Samuel Becketts Hidden Drives:

Samuel Beckett's Hidden Drives James Donald O'Hara, 1997 Culminates with the closest most detailed and systematic reading of Beckett's most important novel Molloy yet produced No other work in Beckett studies has attempted to deal with these works in this much detail with this strong a thesis and most important with this much success A masterwork It will completely revise how we think of Beckett's creative process and how we read Molloy S E Gontarski Florida State University While much has been written on the subject of Joyce's uses of sources and models little has been written about Samuel Beckett's similar preference for using formal systems of thought as scaffolding for his own work In the most comprehensive study of his use of source material J D O'Hara examines specifically Beckett's almost obsessive concern with psychological sources and themes and his use of Freudian and Jungian narrative structures Beginning with Beckett's early monograph Proust O'Hara traces Beckett's preference for Schopenhauer's philosophy as the system of thought most appropriate for thinking and writing about Proust O'Hara then examines Beckett's shift from philosophical to psychological models specifically to Freudian and Jungian texts Beckett used these as O'Hara demonstrates for characterization and plot in his early writings Beckett's use of depth psychology however in no way allows the reader to hang either a Freudian or Jungian tag on Beckett O'Hara cautions his readers against inferring truth value from what is more properly understood as scaffolding a temporary arrangement used during the construction of his own absolutely unique art form O'Hara analyzes this scaffolding in the novel Murphy the story collection More Pricks Than Kicks the short works First Love and From an Abandoned Work and the radio play All That Fall He concludes with the most comprehensive and detailed reading of Molloy available anywhere No serious reader of Beckett will want to be without this book Modernism and the Machinery of Madness Andrew Gaedtke, 2017-10-26 Modernism and the Machinery of Madness demonstrates the emergence of a technological form of paranoia within modernist culture which transformed much of the period's experimental fiction Gaedtke argues that the works of writers such as Samuel Beckett Anna Kavan Wyndham Lewis Mina Loy Evelyn Waugh and others respond to the collapse of categorical distinctions between human and machine Modern British and Irish novels represent a convergence between technological models of the mind and new media that were often regarded as thought influencing machines Gaedtke shows that this literary paranoia comes into new focus when read in light of twentieth century memoirs of mental illness By thinking across the discourses of experimental fiction mental illness psychiatry cognitive science and philosophy of mind this book shows the historical and conceptual sources of this confusion as well as the narrative responses This book contributes to the fields of modernist studies disability studies and medical humanities Samuel Beckett Peter Brockmeier, 2017-02-18 Der Poetik Becketts widmet diese Einf hrung ein ausf hrliches Kapitel In einzelnen Werkanalysen verfolgt der Autor die konsequente Verwirklichung seines poetologischen Vorhabens und benennt die zahlreichen intertextuellen Bez ge u a auf die G ttliche Kom die den Faust und Die Welt als Wille und Vorstellung Der

Titology a term first coined in 1977 by literary critic Harry Levin is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages that follow While the term has been used in the literary community for thirty years this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation for scholarly criticism Though Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book s spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* *The Waste Land* *Ulysses* and *Don Quixote* *First Pages* proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a fa ade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation
