Works for Works Book 1 Useless Beauty privileges an iterative generative and aleatory methodology for artistic scholarship with transmedia proposed as a tutelary form of editioning works against the dictates of the art academic complex This focus on generativity also invokes the dialectical operations historically associated with past avant gardes as they have negotiated an elective nihilism as an avenue for exiting established and authorized forms of conceptual and intellectual inquiry in the Arts and Humanities

had the unenviable reputation of being one of the world's most heavily landmined cities. The events witnessed by Moorhouse and Cheng as they worked alongside civilians, OCo victims of landmines, the malnourished and the displaced OCo provide a unique insight into life in this vast humanitarian citadel. Through the couple's eyes, the reader not only experiences something of the expected trauma of war but also gains a rich insight into the less expected ordinary life of both local residents and field volunteers.

John Ralston Saul Reimagines Canada (4-Book Bundle) John Ralston Saul, 2017-05-16

Canada has no greater interpreter and champion than John Ralston Saul, who for years has been challenging our common notions of Canada. These four books examine our history and myths, our relationships and modern reality, and together brilliantly portray a unique and remarkable country.

Reflections of a Siamese Twin In *Reflections of a Siamese Twin*, Saul turns his eye to an examination of Canada itself. Caught up in crises political, economic and social, Canada continues to flounder, unable to solve or even really identify its problems. Instead, we assert absolute differences between ourselves: we are English or we are French, Natives or Europeans, early immigrants or newly arrived from the east or from the west. Or we bow to ideologies and deny all differences in the name of nationalism, unity or equality. In a startling exercise in reorientation, John Ralston Saul makes sense of Canadian myths, real, false, denied, and reconciles them with the reality of today's politics, culture, and economics.

A Fair Country In this startlingly original vision of Canada, John Ralston Saul argues that Canada is a Matis nation, heavily influenced and shaped by Aboriginal ideas. Egalitarianism, a proper balance between individual and group, and a penchant for negotiation over violence are all Aboriginal values that Canada absorbed. An obstacle to our progress, Saul argues, is that Canada has an increasingly ineffective elite, a colonial, non-intellectual business elite that doesn't believe in Canada. It is critical that we recognize these aspects of the country in order to rethink its future.

The Comeback Historic moments are always uncomfortable. Saul writes in this impassioned argument, calling on all of us to embrace and support the comeback of Aboriginal peoples. This, he says, is the great issue of our time, the most important missing piece in the building of Canada. The events that began late in 2012 with the Idle No More movement were not just a rough patch in Aboriginal relations with the rest of Canada. What is happening between Aboriginals and non-Aboriginals is not about guilt or sympathy or failure or romanticization of the past. It is about citizens' rights. It is about rebuilding relationships that were central to the creation of Canada. These relationships are just as important to its continued existence. Wide in scope but piercing in detail, *The Comeback* presents a powerful portrait of modern Aboriginal life in Canada, illustrated by a remarkable selection of letters, speeches, and writings by Aboriginal leaders and thinkers, showcasing the extraordinarily rich, moving, and stable indigenous point of view across the centuries.

Louis Hippolyte LaFontaine and Robert Baldwin Here, Saul argues that modern Canada did not begin in 1867; rather, its foundation was laid years earlier by two visionary men, Louis Hippolyte LaFontaine and Robert Baldwin. Opposites in temperament and driven by intense experiences of love and tragedy, together they developed principles and programs that would help unite the country. After the 1841 union, the two leaders of Lower and

Upper Canada worked to create a reformist movement for responsible government run by elected citizens instead of a colonial governor During the Great Ministry of 1848 to 1851 despite violent opposition they set about creating a more equitable nation They revamped judicial institutions established a public education system made bilingualism official and designed a network of public roads Writing with verve and deep convictions Saul restores these two extraordinary Canadians to rightful prominence **Ambiguous Ambitions in the Meuse Theatre** Leo Santbergen,2013 [Nursing Ethics E-Book](#) Ian E.
