*Letras Hispánicas: identidad y género.* Lilia Granillo Vázquez, Milagro Martín Clavijo, 2022-05-25 Nuestro punto de partida a la hora de lanzar este volumen era el de la necesidad de reflexionar desde la literatura y a partir de ella desde otros campos científicos como la filosofía la antropología la psicología la pedagogía la sociología la historia sobre la construcción de la identidad femenina La idea era la de presentar un panorama que con un hilo conductor común las letras hispanicas se mostrara con toda la variedad que le caracteriza una identidad femenina polidrica que parte fundamentalmente de la reflexión de las propias autoras sobre sí mismas y sobre las demás mujeres y por tanto más allá del prisma masculino que ha relatado mayoritariamente a la mujer Queramos constatar cómo fundamentalmente en el siglo XX y XXI aunque en el volumen contamos con algunos ejemplos de pocas anteriores escritoras desde ambos lados del Atlántico se van liberando de un relato hegemónico patriarcal limitado a pocos modelos femeninos para abrirse a una construcción de la identidad femenina mucho más dinámica y menos subordinada al hombre

**Mujer y género en las letras hispánicas** Rafael M. Mérida Jiménez, 2009 El libro se consagra a un doble ámbito de investigación los estudios sobre las mujeres y sobre los géneros sexuales Mujeres hombres feminidad masculinidad sexualidad y erotismo son algunos de los temas que aborda el monográfico a lo largo de sus catorce artículos y a través de obras de diferentes literaturas en lengua española desde la Edad Media hasta nuestro presente más inmediato

*Santa Teresa* Dr. Martina Bengert, Iris Roebeling-Grau, 2019-07-15 Even prior to her widely observed 500th anniversary Teresa of Ávila 1515-1582 was already considered one of the most important authors of occidental mysticism This volume gathers together contributions from a multitude of disciplines to explore the writings and reception of the Spanish author and saint Previously disregarded lines of tradition are explored for a new understanding of her oeuvre which is examined here with special regard to the potential to affect its readers Teresa proves to not only be an accomplished but also a very literary writer Santa Teresa proves to be a figure of cultural memory and the diffusion of her thinking is traced up to the present whereby a recurrent focus is put on the phenomenon of ecstasy Part of the widespread resonance of her work is the image of the iconic saint whose emergence as an international phenomenon is presented here for the first time The volume is closed by an interview with Marina Abramović answering four questions about Teresa

Bibliografía de la literatura hispánica José Simón Díaz,1983 Miracles and Wonders in the Middle Ages and Early Modern Period Albrecht Classen,2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid

understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women s miraculous conception are identified as deeply impactful for the pre modern world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people s mindsets power structures and the debate between medicine and religion These topics were also greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today
