Paper Doctors A Critical Assessment Of Medical Research:

Paper Doctors Vernon Coleman, 2023-01-23 When first published in 1977 this book caused a storm for Dr Vernon Coleman suggested that most medical research should be stopped And he explained why in precise detail The book was well received by reviewers For example the Daily Express said Required reading for any Minister of Health and Nursing Times said I hope this book becomes a bestseller among doctors nurses and the wider public who after all have to pay for the research The Guardian said If you believe Dr Vernon Coleman the main beneficiaries of the hundred million pounds worth of medical research done in this country the UK each year are certainly not the patients

The Doctor's Guide to Critical Appraisal Narinder Kaur Gosall, 2009 Offers a range of sample comparative journal extracts enabling Foundation Year doctors and MRCPG and MRCPsych candidates to practise their critical appraisal skills This title includes extracts that cover the whole spectrum of critical appraisal together with exercises for the reader to work through independently to improve their technique

Medical Science: Implications for the Health Care Industry and the Public (1981-2001) James R. Gay, Barbara J. Sax Jacobs, 2012-12-06 The second annual Frank M Norfleet Forum for the Advancement of Health was convened November 30 December 1 and 2 1981 at The University of Tennessee Center for the Health Sciences Memphis Tennessee The Norfleet Forum is a continuing series of discussions on issues related to national health policy and organization of health care at all levels Application of the competitive model for containing costs and assuring high quality of medical care 1980 Forum is jeopardized in part by rapid introduction of expensive medical technology Decision makers in business and industry government and health care provider groups recognize the benefits of high technology and are reluctant to impose controls that might reduce the effective level of scientific creativity And yet some technologies are rushed into routine use before their efficacy and safety are assured and without measuring the benefits to be achieved against the harsh reality of cost In this volume 11 of the world's experts on technology issues summarize current ideas for understanding and coping with the technological imperative of the 1980s James R Gay M D *Biomedical Ethics* Olinda Timms, 2019-08-02 Each chapter focuses on a single area in a simple narrative Illustrative case reports and case studies of ethical dilemmas are provided with points for reflection discussion In step with the curriculum in Medical Ethics already established in several medical colleges The chapters can be used to develop modules in a medical ethics program Additional resources titles of relevant films readings and references are provided The chapters have been linked to the AETCOM modules for easy reference providing content for teaching modules This book provides the resource to create teaching modules in medical ethics In this way the book compliments the AETCOM modules and can be used to develop teaching learning sessions [Compendium of HHS Evaluations and Relevant Other Studies](#) HHS Policy Information Center (U.S.), 1990 [Compendium of HHS Evaluations and Relevant Other Studies](#), 1990 [Global Health and Volunteering Beyond Borders](#) Mildred M.G. Olivier, Clarisse C. Croteau-Chonka, 2019-06-28 Global Health and Volunteering A Guide for Healthcare Professionals is designed to educate volunteers to be effective partners in delivering medical services locally and globally Healthcare professionals are increasingly interested in global health and volunteering in areas of acute need The biggest challenge to health in many locales is the inability to access the health care system When people do connect with medical services medications and surgical opportunities for chronic disease i e glaucoma diabetes or hypertension are often not affordable or cannot be sustained for a long period of time The contributions in this book focus on a respectful dialog with local people and a willingness to learn from new experiences on the part of the volunteer Skills transfer from visiting personnel to local providers is featured as a means to enhance healthcare sustainability An appreciation of differing cultures an understanding of the local economic conditions and challenges and strategies for collaborating with the existing medical establishment are foundations of successful volunteer experiences as highlighted in this book Dimensions of global health such as professionalism religious beliefs ethical dilemmas traditional medicine and alternative strategies for service are addressed by
