Samoa Planters:

Samoa Planters J. Tim O'Meara, 1990 Vignettes of villagers enliven this exploration into how traditional customs and values influence economic development among Samoan planters Emphasis on research design and fieldwork combines with an intimate portrayal of a modern Polynesian nation in transition **American Samoa**, 1951 *Acp-Samoan Planters* Tim O'Meara, 2002-01-01 **American Samoa** United States. Office of Territories, 1946 **Samoa Art and Artists** Sean Mallon, 2002-01-01 Samoa Art and Artists is a wide ranging survey of both the traditional and contemporary arts of Samoa The author has drawn on an extensive research base to present a contemporary and accessible picture of a vibrant culture The book has a broad sweep covering all facets of the Samoan arts including canoe and house building siapo tapa weaving tattooing oratory adornment all forms of performance art the visual arts and literature An important feature of the book is the inclusion of profiles of living practitioners both from Samoa and the large Samoan communities in other Pacific countries Publisher description **The Hawaiian Planters' Monthly**, 1899 **Samoa** R. Gerard Ward, Paul Ashcroft, 1998 This book is a welcome addition to studies of Samoa and its people Its aims are straightforward It highlights the fact that in Samoa as in other Pacific Island countries environmental social and economic conditions differ greatly between different parts of the country These contrasts require locally specific solutions to development problems Unfortunately information on such regional differences often lies unanalysed in censuses and similar reports hidden in long tables of statistics which can only be used effectively if the data are transformed into more readily assimilated formats This book makes some of these transformations for students planners and general readers **Daily Consular and Trade Reports**, 1916 *German Colonialism Revisited* Nina Berman, Klaus Muehlhahn, Patrice Nganang, 2018-07-19 The first collection of interdisciplinary and comparative studies focusing on diverse interactions among African Asian and Oceanic peoples and German colonizers *Change and Continuity in the Pacific* John Connell, Helen Lee, 2018-04-09 Thousands of studies have been conducted by social scientists in the villages and islands and increasingly in the towns of the Pacific Despite this there are few longitudinal studies of any great depth and sophistication in the region The contributors to this book have all conducted long term research in the islands of the Pacific During their visits and revisits they have witnessed first hand the many changes that have occurred in their fieldsites as well as observing elements of continuity They bring to their accounts a sense of their surprise at some of the unexpected elements of stability and of transformation The authors take a range of disciplinary approaches particularly geography and anthropology and their contributions reflect their deep knowledge of Pacific places some first visited more than 40 years ago Many of the chapters focus on aspects of socio economic change and continuity while others focus on specific issues such as the impact of both internal and international migration political and cultural change technological innovation and the experiences of children and youth By focusing on both change and continuity this collection of 11 case studies shows the complex relationships between Pacific societies and processes of modernity and

globalisation By using a long term lens on particular places the authors are able to draw out the subtleties of change and its impacts while also paying attention to what in the contemporary Pacific has been left remarkably unchanged Filling a gap in the studies of the Pacific region this book will appeal to an interdisciplinary audience in the fields of anthropology development geography and Asia Pacific studies **Imperial expectations and realities** Andrekos Varnava,2015-09-01 A wide ranging edited collection that interrogates colonial expansion and the mismatch between intention perception and hype and the actual realities **Adolescent Storm and Stress** James E. Cote,2013-06-17 In 1928 Margaret Mead published her first book entitled *Coming of Age in Samoa* in which she described to the Western world an exotic culture where people came of age with a minimum of storm and stress In 1983 Derek Freeman an Australian anthropologist published a book in which he systematically attacked Mead s conclusions about that culture and the way people came of age Since then a great deal of attention has been directed toward the Mead Freeman controversy This book contributes to that controversy and to the general understanding of adolescent storm and stress by undertaking an interdisciplinary analysis of Freeman s criticisms and an assessment of the plausibility of Mead s work Addressing the issue of what has become of Mead s Samoa of the 1920s this book historically tracks the nature of the coming of age in Samoa to the present in order to give the reader an understanding of the circumstances confronting young people in contemporary Samoa It shows that Mead s Samoa has been lost what was once a place in which most young people came of age with relative ease has become a place where young people experience great difficulty in terms of finding a place in their society to the point where they currently have one of the highest suicide rates in the world While much has been written about this controversy during the past decade a gap exists in the sense that most of the publicity about Mead s work has missed her main focus concerning the processes governing the coming of age of her informants A valuable historical document and a pioneering study Mead s book anticipated changes that are still unfolding today in the field of human development The preoccupation with issues tangential to her main focus issues involving the Samoan ethos and character have not only diverted a clear analysis of Mead s work they have also led to the creation of a number of myths and misconceptions about Mead and her book The author also has an interest in Mead s original focus on the relative impact of biological and cultural influences in shaping the behavior of those coming of age in all societies Despite what has been said by her critics not only was this a crucial issue during the time of her study but it is also an issue that is now just beginning to be understood some 60 years later In addition the issue of biology versus culture the so called nature nurture debate carries with it many political implications In the case of the Mead Freeman controversy this political agenda looms large an agenda which is clearly spelled out in this book *Penina Uliuli* Philip Culbertson,Margaret Nelson Agee,Cabrini Ofa Makasiale,2007-09-30 This diverse collection of essays examines important issues related to mental health among Pacific Islanders through the topics of identity spirituality the unconscious mental trauma and healing Contributors Emeline Afeaki Mafale o Margaret Nelson Agee Siautu Alefaio A Aukahi Austin Tina Berking Philip Culbertson

 theories of religion which have tended to focus on institutionalized forms of belief associated with gods It brings an historical
 perspective to culturally patterned experiences with spirits and examines spirits as a locus of tension between traditional and
 foreign values Taking as a point of departure shifting local views of self nine case studies drawn from Pacific societies
