Cajun Folktales J. J. Reneaux, 1992 A collection of twenty six traditional Cajun tales including animal stories fairy tales ghost stories and humorous tales

Fairy Tales in Popular Culture Martin Hallett, Barbara Karasek, 2014-08-05 It wasn't so long ago that the fairy tale was comfortably settled as an established and respectable part of children's literature Since the fairy tale has always been a mirror of its times however we should not be surprised that in the latter part of the twentieth century it turned dark and ambiguous its categorical distinction between good and evil was increasingly at odds with the times Yet whatever changes the fairy tale may have undergone its cultural popularity has never been greater Fairy Tales in Popular Culture sets out to show how the tale has been adapted to meet the needs of the contemporary world how writers film makers artists and other communicators have found in its universality an ideal vehicle for speaking to the here and now and how social media have created a participatory culture that has re-invented the fairy tale A selection of recent retellings show how the tale is being recalibrated for the contemporary world first through the word and then through the image In addition to the introductions that precede each section the anthology provides a selection of critical pieces that offer lively insight into various aspects of the fairy tale as popular culture

Storytelling Josepha Sherman, 2015-03-26 Storytelling is an ancient practice known in all civilizations throughout history Characters tales techniques oral traditions motifs and tale

types transcend individual cultures elements and names change but the stories are remarkably similar with each rendition highlighting the values and concerns of the host culture Examining the stories and the oral traditions associated with different cultures offers a unique view of practices and traditions Storytelling An Encyclopedia of Mythology and Folklore brings past and present cultures of the world to life through their stories oral traditions and performance styles It combines folklore and mythology traditional arts history literature and festivals to present an overview of world cultures through their liveliest and most fascinating mode of expression This appealing resource includes specific storytelling techniques as well as retellings of stories from various cultures and traditions Whisper of Stone Tess Dawson,2009-07-16 Religion

Bronner,2011-08-26 Why do humans hold onto traditions Many pundits predicted that modernization and the rise of a mass culture would displace traditions especially in America but cultural practices still bear out the importance of rituals and customs in the development of identity heritage and community In Explaining Traditions Folk Behavior in Modern Culture Simon J Bronner discusses the underlying reasons for the continuing significance of traditions delving into their social and psychological roles in everyday life from old time crafts to folk creativity on the Internet Challenging prevailing notions of tradition as a relic of the past Explaining Traditions provides deep insight into the nuances and purposes of living traditions in relation to modernity Bronner s work forces readers to examine their own traditions and imparts a better understanding of raging controversies over the sustainability of traditions in the modern world **The Encyclopedia of Fantasy** John Clute,John Grant,1999-03-15 Like its companion volume The Encyclopedia of Science Fiction this massive reference of 4 000 entries covers all aspects of fantasy from literature to art
