Haiti Business Law Handbook Volume 1 Strategic Information and Basic Laws IBP, Inc., 2017-11-24 Haiti Business Law Handbook Volume 1 Strategic Information and Basic Laws **Marines on the Beach** Christopher Paul, 2008-09-30 Paul explores both how and why U S military intervention decisions are made Pursuit of that inquiry requires the identification of decision participants thorough examination of the decision making processes they employ and recognition of several factors that influence intervention decisions the national interest legitimacy and the legacies of previous policies This book provides chapter length treatment of each of these issues The research is based on detailed historical case studies for the four U S Marines on the beach military interventions in Latin America since World War II The Dominican Republic 1965 Grenada 1983 Panama 1989 and Haiti 1994 Additional cases notably Afghanistan and Iraq enter the discussion when considering findings with broader implications Of the existing theories of governance that compete to explain government policy making Paul finds that elite theory provides the best general model for intervention decision making but that the notions of both pluralist and class theorists contribute to a complete explanation and sometimes in an unexpected way Findings also indicate considerable contribution from and constraint by institutional sources However far from finding that institutional factors are wholly deterministic this research offers support for a choice within constraints model Conclusions suggest that top decision makers especially the president enjoy wide latitude in framing the national interest and in choosing where to and where not to intervene **NGOs in China and Europe** Yuwen Li, 2016-05-06 This volume presents a comparison of the experiences of NGOs in China and Europe The chapters on China contain the most comprehensive and up to date analysis of various types of NGOs currently active in the country The contributions on foreign NGOs in China non governmental think tanks public interest legal organizations labour related NGOs and charity organizations are the first in English to discuss successful experiences as well as the difficulties they face in the post Mao era The European studies draw examples from countries where the experiences of NGOs are at various stages of development The section on NGOs in Central and Eastern Europe examines the rapid expansion of civil society and their pivotal role in promoting political change and building democracy in a transitional society as well as the challenges they confront in

advancing a strong civil society Those chapters on NGOs experiences in Western European countries especially in the Netherlands and the UK provide insightful information and examination of the most contentious issues concerning NGOs accountability governance and relationship with the government

Mass Media and Foreign Policy Walter C. Soderlund, 2003-05-30 The terrorist attacks on the United States that occurred on September 11 marked the end of an historical era known as the post Cold War period During this time the U S government produced no clear media guidelines for dealing with world crises and media coverage increasingly came to be focused on domestic conflicts rather than international ones In the absence of a clearly defined threat no dominant media frame replaced the time worn Cold War in

media reporting Mass media has been recognized as an important intermediary between the government and the population In this context this study examines network coverage of seven post Cold War crises ranging from Cuba to Mexico occurring in the Caribbean Basin between 1990 and 1996 to evaluate the framing of these events by the various media covering them In providing context for understanding these crises this examination reviews U S policy in each case and discovers a strong correlation between the level of U S involvement in the crisis and the amount of media attention generated By appearing on the news or not the president along with key Cabinet members were able to define whether an event constituted a crisis for the United States In instances where the media received little guidance from Washington officials on the implications for the United States the media did attempt to provide explanations of events however coverage tended to be minimal Case studies include the recording and coding of language used as positive negative and neutral ambiguous

Liberal Interventionism and Democracy Promotion Dursun Peksen,2012-03-16 Despite growing interest in democracy promotion the nature and extent of external factors impact on democratic transitions to date remains understudied The question of what works under what circumstances is still intensely contested among academics policy makers and practitioners Liberal Interventionism and Democracy Promotion edited by Dursun Peksen contributes to the study of international democracy promotion exploring the extent to which various forms of foreign interventions and policy actors that advocate political liberalization affect the spread of democracy The contributors in this study specifically address issues highly relevant to the academic research and policymaking including the evaluation of the efficacy of four major tools economic sanctions foreign aid external armed interventions and soft power that are often used to advance political liberalization in authoritarian regimes The book also assesses the performance of four major non state actors the International Monetary Fund the United Nations the European Union and transnational human rights organizations that have become increasingly influential in advocating the spread of civil liberties and political rights Liberal Interventionism and Democracy Promotion s comprehensive assessment of the efficacy of major policy instruments and actors that advocate political liberalization offers a greater understanding of what works best and when in the practice of democracy promotion This collection is an essential contribution to the study of democracy promotion and international relations

