The Continuing Dialogue Brian Leslie Bishop, 2017-07-20 The I AM statements exclusive to the Fourth Gospel are seen as the attempt of the author s of that Gospel to present the nature and purpose of the earthly life of Jesus by engaging the imaginative faculty of the reader Succeeding generations of artists are considered as undertaking a similar task by engaging in an imaginative dialogue with the text There are five narratives that are peculiar to the Fourth Gospel The Wedding at Cana the Woman of Samaria the Woman Taken in Adultery the Raising of Lazarus and the Washing of Feet Five paintings based upon each narrative are considered in context These are taken from the early fourteenth century Duccio and Giotto to the twentieth and twenty first centuries Max Beckmann and the contemporary Icon writer Constantina Wood A sense of the loss experienced by the western church under the sanctions of the Protestant Reformation against visual imagery is conveyed This leads to a suggestion that a reassertion of the role of the aesthetics of Christian worship might be a unifying factor for a generation jaded by the pedantry that divides the Christian Church

Body-Poetics of the Virgin Mary Jane Petkovic, 2021-05-25 The Judeo Christian scriptures understand humans as being made in the image of God What exactly does this mean Basic agreement is that it means humans can only know and understand themselves in relation to God If however this God is pure uncreated spirit where does human embodiment fit in Is it an obstacle to understanding Or is it in some way instructive John Paul II comes down decisively in favor of the body s value and importance In his catechetical series widely known as the Theology of the Body John Paul II analyzes what is distinctive about human beings He undertakes a reading of the body This book reflects on John Paul II s interpretation extending his findings to the Virgin Mary Her specifically female maternal body is seen to offer insights into how the body images God in how it speaks The transformations of the female body parallel the transformations of language in poetry The reconfigurations and accommodations of the gestational body are this book suggests poetic incarnations of God likeness Body Poetics of the Virgin Mary offers a Mariological slant on theological anthropology and a new way to think of how humans poetically image God

A Short History of the New Testament Halvor Moxnes, 2014-10-10 Few

documents in world history can match the inspirational impact of the New Testament For all its variety gospels letters and visions this first century collection of texts keeps always at its centre the enigmatic figure of Joshua Jesus the Jewish prophet who gathered a group around him proclaimed the imminent end of the world but was made captive by the authorities of Rome only to suffer a shameful criminal s death on a cross When his followers including former persecutor Saul Paul became convinced that Jesus had defeated extinction and had risen again to fresh life the movement crossed over from Palestine to ignite the entire Graeco Roman Mediterranean world The author shows how the writings of this vibrant new faith came into being from oral transmission and then became the pillar of a great world religion He explores their many varied usages in music liturgy art language and literature In discussing its textual origins as well as its later reception Moxnes shows above all how the New Testament has been employed both as a tool for liberation and as a means of power and control *T&T Clark Handbook of Theology and the Arts* Stephen M. Garrett, Imogen Adkins, 2025-04-24 This volume presents the theology arts conversation from a distinctly Christian perspective as a witness of the Gospel of Christ to the world A widespread interest in the historical socio cultural and political embeddedness of theology and the arts permeates it This theme of embeddedness tracks through several overarching and interlocking concerns the relationship between form and content in both art and theology the intensification of the metaphysical and the theological contra materialist and positivist reductionisms the expansion of the epistemological possibilities of the theology art conversation and a robust understanding of the world as the theatre of God s glory Several chapters have been co written by theologians and artists as part of demonstrating the kind of conversation that this book commends A thorough going commitment to Scripture is also woven into the many different habits of thought represented in this volume Part I surveys different approaches to the theology arts conversation Part II focuses on how particular art forms bring theological issues to the surface and how theological and denominational traditions shape the making and receiving of the arts Part III delves into key topics in the current theology arts scene and asks how artistic and theological performance can both speak to theological and artistic knowing and help to celebrate and interrogate embodied lived reality **Art as Biblical Commentary** J. Cheryl Exum, 2019-05-23 Art as Biblical Commentary is not just about biblical art but more importantly about biblical exegesis and the contributions visual criticism as an exegetical tool can make to biblical exegesis and commentary Using a range of texts and numerous images J Cheryl Exum asks what works of art can teach us about the biblical text Visual criticism is her term for an approach that addresses this question by focusing on the narrativity of images reading them as if like texts they have a story to tell and asking what light an image s story can shed on the biblical narrator s story In Part I Exum elaborates on her approach and offers a personal testimony to the value of visual criticism Part 2 examines in detail the story of Hagar in Genesis 16 and 21 Part 3 contains chapters on erotic looking and voyeuristic gazing in the stories of Bathsheba Susanna Joseph and Potiphar s wife and the Song of Songs on the distribution of renown among Jael Deborah and Barak on the Bible s notorious women Eve and

Gospel as Work of Art David Brown, 2024-03-07 A lushly illustrated magisterial exploration of the imaginative truth of the gospel In the modern academy truth and imagination are thought to be mutually exclusive But what if truth can spring from other fonts like art literature and invention The legacy of the Enlightenment favors historical and empirical inquiry above all other methods for searching for truth But this assumption constrains our theological explorations Though the historicity of Jesus's life death and resurrection is important it is not the only thing that matters For instance is John's Gospel any less true than the Synoptics just because it's less historically accurate David Brown challenges us to expand our understanding of the gospel past source criticism and historical Jesus studies to include works of imagination Reading Scripture in tandem with works of art throughout the centuries Brown reenvision the gospel as an open text Scholars of theology and biblical studies freed from literalism will find new avenues of revelation in *Gospel as Work of Art* This volume includes over one hundred color illustrations

