Primary Suspect:

Immaculate Deception Leighton Rockafellow, 2009-12 Attorney Larry Ross has made a name for himself by getting a not guilty verdict in an impossible first degree murder case and driving a major automobile manufacturer to its knees in the process. On the heels of his success, Larry and his new partner Bill Wilson find themselves embroiled in cases filled with mystery, intrigue, conflict, and deceit. Larry is working on a huge claim against another auto manufacturer. Matters grow complicated when his expert witness is murdered and a string of similar murders across the county is discovered. Lead homicide detective Greg Kelly is charged with the task of finding the killer and bringing the masterminds to justice. Meanwhile, Bill takes on the sheriff of Pima County in a case that can't be won. Bill must prevail in the Supreme Court of Arizona before he can even go to trial. Can Bill and Larry overcome insurmountable odds to ensure that their grieving clients receive justice? *Explosives Incidents Report*, 1988 *Fatal Deceptions* Joe Sharkey, 2017-07-11 This collection by a New York Times journalist gathers three horrifying true accounts of crimes of passion, ambition, and fear. Author Joe Sharkey delivers three gripping accounts of betrayal and murder in this compelling American true crime collection. *Above Suspicion* Soon to be a major motion picture starring Emilia Clarke and Jack Huston, this true account tells the story of the only FBI agent to confess to murder. Assigned to Pikeville, Kentucky, rookie Mike Putnam cultivated paid informants and busted drug rings and bank robbers. But when one informant fell in love with the bureau's rising star, their passionate affair ended with murder. *Deadly Greed* On October 23, 1989, Charles Stuart reported that he and his seven-months pregnant wife Carol had been robbed and shot by a black male. By the time police arrived, Carol was dead, and soon the baby was lost as well. Stuart then identified a suspect, Willie Bennett. The attack incited a furor during a time of heightened racial tension in the community. But even more appalling, Stuart's story was a hoax; he was the true killer. *Death Sentence* John List was working as the vice president of a Jersey City bank and had moved his mother, wife, and three teenage children into a nineteen-room mansion in Westfield, New Jersey, when he lost his job and everything changed. Fearing financial ruin and the corruption of his children's souls by the free-spirited 1970s, he came up with a terrifying solution: He would shoot his entire family and vanish, taking on a new life and a new identity. *Clustering: Challenges in Biological Networks* Sergiy Butenko, 2009 This text offers introductory knowledge of a wide range of clustering and other quantitative techniques used to solve biological problems.

Cold Cases James M. Adcock, Sarah L. Stein, 2017-05-22 Nearly 185,000 homicides since 1980 remain unsolved, yet with limited staff and resources, it is no surprise that law enforcement units place the bulk of their efforts on current cases where victims' family members and the media demand answers. *Cold Cases: An Evaluation Model with Follow-up Strategies for Investigators* provides a comprehensive roadmap for digging those cold cases out of the file room and getting them resolved. Practical and concise, the book is an invaluable tool for police officers and detectives attempting to solve crimes that would otherwise be forgotten. *Evaluating the Case* Divided into three sections, the book begins with a historical perspective on how

cases get to the point where it appears all investigative leads have been exhausted It includes a chapter on understanding the process of homicide and those who kill critical information for the homicide investigator Next the authors explain the evaluation model They demonstrate the key elements of organization thoroughness and the value of the scientific method This section validates theories of the crime raises evidentiary issues and concerns addresses the informational and behavioral aspects relative to the crime and the participants in the crime and documents investigative strategies for future efforts on the case Investigating and Solving the Crime The third section discusses the investigation that follows the evaluation The book considers questions investigators must ask including what should be looked at beyond the case file itself and how the growth in technology since the date of the incident might provide new opportunities to uncover clues This section also explores the choice of interview interrogation techniques based on the behavioral aspects involved Finally the authors suggest how investigators can maximize their efforts and obtain not just an arrest but a conviction Useful appendices include sample standard operating procedures from three different agencies to use as a guide for setting up a cold case unit and a list of additional resources a department may look to for assistance By following the cold cases evaluation model in this volume those charged with resolving long forgotten crimes can increase their chance of an accurate resolution or at least be able to say that everything that can be done has been done

Following the Gun ,2000 *Criminal Investigative Failures* D. Kim Rossmo,2008-12-15 Avoid Major Investigative Traps What causes competent and dedicated investigators to make avoidable mistakes jeopardizing the successful resolution of their cases Authored by a 21 year police veteran and university research professor Criminal Investigative Failures comprehensively defines and discusses the causes and problems most common to fail
