

Samesex Marriage The Personal And The Political

B. Heaphy, C. Smart, A. Einarsdottir

Same-sex Marriage The Personal And The Political:

Same-sex Marriage Kathleen A. Lahey, Kevin Alderson, 2004 Alderson tells the stories of same sex couples who have actually gotten married as well as the behind the scenes stories that explain the legal victory that made this all possible

Litigating the Politics of Human Rights Sonja C. Grover, 2025-02-24 The cases analysed involve litigation concerning a disparate range of contemporary US culture wars including equity in access to public services unrestricted by religious bias resistance to the teaching of historical facts relating to racial tensions in America including the so called critical race theory debate the right of schoolchildren to exposure concerning a diversity of views current USSC litigation about US university admissions policy that considers race ethnicity as one factor amongst many in admission contemporary cases concerning the constitutionality of US abortion law grounded on Roe v Wade and the scope of State and indigenous sovereign powers These contemporary culture war US landmark cases are then compared to similar cases in non US jurisdictions and courts to consider in more depth the underlying core issues in these cases The book highlights the risk to a democracy of recasting fundamental human rights litigation as essentially nothing more than the sorting out of political quagmires and cultural conflicts best left to the discretion of government rather than the courts Then the major risk is that constitutional controversies will increasingly not be decided by an independent judiciary but rather by self interested politicians as the courts more often than not decline to weigh in on highly sensitive human rights controversies A further risk is that instead such cases will be decided through a judicial majoritarian political lens rather than a largely apolitical consensus judicial opinion constructed by both philosophically left leaning so called liberal and right leaning so called conservative jurists

Same Sex, Different Politics Gary Mucciaroni, 2009-05-15 Why is it so much harder for American same sex couples to get married than it is for them to adopt children And why does our military prevent gays from serving openly even though jurisdictions nationwide continue to render such discrimination illegal Illuminating the conditions that engender these contradictory policies Same Sex Different Politics explains why gay rights advocates have achieved dramatically different levels of success from one policy area to another The first book to compare results across a wide range of gay rights struggles this volume explores debates over laws governing military service homosexual conduct adoption marriage and partner recognition hate crimes and civil rights It reveals that in each area the gay rights movement's achievements depend both on Americans perceptions of its demands and on the political venue in which the conflict plays out Adoption policy for example generally takes shape in a decentralized system of courts that enables couples to target sympathetic judges while fights for gay marriage generally culminate in legislation or ballot referenda against which it is easier to mount opposition Brilliantly synthesizing all the factors that contribute to each kind of outcome Same Sex Different Politics establishes a new framework for understanding the trajectory of a movement

Same Sex Marriages B. Heaphy, C. Smart, A. Einarsdottir, 2013-03-05 Based on extensive couple and individual interviews with young same sex couples who have legally

formalized their relationships this book argues that same sex marriages as they are lived need to be understood in terms of interlinked developments in lesbian and gay life heterosexual relationships and in personal life **The Language of Progressive Politics in Modern Britain** Emily Robinson, 2017-02-09 This book traces the word progressive through modern British history from the Enlightenment to Brexit It explores the shifting meanings of this term and the contradictory political projects to which it has been attached It also places this political language in its cultural context asking how it relates to ideas about progressive social development progressive business and progressive rock music Progressive is often associated with a centre left political tradition but this book shows that this was only ever one use of the term and one that was heavily contested even from its inception The power of the term progressive is that it appears to anticipate the future This can be politically and culturally valuable but it is also dangerous The suggestion that there is only one way forward has led to fear and doubt anger and apathy even amongst those who would like to consider themselves progressive people

