The Saints of Santa Ana Jonathan Calvillo,2020 Catholicism has long been the dominant religion among ethnic Mexicans in the U S Recent shifts however have challenged the traditional association between Mexican ethnicity and Catholicism Evangelical Protestantism has emerged as a notable alternative of ethnic identity expression for ethnic Mexicans This book takes readers into the thriving Mexican majority neighborhoods of Santa Ana California a city once dubbed the hardest place to live in the U S There Jonathan E Calvillo explores how religious practices permeate the fabric of everyday social interactions for Mexican immigrants How does faith shape these immigrants sense of ethnic identity To answer this question The Saints of Santa Ana compares the experiences of Catholic and Evangelical Mexican immigrants the two largest religious groupings in the city Drawing on five years of participant observation and in depth interviews this book argues that religious affiliations set Catholics and Evangelicals along diverging trajectories with regard to ethnic identity In particular Calvillo argues Catholics and Evangelicals have differing perspectives on collective memory and ethnic community The Saints of Santa Ana offers a rich portrait of a fascinating American community

Spying from Space David Christopher Arnold,2008-06-12 On August 14 1960 a revolution quietly occurred in the reconnaissance capabilities of America When the Air Force C 119 Flying Boxcar Pelican 9 caught a bucket returning from space with film from a satellite the American intelligence community gained access to previously denied information about the Soviet Union The Corona reconnaissance satellite missions that followed lifted the veil of secrecy from the communist bloc revealing among other things that no Missile Gap existed This revolution in military intelligence could not have occurred without the development of the command and control systems that made the Space Race possible In Spying from Space

David Christopher Arnold tells the story of how military officers and civilian contractors built the Air Force Satellite Control Facility AFSCF to support the National Reconnaissance Program The AFSCF also had a unique relationship with the National Reconnaissance Office a secret organization that the U S government officially concealed as late as the 1990s Like every large technology system the AFSCF evolved as a result of the interaction of human beings with technology and with each other Spying from Space fills a gap in space history by telling the story of the command and control systems that made rockets and satellites useful Those interested in space flight or intelligence efforts will benefit from this revealing look into a little known aspect of American achievement Those fascinated by how large complex organizations work will also find this an intriguing study of inter service rivalries and clashes between military and civilian cultures **Space Launch Complex 7**

from a mutinous crew sucked through a wormhole like in a bad sci fi movie and slowly running out of booze and that s just the beginning of this non traditional story that starts off as a simple captain s log book and evolves into something more like a really warped and twisted TV show in text Follow the Captain and crew on a series of seemingly random adventures where it s obvious it s not just the Captain who s been drinking At some point you may ask yourself is all this just coincidence or is there something dark and annoying on the horizon The Captain seems to have a drinking problem the problem being he never has enough to drink and people from his past keep showing up and ruining his buzz Akki a corrupted artificial intelligence who occasionally takes over the Captain s log has his own plans mostly self serving ones because he has nothing better to do The rest of the crew pirates hot chicks robots and a foul beaked little space penguin round out the Drunken Space Pirates and with all the wise cracks and shots aimed at everyone and everything its clear the alcohol flows rather freely within the D S P Many of the off the wall characters of the D S P are walking guilty pleasures who say what they feel do what they want and just generally give it to life pop culture and the universe in general with both barrels and occasionally fish
