrates that despite widespread racism Asian exclusion was not the product of an ongoing national consensus it was a subject of fierce debate This book complicates the exclusion story by examining the organized and well funded opposition to discrimination that involved some of the most powerful public figures in American politics business religion and academia In recovering this opposition Kurashige explains the rise and fall of exclusionist policies through an unstable and protracted political rivalry that began in the 1850s with the coming of Asian immigrants extended to the age of exclusion from the 1880s until the 1960s and since then has shaped the memory of past discrimination In this first book length analysis of both sides of the debate Kurashige argues that exclusion era policies were more than just enactments of racism they were also catalysts for U S Asian cooperation and the basis for the twenty first century's tightly integrated Pacific world **Labor Relations** United States.
