Samuel Gompers Papers Vol 3 Unrest And Depression 1891 94:

The Samuel Gompers Papers Samuel Gompers,1989 The Samuel Gompers Papers Samuel Gompers,Stuart Bruce Kaufman,1986 This collection belongs on the shelf of anyone teaching American labor history but it also should prove useful to scholars with related interests Illinois Historical Journal **The Samuel Gompers Papers, Vol. 5** Samuel Gompers,1996 The years 1898 1902 were prosperous for the U S marked by economic growth and industrial expansion a rising material standard of living and low unemployment The period was one of unprecedented growth for the American Federation of Labor AFL and it found Samuel Gompers continuing to advocate the organization of all workers and focusing his efforts on establishment of local and national trade unions central labor bodies and state federations and on the affiliation of these organizations with the AFL From reviews of earlier volumes This collection belongs on the shelf of anyone teaching American labor history but it also should prove useful to scholars with related interests James Grossman Illinois Historical Journal Distinguished and invaluable Labor historians would be well advised to clear shelf space for it Bruce Laurie Industrial and Labor Relations Review Writing the Wrongs Elizabeth Faue,2018-05-31 Eva McDonald Valesh was one of the Progressive Era s foremost labor publicists Challenging the narrow confines placed on women Valesh became a successful investigative journalist organizer and public speaker for labor reform Valesh was a compatriot of the labor leaders of her day and the right hand man of Samuel Gompers president of the American Federation of Labor Events she covered during her colorful unconventional reporting career included the Populist revolt the Cuban crisis of the 1890s and the 1910 Shirtwaistmakers uprising She was described as bright even comet like by her admirers but her enemies saw her as a pest who took all the benefit that her sex controls when in argument with a man Elizabeth Faue examines the pivotal events that transformed this outspoken daughter of a working class Scots Irish family into a national political figure interweaving the study of one woman s fascinating life with insightful analysis of the changing character of American labor reform during the period from 1880 to 1920 In her journey through the worlds of labor journalism and politics Faue lays bare the underside of social reform and reveals how front line workers in labor s political culture reporters investigators and lecturers provoked and informed American society by writing about social wrongs Compelling insightful and at times humorous Writing the Wrongs is a window on the Progressive Era on social history and the new journalism and on women s lives and the meanings of class and gender *Why Is There No Labor Party in the United States?* Robin Archer,2010-09-20 Why is the United States the only advanced capitalist country with no labor party This question is one of the great enduring puzzles of American political development and it lies at the heart of a fundamental debate about the nature of American society Tackling this debate head on Robin Archer puts forward a new explanation for why there is no American labor party an explanation that suggests that much of the conventional wisdom about American exceptionalism is untenable Conventional explanations rely on comparison with Europe Archer challenges these explanations by comparing the United States with its most similar New World

counterpart Australia This comparison is particularly revealing not only because the United States and Australia share many fundamental historical political and social characteristics but also because Australian unions established a labor party in the late nineteenth century just when American unions against a common backdrop of industrial defeat and depression came closest to doing something similar Archer examines each of the factors that could help explain the American outcome and his systematic comparison yields unexpected conclusions He argues that prosperity democracy liberalism and racial hostility often promoted the very changes they are said to have obstructed And he shows that it was not these characteristics that left the United States without a labor party but rather the powerful impact of repression religion and political sectarianism

The Pullman Strike and the Crisis of the 1890s Richard Schneirov, Shelton Stromquist, Nick Salvatore, 1999 The Pullman strike of 1894 shut down the rail system from Chicago to the West Coast culminating two decades of labor unrest and helping to define an epochal transition in American history In this wide ranging collection leading labor historians use the prism of the Pullman strike to broaden our understanding of the crisis of the 1890s By examining the strike in the context of continuities and changes in labor organization the influences of gender and community the public representation and contested meaning of labor conflict the emergence of a new politics of progressive reform the development of a regulatory state and a changing legal environment these essays resituate the Pullman conflict in its historical context Illuminating one of the most important events in labor's past The Pullman Strike and the Crisis of the 1890s testifies to the pivotal importance of the Pullman conflict and its aftermath for understanding the course of American history

The Labor Question in America Rosanne Currarino, 2010-10-01 In The Labor Question in America Economic Democracy in the Gilded Age Rosanne Currarino traces the struggle to define the nature of democratic life in an era of industrial strife As Americans confronted the glaring disparity between democracy's promises of independence and prosperity and the grim realities of economic want and wage labor they asked What should constitute full participation in American society What standard of living should citizens expect and demand Currarino traces the diverse efforts to answer to these questions from the fledgling trade union movement to contests over immigration from economic theory to popular literature from legal debates to social reform The contradictory answers that emerged one stressing economic participation in a consumer society the other emphasizing property ownership and self reliance remain pressing today as contemporary scholars journalists and social critics grapple with the meaning of democracy in post industrial America

Evaluating Social Movement Impacts Brian Mello, 2013-08-15 Some social movements bring in quick radical political and social changes while others get incorporated into existing systems or subjected to harsh repression This book examines why social movements elicit different policy responses and their varying impact on the societies in which they occur It also seeks to understand why seemingly inconsequential movements can nonetheless have enduring effects These issues are explored through the comparative historical analysis of four labor movements in the UK and the U S in the late 1800s early 1900s in Japan from 1945 to 1960

and in Turkey during the mid to late 1900s which is the book's primary case study Turkey's labor movement although often seen as a failure greatly influenced state society relations and contemporary Turkish politics This significant study offers a new framework of analysis by focusing on social movement impacts rather than successes or failures This leads to having to reconsider the enduring effects of repressed or failed movements By doing so it will help researchers study the likely impact of social movements in today's politics

Complicating Categories: Gender, Class, Race and Ethnicity Eileen

Boris, Angelique Janssens, 1999 This volume focuses on complicating central concepts in the understanding of economic and social history class gender race and ethnicity Only recently have historians begun to ask how gender race and ethnicity as categories of analysis change narratives of class formation and working class experience While all three concepts refer to systems of inequality it remains unclear how these systems of difference relate to each other Despite a growing body of empirical literature authors more often connect dyads rather than consider historical phenomenon from the triad of class race and gender This volume highlights attempts to write a richer history that complicates categories suggesting how class gender race and or ethnicity combine across a wide range of economic and social landscapes

United Apart Ileen A.

