Religious Identity and the Problem of Historical Foundation Judith Frishman, Willemien Otten, Gerard Rouwhorst, 2004-02-01 The essays collected in this book deal with the question how throughout the history of Christianity Christian communities have tried to construct their identity by anchoring their views in authoritative and normative sources The main focus is upon the problem of historical foundation through textual traditions but other authoritative sources role of religious leaders ritual traditions are taken into consideration as well The book takes as its point of departure the fact that with the rise of modernity the former dependence of western church and society on authoritative sources was called into question Ever since appeal to such sources is no longer self evident at times it is even regarded as problematic Based on this radical change brought about by modernity the book is divided in two main parts The first part deals with the question how Christian churches and confessions Roman Catholic and Protestant confronted modernity and which role was played by authoritative sources in the tradition to the modern era Special attention will be paid to the way in which Judaism reacted to many of the same impulses both societal and religious ones The second part deals with the premodern period from early Christianity to the post Reformation era and focuses on the role authoritative traditions textual or otherwise have played in providing various Christian communities with a relative stable identity The aim of the book is to elucidate processes resulting in the formation of authoritative traditions as well as the effects of these traditions on the identity of Christian and Jewish communities In addition the book attempts to clarify the various ways in which Christian and Jewish communities have reacted to the growing suspicion authoritative traditions aroused in the western world since the rise of modernity

Paratext and Megatext as Channels of Jewish and Christian Traditions

August den Hollander, Ulrich Schmid, Willem Smelik, 2020-01-29 Religious traditions are channeled to new audiences by textual markers which inform their understanding and influence. Such markers are signs of contextualisation which belong to the paratext of a tradition: textual elements that do not belong to the core text itself but belong to their embedding and as such affect their reception. Alternatively, some texts function purposely in tandem with another text and cannot be understood without that text. While the second text informs the way the first one is being understood, it can hardly function independently. The discussions include the arrangement of textual blocks in the Hebrew Bible, how the oral transmission of Jewish Aramaic Bible translations had to be recited as a counterpoint to the Hebrew chant, how synagogue poetry presupposes the channels of liturgical instruction, how the Talmud can be perceived as a translation of Mishnah, how the presence of paratextual elements such as annotations and prefaces influenced the Index Librorum Prohibitorum concerning 16th century Bibles, the function of paratext and scope for modern Bible translations. This volume will tentatively explore the wide range of paratext and megatext as devices of channeling religious traditions.

Saints and Role Models in Judaism and Christianity

Marcel Poorthuis, Joshua J. Schwartz, 2004-01-01 This volume deals with the role of saints and exemplary individuals in Judaism and Christianity. Although sharing the Hebrew Bible and recognizing the same Biblical figures, there both religions have developed widely divergent perspectives upon the significance of these figures, although there are occasional common motifs and themes. Moreover, even the contrasting themes betray an underlying interaction between both religions, as is clear from the contributions on, for example, Melchizedek, Elijah, the Desert Fathers, Rabbis on clothing, the Apostle Peter in Jewish tradition, the Maccabees in Christian tradition, and the Biblical examples in Saint Antony the Hermit. The book examines Jewish and Christian perspectives upon saints and role models from the Biblical period to the present time. It will be of special importance to scholars and general readers interested in an interdisciplinary approach to theology, rabbinics, history, art history, and much more.

The Politics of Economic Life

Martin Beckstein, 2015-09-07 In recent years, economic life has become increasingly politicized: now every company has a philosophy promising its customers some ethical surplus in return for buying their products; consumers shop for change; workers engage in individualized forms of employee activism such as whistleblowing; and governments contribute to the reconfiguration of the economic sphere as a site of political contestation by reminding corporate and private economic actors of their duty to do their bit. *The Politics of Economic Life* addresses this trend by exploring the ways in which practices of consumption, work, production, and entrepreneurship are imbued with political strategy and ideology and assesses the potentials and perils of the politicization of economic activity for democracy in the 21st century.

