## **San Francisco's Century Of Street Cars:**

*San Francisco's Century of Street Cars* Fred A. Stindt, 1990      **San Francisco's F-Line** Peter Ehrlich, 2012-08-24 San Francisco's F Line is the fun way to ride transit in one of America's greatest cities Using multi colored streetcars built in the 1940s 1920s and even earlier it is a transforming experience that carries the rider back to a more genteel and carefree time while providing an efficient and pleasant way to get from here to there in a modern era Its creation has shown the world that public transportation can be exciting fun and a source of civic pride The author an active participant in the success of the F Line has written the book in an upbeat and breezy style sprinkling anecdotes drawn from his own experiences and those of fellow workers and participants throughout the book In this way the book will appeal not only to those who are in or follow the transit industry but also to the average reader rider and San Francisco Bay Area resident Anyone who rides the F Line will get a much fuller appreciation of this great city This book has 290 pages with over 500 color and black and white photographs      **San Francisco's Powell Street Cable Cars** Emiliano Echeverria, Walter Rice (Ph. D.), 2005 San Francisco's cable cars are an internationally recognized symbol of the city but they also have a long and fractious history There are actually three cable lines in operation today the California Street line and the two Powell Street lines the Powell Mason and Powell Hyde The Powell Street lines have been the subject of much controversy through the years due to a complex lineage of private and public ownership Cable cars on Powell Street began in 1888 operating under the Ferries and Cliff House Railway Company and utilizing the same basic design pioneered by Andrew Hallidie in 1873 Among the story's twists and turns are the line's actual routes following the 1906 earthquake which caused heavy damage and forced major repairs Post quake United Railroads was able to replace many of the cable car lines with streetcars including a part of the Powell Street system San Francisco at one time had eight separate cable car operators Gradually most were replaced by streetcars buses and trolley buses given the complexities and expense of cable systems The Powell lines were taken over by the city in 1944 but the mayor tried to abandon them in 1947 The public disapproved of this move and since then the Powell Street line has only grown in stature and its importance to San Francisco      **Handbook of Manufacturers in and about San Francisco ... [v. 1- [1910-** Merchants' Association of San Francisco, 1910      **San Francisco's Noe Valley** Bill Yenne, 2004 Named for Jose de Jesus Noe San Francisco's last Mexican mayor Noe Valley is undoubtedly one of San Francisco's favorite neighborhoods and certainly one of the most picturesque Yet the area has a rich and varied history reaching far beyond the lovely buildings and lively street scenes familiar to so many citydwellers Originally part of the Rancho de San Miguel land grant the area was incorporated into the city and became an early example of a San Francisco enclave situated away from the noise and bustle of the downtown and waterfront areas Noe Valley gradually became an important residential and business center known for its beautifully restored Victorian homes as well as for the vibrant commercial corridor on Twenty fourth Street      **Encyclopedia of Transportation** Mark Garrett, 2014-08-13 Viewing transportation through the lens of

current social economic and policy aspects this four volume reference work explores the topic of transportation across multiple disciplines within the social sciences and related areas including geography public policy business and economics The book s articles all written by experts in the field seek to answer such questions as What has been the legacy not just economically but politically and socially as well of President Eisenhower s modern interstate highway system in America With that system and the infrastructure that supports it now in a state of decline and decay what s the best path for the future at a time of enormous fiscal constraints Should California politicians plunge ahead with plans for a high speed rail that every expert says despite the allure will go largely unused and will never pay back the massive investment while at this very moment potholes go unfilled all across the state What path is best for emerging countries to keep pace with dramatic economic growth for their part What are the social and financial costs of gridlock in our cities Features Approximately 675 signed articles authored by prominent scholars are arranged in A to Z fashion and conclude with Further Readings and cross references A Chronology helps readers put individual events into historical context a Reader s Guide organizes entries by broad topical or thematic areas a detailed index helps users quickly locate entries of most immediate interest and a Resource Guide provides a list of journals books and associations and their websites While articles were written to avoid jargon as much as possible a Glossary provides quick definitions of technical terms To ensure full well rounded coverage of the field the General Editor with expertise in urban planning public policy and the environment worked alongside a Consulting Editor with a background in Civil Engineering The index Reader s Guide and cross references combine for thorough search and browse capabilities in the electronic edition Available in both print and electronic formats Encyclopedia of Transportation is an ideal reference for libraries and those who want to explore the issues that surround transportation in the United States and around the world , **Railway Depots, Stations & Terminals** Brian Solomon,2015-10 Ride the rails with famed