LGBTQI+ Allies in Education, Advocacy, Activism, and Participatory Collaborative Research Wendy M. Cumming-Potvin, 2022-07-07 This topical book explores the ally perspective in advocating for Lesbian Gay Bi sexual Transgender Queer and Inter sex LGBTQI human rights across American Canadian and Australian educational contexts This book aims to clarify the terms and dynamics of mobilizing heterosexual and cisgender privilege in the interests of promoting safe welcoming and inclusive educational communities for all stake holders particularly those students who self identify as LGBTQI By highlighting concrete examples of allies engaged in participatory collaborative research and by investigating the historical and theoretical dimensions of ally work more generally this volume presents a comprehensive research account of allies role in education advocacy and activism This book will benefit researchers academics and educators in higher education with an interest in gender and sexuality the sociology of education and schools and schooling more broadly Those specifically interested in gender studies as well as the politics of higher education will also benefit from this book Queer Identities / Political Realities Bruce Drushel, Kathleen German, 2009-01-23 Queer Identities Political Realities examines the intersection of political leadership media coverage and sexual identity with particular emphasis on the negotiation of meaning between public behavior and private behavior in the United States Centering on cases that illuminate key issues each chapter questions assumptions about media coverage and extends current theoretical understanding Each chapter focuses on a specific case within the broader conceptual fabric of queer theory media theory or rhetorical criticism Varied methodological approaches allow us to gauge public discourse of multifaceted controversies that involve same sex behavior History reveals frequent occasions when private sexual behaviors surface to attract public interest While the prejudices and discrimination against same sex partnerships whether casual or permanent remain entrenched in United States culture there have been occasions when the public discussion is riveted on instances This book argues that public interest changes when the partners in such relationships are of the same sex The extraordinary public prejudice against same sex unions and public

censure has been well documented in other research reports and continues to receive attention in other scholarly publications This book will examine the unique intersection of political leadership media coverage and same sex behavior

Gay Marriage and Democracy Claire R. Snyder, 2006-02-02 This book discusses the context for and arguments in favor of same sex marriage in the United States **The Politics of Gay Marriage in Latin America** Jordi Díez, 2015-05-05

Addressing one of the defining social issues of our time *The Politics of Gay Marriage in Latin America* explores how and why Latin America a culturally Catholic and historically conservative region has become a leader among nations of the Global South and even the Global North in the passage of gay marriage legislation In the first comparative study of its kind Jordi Díez explains cross national variation in the enactment of gay marriage in three countries Argentina Chile and Mexico Based on extensive interviews in the three countries Díez argues that three main key factors explain variation in policy outcomes across these cases the strength of social movement networks forged by activists in favor of gay marriage the access to policy making afforded by particular national political institutions and the resonance of the frames used to demand the expansion of marriage rights to same sex couples *Encyclopedia of Gender and Society* Jodi O'Brien, 2008-11-26 2009 RUSA

Outstanding Reference CHOICE Outstanding Academic Title for 2009 Given both the interdisciplinarity of the field of gender scholarship and the immense significance of gender to both individuals and societies it is probably impossible to produce such a compendium The editor advisory team and contributors are to be credited for tackling a project of such immense scope O'Brien's commitment to the possibility of a more informed discourse on the highly complex and nuanced topic of gender and society promises to benefit a broad readership Highly recommended for academic libraries of all sizes and for large public libraries Booklist STARRED Review All topics in this wide ranging resource are addressed in an unbiased and unprejudiced manner and facts are stated clearly and coherently The coverage of changing topics is kept current A valuable addition to any library Library Journal For decades scholars of gender have been documenting and analyzing the various ways in which gender shapes individual lives cultural beliefs and practices and social and economic organization Including contributions by experts in the field the *Encyclopedia of Gender and Society* covers the major theories research people and issues in contemporary gender studies This comprehensive two volume encyclopedia is distinguished by a cross national cross cultural perspective that provides comparative analyses of the life experiences of men and women around the world Key Features Provides users with a gender lens on society by focusing on significant gender scholarship within commonly recognized areas of social research Offers framing essays that summarize commonly used concepts and directions of research and provide an overview of each area e.g. Media and Gender Socialization Religion Gender Roles in Sexuality and Reproduction Women's Social Movements History of Examines basic aspects of social life from the most individual self and identity to the most global transnational economics and politics Contains new information on well known subjects including surprising facts that may counter common assumptions and research in areas of study where the impact of gender has been traditionally

overlooked Reflects cutting edge discussion and scholarship on current issues and debates regarding gender and society