The Routledge Companion to Theism Charles Taliaferro, Victoria S. Harrison, Stewart Goetz, 2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God This has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over theism While scholars with as diverse interests as Daniel Dennett Terry Eagleton Richard Dawkins Jürgen Habermas and Rowan Williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume *The Routledge Companion to Theism* addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences social sciences and humanities and to its wider cultural contexts The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy Rather *The Routledge Companion to Theism* investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction The five parts of the volume indicate its inclusive scope I What is Theism II Theism and Inquiry III Theism and the Socio Political Realm IV Theism and Culture V Theism as a Way of Life The result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that's much discussed but frequently misunderstood As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology *The Routledge Companion to Theism* promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars

Mary Magdalene, Iconographic Studies from the Middle Ages to the Baroque Michelle Erhardt, Amy Morris, 2012-11-21 Examines the iconographic inventions in Magdalene imagery and the contextual

factors that shaped her representation in visual art from the fourteenth to the seventeenth centuries *Visual Faith* William A. Dyrness, 2001-11 An intriguing substantive look into the relationship between the church and the world of art

Re-Imagining Mary Mariann Burke, 2009 Artists plumb the depths of soul which Jung calls the collective unconscious the inheritance of our ancestors psychic responses to life's drama In this sense the artist is priest mediating between us and God The artist introduces us to ourselves by inviting us into the world of image We may enter this world to contemplate briefly or at length Some paintings invite us back over and over again and we return never tiring of them It is especially these that lead us to the Great Mystery beyond image *Re-Imagining Mary: A Journey through Art to the Feminine Self* is about meeting the Cosmic Mary in image and imagination the many facets of the Mary image that mirror both outer reality and inner feminine soul Jungian analyst Mariann Burke offers personal reflections and suggests symbolic meanings in works by several artists including Fra Angelico Albrecht Durer Henry Ossawa Tanner Nicolas Poussin Parmigianino Duccio di Buoninsegna Salvador Dali Andy Warhol and Frederick Franck Aspects of Mary explored include Mary not only as Mother of God a title from the Judeo-Christian tradition but as Mother God a title reaching back to an ancient longing for a Female Divinity In western Christianity this Mary bears the titles and the qualities worshipped for thousands of years in the Female images of God and Goddess These titles include Mary as Sorrowful One and as Primordial Mother Recovering Mary both as light and dark Madonna plays a crucial role in humanity's search for a divinity who reflects soul Also discussed is Mary as the sheltering Great Mother that Piero della Francesca suggests in the *Madonna del Parto* and *Mater Misericordia* Frederick Franck's *The Original Face* and the Medieval *Vierge Ouvrante* also suggest this motif of Mary as Protector of the mystery of our common Origin Franck's inspiration for his sculpture of Mary was the Buddhist koan What is your original face before you were born What is spirituality What does it mean to grow spiritually and psychologically closer to the Feminine Self How can we begin to see the outer image as a manifestation a projection of the psyche Can we be challenged by being betwixt and between a male dominated Church without a recognized female divinity where God is generally imagined external to the soul and a more feminine depth psychological approach to the Marian mystery and to the Feminine Self Will we answer the call of the mystic within us If so how will we be changed *The Cross and Creation in Liturgy and Art* Christopher Irvine, 2013-06-20 Explore the intersection of art movements and spirituality in this insightful book linking the crucifixion creation and our commitment to environmental stewardship The book gives an account of various movements in art and their relation to the visual and in churches and in liturgy for example the Franciscan movement different approaches to the crucifixion and the restoration of creation It recovers the links between the cross and creation and relates the baptismal covenant to a commitment to care for creation **Belief in Media** Mary E. Hess, 2020-07-24 Most works on media developments and Christianity approach the subject from the perspective of the implications of new media technologies for traditional Christian practices or how churches can use new media to further their goals The common framework of analysis is a given reality of

traditional institutional Christianity and how it interacts with affects and is affected by media Media are treated as a separate cultural reality This book presents in an accessible form the new directions that approach the interaction of media and religion from a cultural perspective and illustrates these new directions by a number of international and intercultural case studies and explorations Looking at how global media are constructing cultural forms structures and processes the authors show how these have become the life out of which individual and social meaning is created and practised Examining how individuals create religious meaning by interacting with media of various kinds crossing boundaries of traditional religious cultures and contemporary media cultures this book reveals how Christian institutions are also defined in the process of living culturally within their broader media context *Divine Generosity and Human Creativity* David Brown, 2017-02-22

Partly in a desire to defend divine freedom and partly because it is seen as the only way of preserving a distinctive voice for theology much contemporary theology has artificially restricted revelation and religious experience effectively cutting off those who find God beyond the walls of the Church Against this tendency David Brown argues for divine generosity and a broader vision of reality that sees God deploying symbols literary visual and sacramental as a means of mediating between the divine world and our own material existence A sustained argument for divine interaction and more specifically the ways in which God speaks in the wider imaginative world this volume calls for a careful listening exercise since symbols are richer and more open in their possibilities than their users often suppose Not only is this true of the imagery of Scripture even inanimate objects like buildings or hostile but creative artists can have important things to say to the believing Christian An ideal introduction that also moves the conversation forward this volume addresses foundations the multivalent power of symbols artists as theologians and meaning in religious architecture
