the Polity of Mercy Richard MacKenney, 2018-12-21 This study re-examines Venice's political economy from the viewpoint of its ordinary people or *popolani* who despite the commonly held view that they were excluded from political life by the nobility or *nobili* actually organized and ran for themselves hundreds of corporations within the city state. Mercy was central to this *popolani*'s Christian values and those who offered mercy to their fellow men and women in temporary hardship were investing in the expectation of reciprocity in their own time of need. Beginning by tracing a formative linking of religion, economy, and polity from the thirteenth to the fifteenth centuries, Venice as the Polity of Mercy then chronicles the collapse of this triad during the struggles between church and state in the mid-sixteenth and seventeenth centuries, followed by a revitalizing reconnection of economy and polity within a different religious climate after the plague of 1630. As such, Richard Mackenney's book offers up a revitalized image of Renaissance Venetian society as dynamic rather than static, as well as a new understanding of the city's significance through a reconfiguration of its history and artwork. **Dictionary of**

American Naval Fighting Ships, 1976 **Collisions at the Crossroads** Genevieve Carpio, 2019-04-16 There are few places where mobility has shaped identity as widely as the American West, but some locations and populations sit at its major crossroads, maintaining control over place and mobility, labor, and race. In *Collisions at the Crossroads*, Genevieve Carpio argues that mobility, both permission to move freely and prohibitions on movement, helped shape racial formation in the eastern suburbs of Los Angeles and the Inland Empire throughout the nineteenth and twentieth centuries. By examining policies and forces as different as historical societies, Indian boarding schools, bicycle ordinances, immigration policy, incarceration, traffic checkpoints, and Route 66 heritage, she shows how local authorities constructed a racial hierarchy by allowing some people to move freely while placing limits on the mobility of others. Highlighting the ways people of color have negotiated their place within these systems, Carpio reveals a compelling and perceptive analysis of spatial mobility through physical movement and residence. Reed Ueda, 2017-09-21 A unique panoramic survey of ethnic groups throughout the United States that explores the diverse communities in every region, state, and big city. Race, ethnicity, and immigrants' lives and identity: these are all key topics that Americans need to study in order to fully understand U.S. culture, society, politics, economics, and history. Learning about place through our own historical and contemporary neighborhoods is an ideal way to better grasp the important role of race and ethnicity in the United States. This reference work comprehensively covers both historical and contemporary ethnic and immigrant neighborhoods through A-Z entries that explore the places and people in every major U.S. region and neighborhood. *America's Changing Neighborhoods: An Exploration of Diversity* uniquely combines the history of ethnic groups with the history of communities, offering an interdisciplinary examination of the nation's makeup. It gives readers perspective and insight into ethnicity and race based on the geography of enclaves across the nation, in regions, and in specific cities or localized areas within a city. Among the entries are nearly 200 neighborhood biographies that provide histories of local communities and their ethnic groups. Images, sidebars