The Rights Turn in Conservative Christian Politics Andrew R. Lewis, 2017-10-19 Explains how abortion politics influenced a fundamental shift in conservative Christian politics teaching conservatives to embrace rights arguments **The Politics**

of Common Sense Deva R. Woodly, 2015 The way that movements communicate with the general public matters for their chances of lasting success Comparing the public discourse on the living wage and marriage equality between 1994 and 2004 Deva Woodly shows that movement led political change is rooted in whether or not movements are able to gain political acceptance Queer Families, Queer Politics Mary Bernstein, Renate Reimann, 2001 This book addresses the themes of

visibility transgression and resistance as well as the intersection between the personal and political in the contexts of relationships parenthood and political activism Giving special attention to families of color immigrants and poor families the authors examine the risks entailed in coming out and the significance of class race and sexual and gender identity in this process Parenting also creates dilemmas of visibility as queer families negotiate malls schools and workplaces as well as the medical legal and political institutions that regulate their families **The Politics of Gender Culture under State**

Socialism Hana Havelková, Libora Oates-Indruchová, 2014-02-03 Though there has been much research on the incomplete emancipation project of state socialism in East and Central Europe very little has been published on how the state and its institutions conceived of gender as a concept This book seeks to understand if and how this conceptualization developed in the second half of the twentieth century and what impact it had on everyday life and on culture This study moves beyond the dichotomous gender perspectives and towards a nuanced understanding of the diverse discursive negotiations agendas actors and agency involved in state socialist gender practices Including a detailed case study on Czechoslovakia contributors explore these issues in a series of independent but collaboratively developed studies placing their research in the context of other East Central European countries The studies collected in the volume bring to light fresh material and consider it from the combined perspective of current gender theory and internal ideological dynamics of state socialism breaking new ground in gender theory cultural theory and studies of state socialism This book will be of interest to students and scholars of gender studies socialism Cold War politics and Eastern European politics and culture **The Marrying Kind?** Mary

Bernstein, Verta Taylor, 2013-05-16 As the fight for same sex marriage rages across the United States and lesbian and gay couples rush to marriage license counters the goal of marriage is still fiercely questioned within the LGBT movement Rarely has an objective so central to a social movement's political agenda been so controversial within the movement itself While antigay forces work to restrict marriage to one man and one woman lesbian and gay activists are passionately arguing about the desirability viability and social consequences of same sex marriage The Marrying Kind is the first book to draw on empirical research to examine these debates and how they are affecting marriage equality campaigns The essays in this volume analyze the rhetoric strategies and makeup of the LGBT social movement organizations pushing for same sex

marriage and address the dire predictions of some LGBT commentators that same sex marriage will spell the end of queer identity and community Case studies from California Connecticut Massachusetts New Jersey Oklahoma Vermont and Canada illuminate the complicated politics of same sex marriage making clear that the current disagreements among LGBT activists over whether marriage is conforming or transformative are far too simplistic Instead the impact of the marriage equality movement is complex and often contradictory neither fully assimilationist nor fully oppositional Contributors Ellen Ann Andersen U of Vermont Mary C Burke U of Vermont Adam Isaiah Green U of Toronto Melanie Heath McMaster U Ontario Kathleen E Hull U of Minnesota Katrina Kimport U of California San Francisco Jeffrey Kosbie Katie Oliviero U of Colorado Boulder Kristine A Olsen Timothy A Ortyl Arlene Stein Rutgers U Amy L Stone Trinity U Nella Van Dyke U of California Merced

When Gay People Get Married M. V. Lee Badgett, 2010-11 Badgett offers a rare look at how gay marriage is actually working by taking readers to a land where it has been legal for same sex couples to marry since 2001 the Netherlands Through interviews with married gay couples we learn about the often surprising changes to their relationships and the reactions of their families and work colleagues Moreover Badgett shows how the institution itself has been altered exploring how the concept of marriage itself has changed in the United States and the Netherlands The evidence from around the world shows both that marriage changes gay people more than gay people change marriage and that it is the most liberal countries and states making the first moves to recognize gay couples In the end Badgett demonstrates that allowing gay couples to marry does not destroy the institution of marriage and that many gay couples do benefit in expected as well as surprising ways from the legal social and political rights that the institution offers From publisher description

