## **San Juan Tras La Fachada:**

San Juan tras la fachada Edwin R. Quiles Rodríguez,2003    Family Matters Marisel C. Moreno,2012 Adopting a comparative and multidisciplinary approach to Puerto Rican literature Marisel Moreno juxtaposes narratives by insular and US Puerto Rican women authors in order to examine their convergences and divergences By showing how these writers use the trope of family to question the tenets of racial and social harmony an idealized past and patriarchal authority that sustain the foundational myth of la gran familia she argues that this metaphor constitutes an overlooked literary contact zone between narratives from both sides Moreno proposes the recognition of a transinsular corpus to reflect the increasingly transnational character of the Puerto Rican population and addresses the need to broaden the literary canon in order to include the diaspora Drawing on the fields of historiography cultural studies and gender studies the author defies the tendency to examine these literary bodies independently of one another and therefore aims to present a more nuanced and holistic vision of this literature

**Raising the Living Dead** Alberto Ortiz Díaz,2023-03-08 An eye opening look at how incarcerated people health professionals and others behind and beyond bars came together to problem solve incarceration Raising the Living Dead is a history of Puerto Rico's carceral rehabilitation system that brings to life the interactions of incarcerated people their wider social networks and health care professionals Alberto Ortiz Diaz describes the ways that multiple communities of care came together both inside and outside of prisons to imagine and enact solution oriented cultures of rehabilitation from the 1930s to the 1960s Scientific and humanistic approaches to well being were deliberately fused to raise the living dead an expression that reemerged in the modern Caribbean to refer to prisoners These reform groups sought to raise incarcerated people physically mentally socially spiritually and civically The book is based on deep original archival research into the Oso Blanco White Bear penitentiary in Puerto Rico yet it situates its study within Puerto Rico's broader carceral archipelago and other Caribbean prisons The agents of this history include not only physical health professionals but also psychologists and psychiatrists social workers spiritual and religious practitioners and of course the prisoners and their families By following all these groups and emphasizing the interpersonal exercise of power Ortiz Diaz tells a story that goes beyond debates about structural and social control The book addresses key issues in the history of prisons and the histories of medicine and belief including how prisoners different racial class and cultural identities shaped their incarceration and how professionals living in a colonial society dealt with the challenge of rehabilitating prisoners for citizenship Raising the Living Dead is not just about convicts their immediate interlocutors and their contexts however but about how together these open a window into the history of social uplift projects within the neo colonial societies of the Caribbean There is no book like this in Caribbean historiography few examine these themes in the larger literature on the history of prisons    (Post-)colonial Archipelagos Hans-Jürgen Burchardt,Johanna Leinius,2022-02-22 The Puerto Rican debt crisis the challenges of social political and economic transition in Cuba and the populist politics of Duterte in the Philippines

these topics are typically seen as disparate experiences of social reality. Though these island territories were colonized by the same two colonial powers by the Spanish Empire and after 1898 by the United States research in the fields of history and the social sciences rarely draws links between these three contexts. Located at the intersection of Postcolonial Studies Latin American Studies Caribbean Studies and History this interdisciplinary volume brings together scholars from the US Europe Latin America the Caribbean and the Philippines to examine the colonial legacies of the three island nations of Cuba Puerto Rico and the Philippines. Instead of focusing on the legacies of US colonialism the continuing legacies of Spanish colonialism are put center stage. The analyses offered in the volume yield new and surprising insights into the study of colonial and postcolonial constellations that are of interest not only for experts but also for readers interested in the social political economic and cultural dynamics of Cuba Puerto Rico and the Philippines during Spanish colonization and in the present. The empirical material profits from a rigorous and systematic analytical framework and is thus easily accessible for students researchers and the interested public alike.

**Imperial Islands** Joseph R. Hartman, 2021-11-30  
When the USS Maine mysteriously exploded in Havana's harbor on February 15 1898 the United States joined local rebel forces to avenge the Maine and liberate Cuba from the Spanish empire. Remember the Maine To Hell with Spain So went the popular slogan. Little did the Cubans know that the United States was not going to give them freedom in less than a year the American flag replaced the Spanish flag over the various island colonies of Cuba Guam Puerto Rico and the Philippines. Spurred by military successes and dreams of an island empire the US annexed Hawaii that same year even establishing island colonies throughout Micronesia and the Antilles. With the new governmental orders of creating new art architecture monuments and infrastructure from the United States the island cultures of the Caribbean and Pacific were now caught in a strategic scope of a growing imperial power. These spatial and visual objects created a visible confrontation between local indigenous African Asian Spanish and US imperial expressions. These material and visual histories often go unacknowledged but serve as uncomplicated proof for the visible confrontation between the US and the new island territories. The essays in this volume contribute to an important art historical visual cultural architectural and materialist critique of a growing body of scholarship on the US Empire and the War of 1898. Imperial Islands seeks to reimagine the history and cultural politics of art architecture and visual experience in the US insular context. The authors of this volume propose a new direction of visual culture and spatial experience through nuanced terrains for writing envisioning and revising US American Caribbean and Pacific histories. These original essays address the role of art and architecture in expressions of state power racialized and gendered representations of the United States and its island colonies and forms of resistance to US cultural presence. Featuring interdisciplinary approaches Imperial Islands offers readers a new way of learning the ongoing significance of vision and experience in the US empire today particularly for Caribbean Latinx Pilipinx and Pacific Island communities.

**Transformative Planning** Angotti Tom

Angotti,2020-03-01 Though modern urban planning is only a century old it appears to be facing extinction Historically urban planning has been narrowly conceived ignoring gaping inequalities of race class and gender while promoting unbridled growth and environmental injustices In Transformative Planning Tom Angotti argues that unless planning is radically transformed and develops serious alternatives to neoliberal urbanism and disaster capitalism it will be irrelevant in this century This book emerges from decades of urban planners and activists contesting inequalities of class race and gender in cities around the world It compiles the discussions and debates that appeared in the publications of Planners Network a North American urban planners association Original contributions have been added to the collection so that it serves as both a reflection of past theory and practice and a challenge for a new generation of activists and planners     Cuerpo y cultura
