Design Anthropology Alison J. Clarke, 2017-11-16 Design Anthropology brings together leading international design theorists consultants and anthropologists to explore the changing object culture of the 21st century Decades ago product designers used basic market research to fine tune their designs for consumer success Today the design process has been radically transformed with the user center stage in the design process From design ethnography to culture probing innovative designers are employing anthropological methods to elicit the meanings rather than the mere form and function of objects This important volume provides a fascinating exploration of the issues facing the shapers of our increasingly complex material world The text features case studies and investigations covering a diverse range of academic disciplines From IKEA and anti design to erotic twenty first century needlework and online interior decoration the book positions itself at the intersections of design anthropology material culture architecture and sociology

On Pedagogical Spaces, Multiplicity and Linearities and Learning Michael Crowhurst, 2022-03-03 This book introduces a research method called auto teach er ing focused research a research process that aims to document understandings generated by and for the teacher when that teacher teaches or re teaches a course It demonstrates how this method is applied by the author researcher within the pedagogical space that is the teaching of a course one that has been taught numerous times by the author researcher over many years This book documents understandings about learning and teaching that have emerged within the pedagogical space that is the teaching of a course and the pedagogical space that is the writing of a book It explores the notion that pedagogical spaces are complex and that subjects navigate and are produced within them in a multiplicity of ways This book applies a research method that generates a knowledge product that research practitioners in a variety of settings might find useful to adopt or adapt

Modern Languages and Learning Strategies Michael Grenfell, Vee Harris, 2002-01-04 Every secondary school pupil studies modern foreign languages as part of the curriculum and some do so with considerably more success than others This book looks firstly at the ways in which languages can be taught and secondly at case studies that highlight the practical methods that will help teachers get the best results The case studies included show that the best learners are those who have developed learning strategies that help them succeed These learning strategies are examined through practical examples carried out in classrooms and advice is given about ways in

which teachers can ensure that all their pupils have the opportunity to develop these skills Lots of suggestions are made about the various activities teachers can carry out in order to make learning enjoyable and positive In some cases the results are shown to be very encouraging and any language teacher should be left with a feeling not only of renewed enthusiasm for their subject area but also a deeper understanding of how to enable learners to reach their full potential