Jerusalem and Other Holy Places as Foci of Multireligious and Ideological Confrontation, 2020-12-07 *Jerusalem and Other Holy Places as Foci of Multireligious and Ideological Confrontation* brings together the papers that were read at an international conference at the Schechter Institute in Jerusalem in May 2018. The contributions to this volume develop a multi-disciplinary perspective on holy places and their development, rhetorical force, and oft

contested nature Through a particular focus on Jerusalem this volume demonstrates the variety in the study of holy places as well as the flexibility of geographic and historical aspects of holiness *Holiness* Stephen C. Barton, 2003-01-01 Stephen Barton has commissioned social scientists philosophers of religion feminists biblical scholars historians moral theologians and systematic theologians international experts from a wide range of theological and related disciplines to reflect on holiness The book is divided into four parts the idea of holiness holiness and scripture holiness and Christian tradition and holiness and contemporary issues The contributions are inter denominational and inter religious There is nothing comparable on holiness available at present so this collection fills a significant gap in the literature Its comprehensive range and its interdisciplinary style will make it an important resource for students and scholars in theology church history ethics and religious studies

Purity and Holiness Marcel Poorthuis, Joshua J. Schwartz, 2020-01-29 Purity has long been recognized as one of the essential drives which determines humankind's relationship with the holy Codes of purity and impurity dealing with such far ranging topics as external stains and inner remorse represent the physical and bodily side of religious experience and provide the key to the understanding of human orientation to nature and the structure of society including even relationships between the sexes Starting with the Hebrew Bible a number of articles study some rather neglected passages from both exegetical and cultural anthropological standpoints Next it is shown that the concept of purity is far more central to the New Testament than previously thought Luke is portrayed as a Jewish oriented writer The discussion of purity in Mark is compared with Rabbinical and Qumranic material Patristic discussions of purity reflect both allegorical and literal interpretations while rabbinical rulings display a fine sense for detail and realia Biblical references to illness are interpreted both in Christian and Jewish traditions as a metaphor for immoral behavior The present collection of studies proceeds far beyond other collections on purity studying both the medieval and modern periods Purity rules in both Christian and Jewish society do not disappear in the Middle Ages but become increasingly stronger Sometimes there appear unexpected and surprising similarities between both societies Modern society sees a decline in the importance of purity reflecting a growing ambiguous attitude to the relationship between the body and the holy A feminist perspective is also provided examining the intertwined relationship between religion gender and power Exegesis archaeology liturgy anthropology and even architecture are all used to study the complex phenomena of purity in their religious and social dimensions from both Christian and Jewish perspectives

A Holy People Marcel Poorthuis, Joshua J. Schwartz, 2006-05-01 A Holy People investigates the various ways in which Jews and Christians define their religious identity people or community as being holy Keeping in mind that historical studies can offer food for thought regarding contemporary issues the study offers a large collection of essays relating to the biblical patristic and medieval period and especially to the modern period The obvious question of many in the modern world as to whether the attribute of the holiness allows for acknowledgement of authentic religion outside the own religious community deserves an honest answer and well documented study too easily the claim of

holiness intertwines with claims of power whether by rivalling groups within the religious community by groups divided along gender lines or on the level of territorial claims It will be of special importance to scholars and general readers interested in an interdisciplinary approach to theology rabbinics history political science and much more Jews in Israel Uzi Rebhun, Chaim Isaac Waxman, 2004 Offers a complete sociological perspective of Jews and Jewish life in Israel from 1948 to the present **After Eden** Hanneke Reuling, 2005-10-01 This volume charts the interpretation of Genesis 3 16 21 in a number of patristic and classical rabbinic sources It is a case study in the reception of a biblical fragment in two intrinsically related yet distinct interpretative communities early Christianity and rabbinic Judaism Following the lead of the biblical text this study sheds new light on each traditions view of the human condition more specifically on the way Church Fathers and Rabbis approach the themes of procreation labour mortality and corporeality The book carefully studies the reading of the biblical text as proposed by a number of representative and influential authors or documents including Ambrose of Milan Didymus the Blind John Chrysostom and Augustine as well as Genesis Rabbah and Avot de Rabbi Nathan The introductions at the beginning of each chapter enable also the non specialist to enter the distinct literary worlds of midrash and patristic Bible interpretation **Israel Celebrates** Hizky Shoham, 2017-04-03 Israel Celebrates is about the intersection where Israeli inventiveness and Jewish tradition meet the holidays It employs the anthropological history of four Jewish holidays as celebrated in Israel in order to track the naturalization of Jewish rituals myths and symbols in Israeli culture throughout the long twentieth century of Zionism and on to the present and to demonstrate how a new strand of Judaism developed in Israel from the grassroots But could this grassroots Israeli culture develop into a shared symbolic space for both Jews and Arabs By probing the political implications of the minutiae of life the book argues that this popular culture might come to define Jewish identity in Israel of the 21st century *The Temple Scroll* Lawrence H. Schiffman, Andrew Gross, 2021-07-15 In this volume Schiffman and Gross present a new edition of all of the manuscript evidence for the Temple Scroll from Qumran It includes innumerable new readings and restorations of all of the manuscripts as well as a detailed critical apparatus comparing the manuscripts of the Temple Scroll as well as Qumran biblical manuscripts and the ancient versions Each manuscript is provided with a new translation and a commentary is presented for the main text Also included are a general introduction bibliography of published works on the text catalog of photographic evidence and concordance including all vocables in all the manuscripts and their restorations This work promises to move research on the Temple Scroll to a new level **A Contemporary Critique of Historical Materialism** Anthony Giddens, 1981-01-01 **Studies in Contemporary Jewry: X: Reshaping the Past** Jonathan Frankel, 1995-03-30 This brilliant collection of essays examines the dialogue between Jewish history and historiography in terms of changing national and popular myths folk memory and historical consciousness of Jews in modern times From essays dealing with the origins of Jewish historiography in the nineteenth century to its contemporary perspectives and methodologies this book provides a great overview and varied insights into the field The Pursuit of

