## **San Francisco's Decorated Cable Cars:**

**San Francisco's Decorated Cable Cars** Fred A. Stindt, 1975 *San Francisco's Powell Street Cable Cars* Emiliano Echeverria, Walter Rice (Ph. D.), 2005 San Francisco's cable cars are an internationally recognized symbol of the city but they also have a long and fractious history. There are actually three cable lines in operation today: the California Street line and the two Powell Street lines, the Powell-Mason and Powell-Hyde. The Powell Street lines have been the subject of much controversy through the years due to a complex lineage of private and public ownership. Cable cars on Powell Street began in 1888 operating under the Ferries and Cliff House Railway Company and utilizing the same basic design pioneered by Andrew Hallidie in 1873. Among the story's twists and turns are the line's actual routes following the 1906 earthquake which caused heavy damage and forced major repairs. Post-quake United Railroads was able to replace many of the cable car lines with streetcars, including a part of the Powell Street system. San Francisco at one time had eight separate cable car operators. Gradually most were replaced by streetcars, buses, and trolley buses given the complexities and expense of cable systems. The Powell lines were taken over by the city in 1944 but the mayor tried to abandon them in 1947. The public disapproved of this move and since then the Powell Street line has only grown in stature and its importance to San Francisco.

**San Francisco's F-Line** Peter Ehrlich, 2012-08-24 San Francisco's F-Line is the fun way to ride transit in one of America's greatest cities. Using multi-colored streetcars built in the 1940s, 1920s, and even earlier, it is a transforming experience that carries the rider back to a more genteel and carefree time while providing an efficient and pleasant way to get from here to there in a modern era. Its creation has shown the world that public transportation can be exciting, fun, and a source of civic pride. The author, an active participant in the success of the F-Line, has written the book in an upbeat and breezy style sprinkling anecdotes drawn from his own experiences and those of fellow workers and participants throughout the book. In this way, the book will appeal not only to those who are in or follow the transit industry but also to the average reader, rider, and San Francisco Bay Area resident. Anyone who rides the F-Line will get a much fuller appreciation of this great city. This book has 290 pages with over 500 color and black and white photographs.

**San Francisco's California Street Cable Cars** Walter Rice, Emiliano Echeverria, Michael Dolgushkin, 2008 San Francisco's internationally recognized cable cars are the symbol of the individual

character of a great city The California Street cable car line is one of only three remaining lines in the city The California Street Railway or Cal Cable was developed and opened by Leland Stanford one of the builders of the transcontinental railroad and later founder of Stanford University Indeed the iconic line intimately connected with some of the West's pioneer businessmen was sold expanded and reached its peak mileage just after 1890 only to be destroyed in the great earthquake and fire of 1906 As resilient as the city it served Cal Cable was rebuilt and lasted as an independent business longer than any other private San Francisco transit operation Cut down to its present form in 1954 that remnant and its double ended cars survive as an integral part of today's cable car system *Catalog of Copyright Entries.