DeVault, 2018-08-06 In the late nineteenth century most jobs were strictly segregated by sex And yet despite their separation at work male and female employees regularly banded together when they or their unions considered striking In her groundbreaking book Ileen A DeVault explores how gender helped to shape the outcome of job actions and how gender bias became central to unionism in America Covering the period from the formation of the American Federation of Labor in 1886 to the establishment of the Women's Trade Union League in 1903 DeVault analyzes forty strikes from across the nation in the tobacco textile clothing and boot and shoe industries She draws extensively on her research in local newspapers as she traces the daily encounters among male and female coworkers in workplaces homes and union halls Jobs considered appropriate for men and those for women were she finds sufficiently interdependent that the success of the action depended on both sexes cooperating At the same time with their livelihoods at stake tensions between women and men often appeared The AFL entered the twentieth century as the country's primary vehicle for unionized workers and its attitude toward women formed the basis for virtually all later attempts at their organization United Apart transforms conventional wisdom on the rise of the AFL by showing how its member unions developed their central beliefs about female workers and how those beliefs affected male workers as well

America, History and Life, 1993 Provides historical coverage of the United States and

Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide

News from the Archives United States. National Archives and Records Administration, 1988

Encyclopedia of African

American History, 1896 to the Present Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century

Roads to Dystopia Stanford M. Lyman, 2001 If the postmodern condition is a dystopia

characterized by alienation and despair argues distinguished sociologist Stanford Lyman postmodern epistemologies compound the problem by denigrating Enlightenment philosophies that still offer agency and hope to those who struggle to be free In this his sixth volume in the Studies in American Sociology series Lyman examines this contradiction as it has shaped American discourses on race and community asking why Gunnar Myrdal's American Dilemma is still unresolved how Chinese workers have fared in the labor movement and in labor history what searches for the lost tribes of Israel have meant socially and historically how cinema has offered metaphors for social action but presented failed utopias on screen and how we have not yet established a basic definition of the good life In each of these instances Lyman seeks new routes in the quest for justice

The Workers' Festival Craig Heron, Steven Penfold, 2005-01-01 The Workers Festival ranges widely into many key themes of labour history union politics and rivalries radical movements religion race and gender and consumerism leisure as well as cultural history public celebration urban procession urban space and communication and popular culture

Harry Hopkins NA NA, 2016-04-30 From 1912 to 1940 social worker Harry Hopkins committed himself to the ideal of government responsibility for impoverished Americans This look at Hopkins life and social work career broadens our understanding of the political and cultural currents that led to the Social Security Act of 1935 the bedrock of the American welfare state Hopkins experiences as an advocate and administrator of work relief and widows pensions in New York City during the Progressive Era informed his contribution to welfare legislation during the New Deal years Written by his granddaughter June Hopkins this book not only clarifies the emergence of welfare policy but sheds considerable light on the present welfare debate It also illuminates the life of one of the most influential Americans of the twentieth century

Labor Histories Eric Arnesen, Julie Greene, Bruce Laurie, 2022-10-17 Is class outmoded as a basis for understanding labor history This collection emphatically answers No These thirteen essays delve into subjects like migrant labor religion ethnicity agricultural history and gender Written by former students of preeminent labor figure and historian David Montgomery the works advance the argument that class remains indispensable to the study of working Americans and their place in the broad drama of our shared national history

Socialist History, 1993

How to Do Nothing Jenny Odell, 2020-12-29 A New York Times Bestseller NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Time The New Yorker NPR GQ Elle Vulture Fortune Boing Boing The Irish Times The New York Public Library The Brooklyn Public Library A complex smart and ambitious book that at first reads like a self help manual then blossoms into a wide ranging political manifesto Jonah Engel Bromwich The New York Times Book Review One of President Barack Obama's Favorite Books of 2019 Porchlight's Personal Development Human Behavior Book of the Year In a world where addictive technology is designed to buy and sell our attention and our value is determined by our 24/7 data productivity it can seem impossible to escape But in this inspiring field guide to dropping out of the attention economy artist and critic Jenny Odell shows us how we can still win back our lives Odell sees our attention as the most precious and overdrawn resource we have And we must actively and continuously

choose how we use it We might not spend it on things that capitalism has deemed important but once we can start paying a new kind of attention she writes we can undertake bolder forms of political action reimagine humankind s role in the environment and arrive at more meaningful understandings of happiness and progress Far from the simple anti technology screed or the back to nature meditation we read so often How to do Nothing is an action plan for thinking outside of capitalist narratives of efficiency and techno determinism Provocative timely and utterly persuasive this book will change how you see your place in our world

To Die for Cecilia Elizabeth O'Leary, 2000-10-15 Drawing upon a wide variety of original sources O Leary s interdisciplinary study explores the conflict over what events and icons would be inscribed into national memory what traditions would be invented to establish continuity with a suitable past who would be exemplified as national heroes and whether ethnic regional and other identities could coexist with loyalty to the nation This book traces the origins development and consolidation of patriotic cultures in the United States from the latter half of the nineteenth century up to World War I a period in which the country emerged as a modern nation state
