clemenza di Tito Steffen Lösel,2022-07-13 This book asks what theological messages theologically educated Catholics in late eighteenth century Prague might have perceived in Mozart s late opera seria *La clemenza di Tito* The book s thesis is two fold first that Catholics might have heard the opera s advocacy of enlightened absolutism as a celebration of a distinctly Catholic understanding of political governance and second that they might have found in the opera a metaphor for the relationship between a gracious God and humanity caught up in sin expressed as sexual concupiscence pride and lust for power The book develops its interpretation of the opera through narrative character analyses of the main protagonists an examination of their dramatic development and by paying attention to the biblical and theological associations they may have evoked in a Catholic audience The book is geared towards academic readers interested in opera theologians historians and

those who work at the intersection of theology and the arts It contributes to a better understanding of the theological implications of Mozart's operatic work **The MUSON Festival** MUSON (Organization : Nigeria).
