Calamity by Earthquake and Fire Charles Morris,2018-08-14 The San Francisco calamity by earthquake and fire by Charles Morris On the splendid Bay of San Francisco one of the noblest harbors on the whole vast range of the Pacific Ocean long has stood like a Queen of the West on its seven hills the beautiful city of San Francisco the youngest and in its own way one of the most beautiful and attractive of the large cities of the United States Born less than sixty years ago it has grown with the healthy rapidity of a young giant outvieing many cities of much earlier origin until it has won rank as the eighth city of the United States and as the unquestioned metropolis of our far Western States It is on this great and rich city that the dark

demon of destruction has now descended as it fell on the next younger of our cities Chicago in 1872 It was the rage of the fire fiend that desolated the metropolis of the lakes Upon the Queen City of the West the twin terrors of earthquake and conflagration have descended at once careening through its thronged streets its marts of trade and its abodes alike of poverty and wealth and with the red hand of devastation sweeping one of the noblest centres of human industry and enterprise from the face of the earth It is this story of almost irremediable ruin which it is our unwelcome duty to chronicle But before entering upon this sorrowful task some description of the city that has fallen a prey to two of the earth's chief agents of destruction must be given San Francisco is built on the end of a peninsula or tongue of land lying between the Pacific Ocean and the broad San Francisco Bay a noble body of inland water extending southward for about forty miles and with a width varying from six to twelve miles Northward this splendid body of water is connected with San Pablo Bay ten miles long and the latter with Suisun Bay eight miles long the whole forming a grand range of navigable waters only surpassed by the great northern inlet of Puget Sound The Golden Gate a channel five miles long connects this great harbor with the sea the whole giving San Francisco the greatest commercial advantages to be found on the Pacific coast We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
