Sutton,2020-06-03 How does the past matter in the present How is a feeling of ownership of the past expressed in people s everyday lives Should continuity with the distant past be seen as simply a nationalist fiction or is it transformed by local historical imagination While recent anthropological studies have focused on reconstructing disputed histories this book examines the multiple ways in which the past is used by people as a critical resource for interpreting the meanings of a changing present It poses the issue of the felt relevance of the past in constructing present day identities The Greek island of Kalymnos is a barren and seemingly bucolic setting of tourist imagination But its history has been one of almost continuous occupation by foreign powers and of often fierce resistance This has made Kalymnians particularly sensitive to seeing their island in a much wider context and to understanding the games played by the powerful In examining changing gender relations European integration and local perceptions of the war in the former Yugoslavia this book brings together local national and international perspectives in a unified field Controversial contemporary practices of dynamite throwing and dowry giving serve as tropes through which Kalymnians explore alternative ways of living in a changing world Further the author argues persuasively for the crucial importance of situated fieldwork in peripheral places in understanding the issues and conflicts of a transnational world This book serves as an highly readable case study of the complex connections between local and global discourses and practices and how they are shaped by their relationship to the past *Education and Identity in Rural France* Deborah Reed-Danahay,1996 Drawing on an ethnographic study of a remote farming community in the Auvergne Dr Reed Danahay challenges conventional views about the operation of the French school system She demonstrates how parents and children subvert and resist the ideological messages of the teachers and describes the ways in which a sense of local difference is sustained and valued through a complex interplay of schooling and family life This book explores the role played by history identity and power in local responses to a national institution A significant contribution to the anthropology of education this book offers fresh insights into the ways in which French culture is transmitted to the coming generation Dr Reed Danahay also provides lucid and critical discussions of sociological theories on education including those of Bourdieu *Social and Ecological History of the Pyrenees* Ismael Vaccaro,Oriol Beltran,2016-06-03 This major work of historical ecology advances the integration of research on environmental and social systems contributing important lessons for contemporary natural resource policy and management A diverse international region the Pyrenees has been characterized as a quintessential example of rural areas

across Europe and North America The authors use qualitative and quantitative methods from economics history anthropology and ecological science to integrate human agency and ecology across a landscape that moved from agricultural and pastoral production to industrialization then experienced acute depopulation and now is becoming a focus of conservation and tourism The book shows how today s most pressing resource policy challenges are best illuminated by this broad long term understanding of humans and landscapes