Renegade Regimes Miroslav Nincic,2005-10-26 Rogue states pursue weapons of mass destruction support terrorism violate human rights engage in acts of territorial aggression and pose a threat to the international community Recent debates and policy shifts regarding Iraq North Korea Syria Iran and Afghanistan reflect the uneven attempts to contend with regimes that pursue deviant behavior In this timely new work Miroslav Nincic illuminates the complex issues and policy choices surrounding clashes between international society and states that challenge the majority s espoused interests and values As conventional approaches to international relations lose their relevance in a changing world Nincic s work provides new and necessary frameworks and perspectives Nincic explores recent events and develops theoretical models of contemporary asymmetrical power relations among states to offer a

systematic account of the genesis trajectory and motivations of renegade regimes He discusses how the pursuit of policies that defy international norms is often motivated by a regime's desire for greater domestic control From this starting point Nincic considers states deviant behavior through two stages the first is the initial decision to defy key aspects of the international normative order and the second is the manner in which subsequent behavior is shaped by the international community's responses In addressing attempts to control pariah states Nincic assesses the effectiveness of sanctions and military responses He provocatively argues that comprehensive economic sanctions can lead to a restructuring of the renegade regime's ideology and economy that ultimately strengthens its grip on power In his chapter on military intervention Nincic argues that force or the threat of force against a rogue state frequently triggers a protective reflex among its citizens inspiring them to rally around the government's goals and values Military threats Nincic concludes produce several kinds of consequences and their impact needs to be better understood

Policy Passages Howard J. Wiarda, 2002-12-30 What options are available now or in the future for students interested in a public policy career How do they train network and advance in the field Students parents professors guidance counselors and department chairs are often frustrated by the absence of a solid readable book on policy careers and options This book presents the career stories of twenty scholars and policy practitioners who have worked in Congress the State Department the CIA Defense international agencies think tanks the media and major law firms all of whom have been influential in shaping public policy to give readers an accurate and realistic view of life outside the academic world No other book provides this type of solid advice for young policy professionals and for older scholars considering career changes As such it is vital reading in guidance and department collections and an essential addition to the personal bookshelves of individual students scholars and researchers

Targeted Sanctions Thomas J. Biersteker, Sue E. Eckert, Marcos Tourinho, 2016-03-17 Systematically analyzes the impacts and the effectiveness of UN targeted sanctions over the past quarter century

The Chapter VII Powers of the United Nations Security Council Erika de Wet, 2004 This study provides a comprehensive analysis of the questions pertaining to the powers of the Security Council under Chapter VII of the Charter of the United Nations In doing so it departs from the premise that an analysis of the limitations to the powers of the Security

Council and an analysis of judicial review of such limitations by the ICJ respectively are inter dependent On the one hand judicial review would only become relevant if and to the extent that the powers granted to the Security Council under Chapter VII of the Charter are subject to justiciable limitations On the other hand the relevance of any limitation to the powers of the Security Council would remain limited if it could not be enforced by judicial review This inter dependence is reflected by the fact that Chapters 2 and 3 focus on judicial review in advisory and contentious proceedings respectively whereas Chapters 4 to 9 examine the limits to the powers of the Security Council The concluding chapter subsequently illuminates how the respective limits to the Security Council s enforcement powers could be enforced by judicial review It also explores an alternative mode of review of binding Security Council decisions that could complement judicial review by the ICJ notably the right of states to reject illegal Security Council decisions as a right of last resort The space and attention devoted to the limits to the Security Council s enforcement powers reflects the second aim of this study namely to provide new direction to this aspect of the debate on the Security Council s powers under Chapter VII of the Charter It does so by paying particular attention to the role of human rights norms in limiting the type of enforcement measures that the Security Council can resort to in order to maintain or restore international peace and security

Frankétienne and Rewriting Rachel Douglas, 2009-06-16 Rewriting in the context of critical work on Caribbean literature has tended to be used to discuss revisionism from a variety of postcolonial perspectives such as rewriting history or rewriting canonical texts By shifting the focus to how Caribbean writers return to their own works in order to rework them this book offers theoretical considerations to postcolonial studies on literariness in relation to the near obsessive degree of rewriting to which Caribbean writers have subjected their own literary texts Focusing specifically on FrankZtienne this book offers an overview of how the defining aesthetic and thematic components of FrankZtienne s major works have emerged over the course of his forty year writing career It reveals the marked development of key notions guiding his literary creation since the 1960s and demonstrates that rewriting illustrates the central aesthetic of the Spiral which has always shaped his Iuvre It is the book argues the constantly moving form of the Spiral which FrankZtienne explores through his constant reworking of his previously written texts FrankZtienne and Rewriting negotiates between the literary and material ends of the burgeoning field of postcolonial studies arguing that literary characteristics in FrankZtienne connect with changing political social economic and cultural circumstances in the Haiti he rewrites
