Thomas W. Walker

Sandinista Economics In Practice An Insiders Critical Reflections:

Sandinista Economics in Practice Alejandro Martínez Cuenca, 1992 In light of the Sandinistas 1990 electoral defeat Sandinista economist Martinez Cuenca offers this frank and engaging assessment of the Nicaraguan revolution and its prospects for the future

The History of Nicaragua Clifford L. Staten, 2010-05-20 This concise history of Nicaragua provides the reader with a history of the ways in which key political and economic factors have contributed to the creation of the modern nation Notwithstanding Nicaraguan President Daniel Ortega s disdain for the United States our nation has played a significant role in shaping Nicaraguan nationalism as well as the country s political economic and social systems The History of Nicaragua was written in part to help students and other interested readers understand that relationship providing them with an up to date concise and analytical history of the Central American nation The book begins by describing the people geography culture and current political economic and social systems of Nicaragua The remainder of the volume is devoted to a chronological history emphasizing recurring themes or factors that have shaped the modern state These include the importance of elite families such as the Somoza dynasty that ruled for more than 40 years Other topics include the agro export model of economic development modern Nicaraguan nationalism the Sandinista revolution and its legacy and the democratic transition that began in 1990

The Undermining of the Sandinista Revolution Gary Prevost, Harry E. Vanden, 2016-07-27 The Sandinista revolution brought dramatic social economic and political changes to Nicaragua in the 1980s but in the wake of the electoral defeat of the FSLN in 1990 the revolution has struggled to survive in the face of challenges from the Chamorro administration the US government and the International Monetary Fund Gains of the revolution in health care education Atlantic Coast autonomy agrarian reform and other areas have been systematically eroded However significant efforts have also been mounted especially in grass roots organizing and by women s organizations to protect the revolution s achievements Through a series of articles based on current research seven experts on contemporary Nicaragua draw a balance sheet on the gains of Sandinista revolution achieved by 1990 and assess the current status of the revolutionary project

The Sandinista Revolution Mateo Jarquín, 2024-04-10 The Sandinista Revolution and its victory against the Somoza dictatorship in Nicaragua gripped the United States and the world in the 1980s But as soon as the Sandinistas were voted out of power in 1990 and the Iran Contra affair ceased to make headlines it became in Washington at least a thing of the past Mateo Jarquin recenters the revolution as a major episode in the history of Latin America the international left and the Cold War Drawing on research in Nicaragua Cuba Mexico Panama and Costa Rica he recreates the perspective of Sandinista leaders in Managua and argues that their revolutionary project must be understood in international context Because struggles over the Revolution unfolded transnationally the Nicaraguan drama had lasting consequences for Latin American politics at a critical juncture It also reverberated in Western Europe among socialists worldwide and beyond illuminating global dynamics like the spread of democracy and the demise of a bipolar world

dominated by two superpowers Jarquin offers a sweeping analysis of the last left wing revolution of the twentieth century an overview of inter American affairs in the 1980s and an incisive look at the making of the post Cold War order After Revolution Florence E. Babb,2010-01-01 Nicaragua s Sandinista revolution 1979 1990 initiated a broad program of social transformation to improve the situation of the working class and poor women and other non elite groups through agrarian reform restructured urban employment and wide access to health care education and social services This book explores how Nicaragua s least powerful citizens have fared in the years since the Sandinista revolution as neoliberal governments have rolled back these state supported reforms and introduced measures to promote the development of a market driven economy Drawing on ethnographic research conducted throughout the 1990s Florence Babb describes the negative consequences that have followed the return to a capitalist path especially for women and low income citizens In addition she charts the growth of women s and other social movements neighborhood lesbian and gay indigenous youth peace and environmental that have taken advantage of new openings for political mobilization Her ethnographic portraits of a low income barrio and of women s craft cooperatives powerfully link local cultural responses to national and global processes **Nicaragua** Thomas W. Walker,2018-05-04 Nicaragua Emerging from the Shadow of the Eagle details the country s unique history culture economics politics and foreign relations Its historical coverage considers Nicaragua from pre Columbian and colonial times as well as during the nationalist liberal era the U S Marine occupation the Somoza dictatorship the Sandinista revolution and government the conservative restoration after 1990 and consolidation of the FSLN s power since the return of Daniel Ortega to the presidency in 2006 The thoroughly revised and updated sixth edition features new material covering political economic and social developments since 2011 This includes expanded discussions on economic diversification women and gender and social programs Students of Latin American politics and history will learn the how the interventions by the United States the eagle to the north have shaped Nicaraguan political economic and cultural life but also the extent to which Nicaragua is increasingly emerging from the eagle s shadow *Nicaragua (Large Print 16pt)* Christine J. Wade,Thomas W. Walker,2011-04 This newly revised volume details Nicaragua s unique history culture economics politics and foreign relations Its historical coverage considers the country s early and recent history from pre Columbian and colonial times through the nationalist liberal era the U S marine occupation the Somoza dictatorship the Sandinista regime the conservative restoration and the Sandinista comeback The fifth edition includes a new chapter detailing the reelection of Daniel Ortega and the irony of his current role in undercutting the rule of law and democracy that he helped institute in his earlier administration This edition also documents what may be the more enduring reality of this Central American country the historical and ongoing interventions by which the United States the eagle to the north continues to shape Nicaraguan political economic and cultural life *Negotiating Love in Post-revolutionary Nicaragua* Turid Hagene,2008 This book explores the issue of love and its place in the reproduction of gender asymmetry in Nicaragua The theme is discussed in the

