**Paul T. Frankl and Modern American Design** Christopher Long, 2007-01-01 A comprehensive view of the life work and ideas of one of the creative giants of modern American design Arriving in the United States in 1914 Viennese born Paul T Frankl 1886-1958 brought with him an outsider's fresh perspective and an enthusiasm for forging a uniquely American design aesthetic In the years between the two world wars he more than any other designer helped shape the distinctive look of American modernism This authoritative book draws on an extensive collection of unpublished documents and family papers and photographs to provide the first full account of Frankl's life and ideas The book also explores the history of modern American design and the extent of Frankl's influence on its trajectory In the early 1920s

Frankl opened a New York City shop that became an epicenter of American modernism. Over the next decades his work encompassed everything from individual pieces of furniture and decorative accessories to entire interiors and his style continuously evolved from early Skyscraper furniture to relaxed and casual designs favored by the Hollywood elite in the 1930s to manufactured pieces for the mass market in the 1950s. The book charts the impact of Frankl's ideas on merchants and consumers, on his fellow designers, and on the changing look of American homes and workplaces. With close to 170 illustrations, Paul T. Frankl and *Modern American Design* is an essential reference on 20th-century design.

*Women Designers in the USA, 1900-2000* Pat Kirkham, 2000-01-01 A celebration of the many contributions of women designers to 20th-century American culture. Encompassing work in fields ranging from textiles and ceramics to furniture and fashion, it features the achievements of women of various ethnic and cultural groups, including both famous designers Ray Eames, Florence Knoll, and Donna Karan and their less well-known sisters.

**California Design, 1930-1965 Living In a Modern Way** Wendy Kaplan, 2011 The first comprehensive examination of California's mid-century modern design, generously illustrated. In 1951, designer Greta Magnusson Grossman observed that California design was not a superimposed style but an answer to present conditions. It has developed out of our own preferences for living in a modern way. California design influenced the material culture of the entire country in everything from architecture to fashion. This generously illustrated book, which accompanies a major exhibition at the Los Angeles County Museum of Art, is the first comprehensive examination of California's mid-century modern design. It begins by tracing the origins of a distinctively California modernism in the 1930s by such European migrants as Richard Neutra, Rudolph Schindler, and Kem Weber; it finds other specific design influences and innovations in solid color, commercial ceramics, inspirations from Mexico and Asia, new schools for design training, new concepts about leisure, and the conversion of wartime technologies to peacetime use exemplified by Charles and Ray Eames's plywood and fiberglass furniture. The heart of California Design is the modern California home, famously characterized by open plans conducive to outdoor living. The layouts of modernist homes by Pierre Koenig, Craig Ellwood, and Raphael Soriano, for example, were intended to blur the distinction between indoors and out. Homes were furnished with products from Heath Ceramics, Van Keppel Green, and Architectural Pottery, as well as other previously unheralded companies and designers. Many objects were designed to be multifunctional: pool and patio furniture that was equally suitable indoors; lighting that was both task and ambient; bookshelves that served as room dividers; and bathing suits that would turn into ensembles appropriate for indoor entertainment. California Design includes 350 images, most in color, of furniture, ceramics, metalwork, architecture, graphic and industrial design, film, textiles, and fashion, and ten incisive essays that trace the rise of the California design aesthetic of wartime technologies to peacetime use exemplified by Charles and Ray Eames's plywood and fiberglass furniture. **NorCalMod** Pierluigi Serraino, 2006-08-03 Many people think modernist architecture never flowered in California north of the San Fernando Valley NorCalMod dispels that notion in a copiously illustrated history showcasing extraordinary examples of its proud contribution to the Bay Area and environs As a style modernist architecture was hotly debated in its

day why create modern structures where such distinctive Victorian and Arts and Crafts buildings already existed pulling heavyweights such as Frank Lloyd Wright Lewis Mumford and Walter Gropius into the fray Ultimately that existing Bay Region Style would remain the area s architectural hallmark but not before hundreds of important modernist projects many still standing yet unjustly neglected today had been established The remarkable photos in this book open our eyes to a long lost chapter in the history of California architecture and make NorCalMod a volume to be enjoyed by those interested in California history and style as well as by architecture students and professionals

**Émigré Cultures in Design and Architecture** Alison J. Clarke, Elana Shapira, 2017-11-02 This new volume addresses the lasting contribution made by Central European migr designers to twentieth century American design and architecture The contributors examine how oppositional stances in debates concerning consumption and modernism s social agendas taken by designers such as Felix Augenfeld Joseph Binder Josef Frank Paul T Frankl Frederick Kiesler Richard Neutra and R M Schindler in Europe prefigured their later adoption or rejection by American culture They argue that migr s and refugees from fascist Europe such as Gy rgy Kepes Paul L szl Victor Papanek Bernard Rudofsky Xanti Schawinsky and Eva Zeisel drew on the particular experiences of their home countries and networks of migr and exiled designers in the United States to develop a humanist progressive and socially inclusive design culture which continues to influence design practice today Dwell, 2001-04 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines
