Trade in War Mariya Grinberg, 2025-08-15 Trade in War is an urgent insightful study of a puzzling wartime phenomenon states doing business with their enemies Trade between belligerents during wartime should not occur After all exchanged goods might help enemies secure the upper hand on the battlefield Yet as history shows states rarely choose either war or trade In fact they frequently engage in both at the same time To explain why states trade with their enemies Mariya Grinberg examines the wartime commercial policies of major powers during the Crimean War the two World Wars and several post 1989 wars She shows that in the face of two competing imperatives preventing an enemy from increasing its military capabilities and maintaining its own long term security through economic exchange states at war tailor wartime commercial policies around a product s characteristics and war expectations If a product s conversion time into military capabilities exceeds the war s expected length then trade in the product can occur since the product will not have time to affect battlefield outcomes If a state cannot afford to jeopardize the revenue provided by the traded product trade in it can also occur Grinberg s findings reveal that economic cooperation can thrive even in the most hostile of times and that interstate conflict might not be as easily deterred by high levels of economic interdependence as is commonly believed Trade in War compels us to recognize that economic ties between states may be insufficient to stave off war *Imperial Delusions* Carl Boggs, 2005 In this hard hitting critique Carl Boggs argues that the United States is dominated by a new militarism one that has become more potent and menacing since 9 11 He skillfully explores the origins and development of this new militarism and show its devastating effects on American society War Planning 1914 Richard F. Hamilton, Holger H. Herwig, 2009-11-30 The major European powers drafted war plans before 1914 and executed them in August 1914 none brought the expected victory by Christmas Why This tightly focused collection of essays by international experts in military history reassesses the war plans of 1914 in a broad diplomatic military and political setting for the first time in three decades The book analyzes the war plans of Austria Hungary France Germany Great Britain Italy and Russia on the basis of the latest research and explores their demise in the opening months of World War I Collectively and comparatively these essays place contingency war planning before 1914 in the different contexts and challenges each state faced as well as into a broad