context of specific religious and work practices living arrangements gender values and norms and the gender practices and legislation of the Sandinista revolution The study uses lifeworld phenomenology as its theoretical approach placing people's own experience center stage Therefore a case study of the Esperanza sewing cooperative is presented built on life stories interview materials and participant observation with the cooperative women and their husbands The material and discursive practices and emotional experiences of men and women are examined in this particular socio cultural setting How do we account for the highly unequal bargains the women strike with their husbands accepting large material responsibilities and time share love even if they experience this as emotionally hurtful The study testifies to women's autonomy in family maintenance and religious practices an autonomy which seems to falter in the fields of love and sexuality some of the men and women however negotiate subtle changes in gender norms and values

From Revolution to War Patrick J.

Conge, 2010-05-25 In the history of international relations few events command as much attention as revolution and war Over the centuries revolutionary transformations have produced some of the most ruinous and bloody wars Nevertheless the breakdown of peace in time of revolution is poorly understood Patrick Conge offers a groundbreaking study of the relationship between war and revolution How can we best understand the effect of revolutionary transformations on the politics of war and peace Conge argues that it is only by bringing in first the organizational capacity of revolutionary regimes to extract resources and convert them into military strength and second the power of transformative ideas to transcend national boundaries and undermine the ability of opposing regimes to compromise that we are best able to understand the effect of revolution on the origins and persistence of war By incorporating such key elements this book provides a new more comprehensive explanation of the relationship between revolution war and peace Conditions that lead to and sustain wars in general are identified and placed in the light of revolutionary transformations Once the argument is presented historical case studies are used to test its plausibility Conge demonstrates the importance of the effect of revolutionary organization and ideas on the outcome of conflicts Political scientists historians sociologists and the general reader interested in the politics of war and peace in revolutionary times are given new perspectives on the relationship between revolution and war as well as on the implications of political organization for military power and the process of consolidation of new regimes Patrick J

Conge is Assistant Professor of Political Science University of Arkansas

The Many Faces of Sandinista Democracy

Katherine Hoyt, 1997 Taking power in Nicaragua in 1979 as a revolutionary party the Sandinista National Liberation Front FSLN was willing to put its fate in the hands of the Nicaraguan people twice in 1984 and 1990 The party wrote a democratic constitution and then remarkably accepted the decision of the majority by relinquishing power upon its defeat in the 1990 election The Many Faces of Sandinista Democracy explores the conflicts involving different visions of political and economic democracy as well as new radical thought on participatory democracy The latter addresses the problems popular organizations encountered as they moved from subservience to the FSLN in the 1980s to the liberating but disorientating

electoral defeat of 1990 Up until the moment of defeat the Sandinistas saw themselves as the true vanguard of the Nicaraguan people able to submit themselves to free elections because they felt they truly represented the general will of the people Dr Hoyt brings to an international audience for the first time a study of the ideas of several Nicaraguan thinkers She examines the conflicts surrounding the development of ideas within the FSLN as well as the strengths and weaknesses of its rare combination of democratic and vanguard principles

Theorizing Revolutions John Foran,2003-09-02 In Theorizing Revolutions some of the most exciting thinkers in the study of revolutions today look critically at the many theoretical frameworks through which revolutions can be understood and apply them to specific revolutionary cases The theoretical approaches considered in this way include state centred perspectives structural theory world system analysis elite models demographic theories and feminism and the revolutions covered range in time from the French Revolution to Eastern Europe in 1989 and in place from Russia to Vietnam and Nicaragua