Holiness in Late Medieval and Renaissance Religion Heiko A. Oberman, Charles Edward Trinkaus, 2022-07-11 Holiness in Jewish Thought Alan L. Mittleman, 2018-01-19 Holiness is a challenge for contemporary Jewish thought The concept of holiness is crucial to religious discourse in general and to Jewish discourse in particular Holiness seems to express an important feature of religious thought and of religious ways of life Yet the concept is ill defined This collection explores what concepts of holiness were operative in different periods of Jewish history and bodies of Jewish literature and offers preliminary reflections on their theological and philosophical import today The contributors illumine some of the major episodes concerning holiness in the development of the Jewish tradition They are challenged to think about the problems and potential implicit in Judaic concepts of holiness to make them explicit and to try to retrieve the concepts for contemporary theological and philosophical reflection Not all of the contributors push into philosophical and theological territory but they all provide resources for the reader to do so Holiness is elusive but it need not be opaque This volume makes Jewish concepts of holiness lucid accessible and intellectually engaging Between Jerusalem and Mecca Uri Rubin (z"l), 2023-10-04 This book sheds new light on Jerusalem's status in early Islam The sanctity of the city is already discerned in the Qur'an The vision of redemption that the Qur'an displays coincides with the messianic expectations that have swept throughout the entire region especially among the Jews due to the attempted renewal of Jewish liturgy in Jerusalem following the Persian victory over Byzantium in 614 On the other hand the Qur'an also portrays the holiness of Mecca and the Ka'ba This book shows how it promotes their pre-Islamic holiness around the image of Abraham and Ishmael The changing balance between the sanctity of Jerusalem and the sanctity of Mecca in favor of the latter is noticeable in the Qur'an as one proceeds from the Meccan suras to the Medinan ones The change occurs against the background of the twist in relations between Muhammad and the Jews This book also points out the correlation between Muhammad's situation in Medina and events in Palestine involving the victory of the Byzantines over the Persians in 628 as alluded to in the opening passage of Sura al-Rum 30 This work illuminates the growing sanctity of Jerusalem following the arrival of the first Muslims to Palestine As in the Qur'an Mecca continued to struggle to preserve its status as a holy city vis-à-vis that of Jerusalem Key aspects of this struggle are reflected in traditions in which patterns of sanctity move from Jerusalem to Mecca and which this book also scrutinizes **Beauty and Holiness** James Alfred Martin, Jr., 2014-07-14 In this broad historical and critical overview based on a lifetime of scholarship James Alfred Martin Jr examines the development of the concepts of beauty and holiness as employed in theories of aesthetics and of religion The injunction in the Book of Psalms to worship the Lord in the beauty of holiness addressed a tradition that has comprehended holiness primarily in terms of ethical righteousness a conception that has strongly influenced Western understandings of religion As the author points out however the Greek forbears of Western thought as well as many Eastern traditions were and are more broadly concerned with the pursuit of beauty truth and goodness as ideals of human excellence that is with the holiness of beauty In this work Martin describes a philosophical stance that should prove to be most

productive for the dialogue between aesthetics and religion Beginning with the treatment of beauty and holiness in Hebrew Greek and classical Christian thought the author traces the emergence of modern theories of aesthetics and religion in the Enlightenment He then outlines the role of aesthetics in the theories of religion proposed by Otto Eliade van der Leeuw and Tillich in the cultural anthropology of Geertz and in the thought of Santayana Dewey Whitehead Heidegger and Wittgenstein In a global context Martin explores the relation of aesthetic theory to religious thought in the traditions of India China and Japan and concludes with reflections on the viability of modern aesthetic and religious theory in the light of contemporary cultural and methodological pluralism Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
