The State Highways of California California State Automobile Association,Automobile Club of Southern California,1921 **We Became Mexican American** Carlos B. Gil,2012-08-17 This is a story of Mexican family that arrived

in America in the 1920s for the first time And so it is a tale of immigration settlement and cultural adjustment as well as generational progress Carlos B Gil one of the American sons born to this family places a magnifying glass on his ancestors who abandoned Mexico to arrive on the northern edge of Los Angeles California He narrates how his unprivileged relatives walked away from their homes in western Jalisco and northern Michoacán and traveled over several years to the U S border

crossing it at Nogales Arizona and then finally settling into the barrio of the city of San Fernando Based on actual interviews the author recounts how his parents met married and started a family on the eve of the Great Depression With the aid of their testimonials the author s brothers and sisters help him tell of their growing up They call to memory their father s trials and tribulations as he tried to succeed in a new land laboring as a common citrus worker and how their mother helped shore him up as thousands of workers lost their jobs on account of the economic crash of 1929 Their story takes a look at how the family survived the Depression and a tragic accident how they engaged in micro businesses as a survival tactic and how the Gil children gradually became American or Mexican American as they entered young adulthood beginning in the 1940s It also describes what life was like in their barrio The author also comments briefly on the advancement of the second and third Gil generations and in the Afterword likewise offers a wide ranging assessment of his family s experience including observations about the challenges facing other Latinos today

The Los Angeles River Blake Gumprecht, 2001-04-30 Winner of the J B Jackson Prize from the Association of American Geographers Three centuries ago the Los Angeles River meandered through marshes and forests of willow and sycamore Trout spawned in its waters and grizzly bears roamed its shores The bountiful environment the river helped create supported one of the largest concentrations of Indians in North America Today the river is made almost entirely of concrete Chain link fence and barbed wire line its course Shopping carts and trash litter its channel Little water flows in the river most of the year and nearly all that does is treated sewage and oily street runoff On much of its course the river looks more like a deserted freeway than a river The river s contemporary image belies its former character and its importance to the development of Southern California Los Angeles would not exist were it not for the river and the river was crucial to its growth Recognizing its past and future potential a potent movement has developed to revitalize its course The Los Angeles River offers the first comprehensive account of a river that helped give birth to one of the world s great cities significantly shaped its history and promises to play a key role in its future