The Ends of Modernization David Johnson Lee,2021-08-15 The Ends of Modernization studies the relations between Nicaragua and the United States in the crucial years during and after the Cold War David Johnson Lee charts the transformation of the ideals of modernization national autonomy and planned development as they gave way to human rights protection neoliberalism and sustainability Using archival material newspapers literature and interviews with historical actors in countries across Latin America the United States and Europe Lee demonstrates how conflict between the United States and Nicaragua shaped larger international development policy and transformed the Cold War In Nicaragua the backlash to modernization took the form of the Sandinista Revolution which ousted President Anastasio Somoza Debayle in July 1979 In the wake of the earlier reconstruction of Managua after the devastating 1972 earthquake and instigated by the revolutionary shift of power in the city the Sandinista Revolution incited radical changes that challenged the frankly ideological and economic motivations of modernization In response to threats to its ideological dominance regionally and globally the United States began to promote new paradigms of development built around human rights entrepreneurial internationalism indigenous rights and sustainable development Lee traces the ways Nicaraguans made their country central to the contest over development ideals beginning in the 1960s transforming how political and economic development were imagined worldwide By illustrating how ideas about ecology and sustainable development became linked to geopolitical conflict during and after the Cold War The Ends of Modernization provides a history of the late Cold War that connects the contest between the two then prevailing superpowers to trends that shape our present globalized multipolar world

Culture and Customs of Nicaragua Steven F. White,Esthela Calderon,2008-01-30 Throughout its history Nicaragua has been plagued by corruption social and racial inequality civil unrest and foreign interference Yet despite being the second poorest nation in South America Nicaragua maintains a rich and vibrant culture that reflects its strong Catholic devotion diverse indigenous roots and overwhelming zest for life Culture and Customs of Nicaragua introduces students and general readers to Nicaragua s unique blend of religious and traditional holidays so

numerous that the country is said to be in a constant state of celebration its growing film industry its many styles of dance the popular street theatre open to all bystanders important contributions to Spanish literature local cuisines architecture social norms and more Readers learn what it is like to live in one of Latin America s most disillusioned countries but also discover the passionate culture that defines and sustains the Nicaraguan people *Rethinking Revolution* Dan Connell,2001 Rethinking Revolution brings to life the spirited and often contentious debates among frontline activists over how to unify and transform their societies toward greater economic social and political equality Looking at the most dynamic new social movements in several countries Connell examines how these groups are challenging and enriching strategic vision of leading political parties even as they redefine the nature of power and the struggle to achieve it A bold and provocative analysis Howard Zinn Thoughtful often brilliant Margaret Randall *Revolution and the Multiclass Coalition in Nicaragua* Mark Everingham,2010-11-23 This book tells the intriguing story of the multi class coalition that formed to overthrow Somoza s Nicaraguan government in July of 1979 Mark Everingham offers personal accounts from members of the elite class to determine the factors that led them to join the popular class in support of the Sandinista uprising **The Roots of Engagement** Moisés Arce,Michael S. Hendricks,Marc S. Polizzi,2022 The T a Mar a project by Southern Copper Peru is one of the most protracted and violent resource conflicts in Peru It began in 2009 when Southern presented its first environmental impact assessment to develop an open pit copper mine near the Valle del Tambo Tambo Valley area in the southern region of Arequipa Twelve years later almost every mobilizing strategy and state response typical of protracted resource conflicts has taken place in T a Mar a including *Food and Revolution* Christiane Berth,2021-02-02 Food policy and practices varied widely in Nicaragua during the last decades of the twentieth century In the 1970s and 80s food scarcity contributed to the demise of the Somoza dictatorship and the Sandinista revolution Although faced with widespread scarcity and political restrictions Nicaraguan consumers still carved out spaces for defining their food choices Despite economic crises rationing and war limiting peoples food selection consumers responded with improvisation in daily cooking practices and organizing food exchanges through three distinct periods First the Somoza dictatorship 1936 1979 promoted culture and food practices from the United States which was an option only for a minority of citizens Second the 1979 Sandinista revolution tried to steer Nicaraguans away from mass consumption by introducing an austere frugal consumption that favored local products Third the transition to democracy between 1988 and 1993 marked by extreme scarcity and economic crisis witnessed the re introduction of market mechanisms mass advertising and imported goods Despite the erosion of food policy during transition the Nicaraguan revolution contributed to recognizing food security as a basic right and the rise of peasant movements for food sovereignty *Report on the Americas* ,1992 NACLA Report on the Americas ,1992 **Choice** ,1994
