Primal Scenes Literature Philosophy Psychoanalysis:

Primal Scenes Ned Lukacher, 1986 *Primal Scenes* is concerned with those elements in the thought of Freud and Heidegger which make us continue to regard them as our contemporaries. It seeks to reassert their radical potential which the author believes has been minimized as critics celebrate the radicality of Lacan, Derrida and others. *Freud's Literary Culture* Graham Frankland, 2000-06-05 This original study investigates the role played by literature in Sigmund Freud's creation and development of psychoanalysis. Graham Frankland analyses the whole range of Freud's own texts from a literary critical perspective, providing a comprehensive reappraisal of his life's work. Freud was steeped in classical European literature but seems initially to have repressed all literary influences on his scientific work. Frankland traces their re-emergence, examining in detail Freud's many literary allusions and quotations as well as the rhetoric and imagery of his writing. He explores Freud's own attempts at analysing literature, the influence of literary criticism on his approach to analysing patients, and his creation of psychoanalytical novels, quasi-literary fictions fraught with profoundly personal subtexts. *Freud's Literary Culture* sheds new light on a multi-faceted, contradictory writer who continues to have an unparalleled impact on our postmodern culture precisely because he was so deeply rooted in European literary tradition.

Toni Morrison's Fiction David L. Middleton, 2016-01-28 This collection of contemporary criticism explores her concern with racial and gender issues and analyzes her in relation to other major modern authors, her philosophical and religious speculations, and her preoccupation with the process of fiction making. These classics provide a broad look at critical argument about Toni Morrison's meanings and significance during the past 10 years. From the formative effects of learning one's Otherness as a result of majority perception to the apocalyptic implications of racial memory to the moral and psychologically constructive act of storytelling to the structural function served by improvisational jazz music to the imagery associated with both flight and naming to the uniquely female experience of community, major issues raised by Morrison's body of work are explicated here. Derrida Reads Shakespeare Chiara Alfano, 2020-02-14 Explores Jacques Derrida's distinctive approach to Shakespeare. Offers the first comprehensive and accessible account and discussion of Derrida's engagement with Shakespeare. Challenges the way we have traditionally come to think about the interdisciplinary relationship between literature and philosophy as well as literary genius. Contextualises Derrida's readings of Shakespeare within his wider philosophical project and discusses in how far they relate to or are distinct from his engagement with other dramatic or literary works. This book brings to light Derrida's rich and thought-provoking discussions of Shakespearean drama. Contextualising Derrida's readings of Shakespeare's *Romeo and Juliet*, *Hamlet*, *The Merchant of Venice* and *King Lear* within his wider philosophical project, Alfano explores what draws Derrida to Shakespeare and what makes him particularly suitable for philosophical thought. The author also makes the case for Derrida's singular understanding of the relationship between philosophy and Shakespeare and his radical idea of what literary genius is. **Representing Black Men** Marcellus

The Sexual Politics of Time Susannah Radstone, 2007-12-03 Looking at a diverse range of texts including Marilyn French's *The Women's Room* Philip Roth's *Patrimony* the writings of Walter Benjamin and Fredric Jameson and films such as *Cinema Paradiso* Susannah Radstone argues that though time has been foregrounded in theories of postmodernism those theories have ignored the question of time and sexual difference *The Sexual Politics of Time* proposes that the contemporary western world has witnessed a shift from the age of confession to the era of memory In a series of chapters on confession nostalgia the memories of boyhood film and the memoir Susannah Radstone sets out to complicate this claim Developing her argument through psychoanalytic theory she proposes that an attention to time and sexual difference raises questions not only about the analysis and characterization of texts but also about how cultural epochs are mapped through time *The Sexual Politics of Time* will be of interest to students and researchers of time memory difference and cultural change in subjects such as Media and Cultural Studies Sociology Film Studies

Historical Review **The Freudian Reading** Lis Møller, Lis Møller, 2016-11-11 Selected by Choice magazine as an Outstanding Academic Title In *The Freudian Reading* Lis Møller examines the premises, procedures and objectives of psychoanalytic reading in order to question the kind of knowledge such readings produce. But above all she questions the role of Freud as master explicator. Although Freud has been seen as a great synthesizer, Møller contends that his significance as a reader lies elsewhere. For Møller, this significance lies in the way Freud presses his inquiry to the point where he encounters something he cannot explain or that he can only explain at the risk of overthrowing previous conclusions. Such moments of crisis occur repeatedly in Freud's work, causing him to swerve from his original train of thought or even to call into question the theoretical foundation of his interpretation. The dominant line of argument therefore is frequently punctuated with problems and questions. If we concentrate on these, Møller argues, we are forced to reconsider the traditional conception of a Freudian reading and to reassess our perceived notions of just what kind of reader Freud was. While *The Freudian Reading* is based on a wide range of Freud's writings, it concentrates on four central texts: *Delusions and Dreams in Jensen's Gradiva*, *From the History of an Infantile Neurosis*, *The Uncanny* and *Constructions in Analysis*. The discussion does not progress chronologically. Rather, it explores the ways in which these texts interact, how they reflect, comment on and contradict one another. *The Freudian Reading* is a concentrated, subtle analysis of Freud's interpretive practice, with special reference to his interpretations of literary texts. It will be of interest to scholars and students of literary theory and criticism as well as to readers in the field of psychoanalysis.
