

The image shows two overlapping book covers resting on a wooden surface. The covers feature a watercolor-style painting of a harbor scene. In the foreground, several sailboats with white sails are docked. The water is a deep blue, and a long pier extends into the distance. In the background, there are mountains under a sky with soft, yellowish clouds. The title 'Santa Barbara' is printed in a large, red, serif font across the middle of the covers. Below it, the subtitle 'Another Harbor Town History' is written in a smaller, red, sans-serif font. At the bottom, the author's name 'Gayle Baker, Ph.D.' is printed in a red, sans-serif font.

Kevin Starr, 1990-04-12 Kevin Starr is the foremost chronicler of the California dream and indeed one of the finest narrative historians writing today on any subject. The first two installments of his monumental cultural history *Americans and the California Dream* have been hailed as mature, well proportioned and marvelously diverse and diverting. The New York Times Book Review and rich in details and alive with interesting and sometimes incredible people. Los Angeles Times Now in *Material Dreams*, Starr turns to one of the most vibrant decades in the Golden State's history: the 1920s, when some two million Americans migrated to California, the vast majority settling in or around Los Angeles. In a lively and eminently readable narrative, Starr reveals how Los Angeles arose almost defiantly on a site lacking many of the advantages required for urban development, creating itself out of sheer will, the Great Gatsby of American cities. He describes how William Ellsworth Smyth, the Peter the Hermit of the Irrigation Crusade, the self-educated Irish engineer William Mulholland, who built the main aqueducts to Los Angeles, and George Chaffey, who diverted the Colorado River, transforming desert into the lush Imperial Valley, brought life-supporting water to the arid South. He examines the discovery of oil, the boosters and land developers, the evangelists such as Bob Shuler, the Methodist Savanarola of Los Angeles, and Aimee Semple McPherson, and countless other colorful figures of the period. There are also fascinating sections on the city's architecture, the impact of the automobile on city planning, the Hollywood film community, the L.A. literati, and much more. By the end of the decade, Los Angeles had tripled in population and become the fifth largest city in the nation. In *Material Dreams*, Starr captures this explosive growth in a narrative tour de force that combines wide-ranging scholarship with captivating prose.
