Nolan, 2006-04-30 The *Age of Wars of Religion* saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In

India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires

The Greatest Naval War Ever Fought Vincent O'Hara, 2025-10-14 The greatest naval conflict in history occurred during World War II from 1939 to 1945 Most people are familiar with the famous Battle of the Atlantic and epic naval engagements in the Pacific like Midway and Leyte Gulf all of which receive ample coverage in this panoramic work However author Vince O Hara offers a truly global perspective of World War II at sea that captures every aspect of a vast naval conflict that involved dozens of nations more than 15 000 ships and 43 7 million tons of shipping Approximately 570 000 lives were lost at sea in those six years Here the naval action begins in the Baltic Sea before dawn on September 1 1939 when a German battleship opened fire on Polish troops barricaded in a fortress in the port city of Danzig Poland Over the ensuing nine months the conflict spread into Great Britain s home waters of the North Sea the English Channel and the eastern Atlantic One of the most remarkable naval achievements of the war occurred in 1940 during the German invasion of Norway The Kriegsmarine s successful attack in the face of immensely superior Allied naval forces was the war s first large scale amphibious operation As naval activities in Europe expanded into the Mediterranean the war in the Pacific exploded with the Japanese attack on Pearl Harbor in December 1941 That assault led to a series of critical naval battles between Japan and the United States including Wake Island Coral Sea Midway and Guadalcanal O Hara not only deftly examines all the major naval contests in the European and Pacific theaters but also offers detailed analysis of secondary navies such as France Italy and the Soviet Union He explores little known smaller engagements such as the campaigns between Thailand and France or Per and Ecuador O Hara connects this broad range of naval action by focusing on recurring themes of technological innovation command and control logistics and intelligence He demonstrates that there was more than one path to winning sea power and that the most important naval platforms to emerge from the war were the oiler the Landing Ship Tank LST and the Liberty ship not the aircraft carrier the submarine or the battleship O Hara makes clear to readers that the impact of the naval battles won by the Allies still reverberates today

Edward Wilt, 2015-09-03 From 1937 through 1945 Hollywood produced over 1 000 films relating to the war This enormous and exhaustive reference work first analyzes the war films as sociopolitical documents Part one entitled The Crisis Abroad 1937 1941 focuses on movies that reflected America s increasing uneasiness Part two Waging War 1942 1945 reveals that many movies made from 1942 through 1945 included at least some allusion to World War II *The Encyclopedia of the Spanish-American and Philippine-American Wars* Spencer C. Tucker, 2009-05-20 A comprehensive overview of the wars that saw the United States emerge as a world power one that had immense implications for America especially in Latin America and Asia ABC CLIO acclaimed publisher of superior references on the United States at war revisits a pivotal moment in America s coming of age with *The Encyclopedia of the Spanish American and Philippine American Wars A Political Social and Military History* Again under the direction of renowned scholar Spencer Tucker the encyclopedia covers the conflict between the United States and Spain with a depth and breadth no other reference works can match The encyclopedia offers two complete volumes of alphabetically organized entries written by some of the world s foremost historians covering everything from the course of the wars to relevant economic social and cultural matters in the United States Spain and other nations Featuring a separate volume of primary source documents and a wealth of images and maps the encyclopedia portrays the day to day drama and lasting legacy of the war like never before guiding readers through a seminal event in America s transition from the Gilded Age to the Progressive Era **Anti-Submarine Warfare** David Owen, 2007-11-15 The submarine was undoubtedly the most potent purely naval weapon of the twentieth century In two world wars enemy underwater campaigns were very nearly successful in thwarting Allied hopes of victory indeed annihilation of Japanese shipping by US Navy submarines is an indicator of what might have been That the submarine was usually defeated is a hugely important story in naval history yet this is the first book to treat the subject as a whole in a readable and accessible manner It concerns individual heroism and devotion to duty but also ingenuity technical advances and originality of tactical thought What developed was an endless battle between forces above and below the surface where a successful innovation by one side eventually produces a counter measure by the other in a lethal struggle for supremacy Development was not a straight line wrong ideas and assumptions led to defeat and disaster *Knight's Penny Magazine* ,1836 **Reports from Committees** Great Britain.