railroad historian Brian Solomon and learn about the incredible architecture and history of stations across America Twentieth Century ,1891 Manifest Destinations J. Philip Gruen,2014-09-02 Tourists started visiting the American West in sizable numbers after the Union Pacific and Central Pacific Railroads were completed in 1869 Contemporary travel brochures and guidebooks of the 1870s sold tourists on the spectacular scenery of the West and depicted its cities as extensions of the natural landscape as well as places where efficient business operations and architectural grandeur prevailed all now easily accessible thanks to the relative comfort of transcontinental rail travel Yet as people flocked to western cities it was the everyday life that captured their interest the new technologies incessant clatter and all the upheaval of modern metropolises In Manifest Destinations J Philip Gruen examines the ways in which tourists experienced Chicago Denver Salt Lake City and San Francisco between 1869 and 1893 a period of rapid urbanization and accelerated modernity Gruen pays particular attention to the contrast between the way these cities were promoted and the way visitors actually experienced them Guidebooks made Chicago Denver Salt Lake City and San Francisco seem like picturesque environments

sprinkled with civilized buildings and refined people But Gruen s research in diaries letters and traveler narratives shows that tourists were interested as tourists usually are in the unexpected encounters that characterize city life Visitors relished the cities unfamiliar storefronts and advertising public transit systems ethnic diversity and multiple dwellings in all their urban messiness They thrust themselves into the noise danger and cacophony Western cities did not always live up to the marketing strategies of guidebooks but the western cities fast pace and many novelties held extraordinary appeal to visitors from the East Coast and abroad In recounting lively anecdotes and by focusing on tourist perceptions of everyday life in western cities Gruen shows how these cities developed the economy of tourism to eventually encompass both the urban and the natural West

**The Official Railway Guide** ,1909 Capital Streetcars: Early Mass Transit in Washington, D.C. John DeFerrari,2015 Washington s first streetcars trundled down Pennsylvania Avenue during the Civil War By the end of the century streetcar lines crisscrossed the city expanding it into the suburbs and defining where Washingtonians lived worked and played One of the most beloved routes was the scenic Cabin John line to the amusement park in Glen Echo Maryland From the quaint early days of small

horse drawn cars to the modern streamliners of the twentieth century the stories are all here Join author John DeFerrari on a joyride through the fascinating history of streetcars in the nation s capital **Baltimore's Streetcars and Buses** Gary Helton,2008 In the 1850s Baltimore s 170 000 residents had few options when it came to getting around town Before the decade s end however the omnibus an urban version of the stagecoach emerged as Baltimore s first mass transit vehicle Horsecars followed then cable cars and ultimately electrically powered streetcars Recognizing the need for cohesion the city s myriad transit providers merged into a single operator United Railways and Electric Company incorporated in 1899 faced the unenviable task of integrating routes being served by inadequate incompatible and often obsolete equipment Over the next seven decades privately run mass transit in Baltimore survived bankruptcy a name change two world wars the proliferation of private automobiles a takeover by out of town interests and a plethora of new vehicles Arguably a unified system of privately operated mass transit was no closer to being a reality in 1970 when it reached the end of the line and was taken over by the state How it Works Cavendish Square Publishing LLC,2003 Highlights the latest scientific and technological advances from inventions and discoveries to a history of technology San Francisco's California Street Cable Cars Walter Rice,Emiliano Echeverria,Michael Dolgushkin,2008 San Franciscos internationally recognized cable cars are the symbol of the individual character of a great city The California Street cable car line is one of only three remaining lines in the city The California Street Railway or Cal Cable was developed and opened by Leland Stanford one of the builders of the transcontinental railroad and later founder of Stanford University Indeed the iconic line intimately connected with some of the Wests pioneer businessmen was sold expanded and reached its peak mileage just after 1890 only to be destroyed in the great earthquake and fire of 1906 As resilient as the city it served Cal Cable was rebuilt and lasted as an independent business longer than any other private San Francisco transit operation Cut down to its present form in 1954 that remnant and its double ended cars survive as an integral part of todays cable car system Motor West and California Motor ,1917

Hansen,Don L. Hofsommer,Carlos Arnaldo

Schwantes, 2022-09-20 *Crossroads of a Continent Missouri Railroads 1851-1921* tells the story of the state's railroads and their vital role in American history. Missouri and St. Louis, its largest city, are strategically located within the American Heartland. On July 4, 1851, when the Pacific Railroad of Missouri began construction in St. Louis, the city took its first step to becoming a major hub for railroads. By the 1920s, the state was crisscrossed with railways reaching toward all points of the compass. Authors Peter A. Hansen, Don L. Hofsommer, and Carlos Arnaldo Schwantes explore the history of Missouri railroads through personal, absorbing tales of the cutthroat competition between cities and between railroads that meant the difference between prosperity and obscurity, the ambitions and dreams of visionaries Fred Harvey and Arthur Stilwell, and the country's excitement over the St. Louis World's Fair of 1904. Beautifully illustrated with over 100 color images of historical railway ephemera, *Crossroads of a Continent* is an engaging history of key American railroads and of Missouri's critical contribution to the American story.