Politics in the Parish Gregory Allen Smith, 2008-03-29 For well over a century the Catholic Church has articulated clear positions on many issues of public concern particularly economics capital punishment foreign affairs sexual morality and abortion Yet the fact that some of the Church's positions do not mesh well with the platforms of either of the two major political parties in the U S may make it difficult for Americans to look to Catholic doctrine for political guidance Scholars of religion and politics have long recognized the potential for clergy to play an important role in shaping the voting decisions and political attitudes of their congregations yet these assumptions of political influence have gone largely untested and undemonstrated Politics in the Parish is the first empirical examination of the role Catholic clergy play in shaping the political views of their congregations Gregory Allen Smith draws from recent scholarship on political communication and the comprehensive Notre Dame Study of Parish Life as well as case studies he conducted in nine parishes in the mid Atlantic region to investigate the extent to which and the circumstances under which Catholic priests are influential in shaping the politics of their parishioners Smith is able to verify that clergy do exercise political influence but he makes clear that such influence is likely to be nuanced limited in magnitude and exercised indirectly by shaping parishioner religious attitudes that in turn affect political behavior He shows that the messages that priests deliver vary widely even radically from parish to

parish and priest to priest Consequently he warns that scholars should exercise caution when making any global assumptions about the political influence that Catholic clergy affect upon their congregations

Person-Centered Politics Eamonn O'Higgins, 2024-04-09 What accounts for the widespread disillusionment with politics Person centered Politics suggests that politics today through its structures processes and institutions tends to presuppose and to impose a certain caricature of the human person that inhibits and frustrates a real sense of personal participation in an authentic common good of politics and society In 12 chapters that touch on fundamental themes of political philosophy Person centered Politics proposes the social and transcendent dimensions of personal existence and their application to the renewal of politics today The themes explore the commonly accepted assumptions of politics today and how a renewed understanding of the person can invigorate political discourse and action In Person centered Politics the author is in continuous dialogue with some of the major contemporary philosophers and thinkers such as Eric Voegelin David Walsh Robert Sokolowski Vaclav Havel Pierre Manent Peter Simpson and Joseph Ratzinger Benedict XVI Detailed footnotes in each chapter provide reference to further sources of enlightenment and research Person centered Politics proposes an outline for a renewed vision of politics that is centered on the truth of human existence and not a politics that distorts and suffocates the human spirit because in the words of E Voegelin the right order of the soul through philosophy furnishes the standard for the right order of society and not the other way round

Religion in Politics Michael J. Perry, 1999-01-21 Most Americans are religious believers Among these there is disagreement about many fundamental religious moral matters Because the United States is both such a religious country and such a religiously pluralistic country the issue of the proper role of religion in politics is extremely important to political debate In Religion in Politics Michael Perry addresses a fundamental question what role may religious arguments play if any either in public debate about what political choices to make or as a basis of political choice He is principally concerned with political choices that ban or otherwise disfavor one or another sort of human conduct based on the view that the conduct is immoral He divides the controversy into two debates the constitutionally proper role of religious arguments in politics and a related but distinct debate about the morally proper role Perry concludes that political choices about the morality of human conduct should not be based on religion The newest work by one of the most important constitutional theorists writing today Religion in Politics is sure to spark a new debate on the subject

Political Animals Rick Shenkman, 2016-01-05 Can a football game affect the outcome of an election What about shark attacks Or a drought In a rational world the answer of course would be no But as bestselling historian Rick Shenkman explains in Political Animals our world is anything but rational Drawing on science politics and history Shenkman explores the hidden forces behind our often illogical choices Political Animals challenges us to go beyond the headlines which often focus on what politicians do or say they ll do and to concentrate instead on what s really important what shapes our response Shenkman argues that contrary to what we tell ourselves it s our instincts rather than arguments appealing to reason that usually prevail Pop culture tells us we can trust

our instincts but science is proving that when it comes to politics our Stone Age brain often malfunctions misfires and leads us astray Fortunately we can learn to make our instincts work in our favor Shenkman takes readers on a whirlwind tour of laboratories where scientists are exploring how sea slugs remember chimpanzees practice deception and patients whose brains have been split in two tell stories The scientists findings give us new ways of understanding our history and ourselves and prove we don't have to be prisoners of our evolutionary past In this engaging illuminating and often riotous chronicle of our political culture Shenkman probes the depths of the human mind to explore how we can become more political and less animal
