Privatization and Its Limits in Central and Eastern Europe Hella Engerer, 2001 *Privatisation and Its Limits in Central and Eastern Europe* H. Engerer, 2001-06-18 Hella Engerer analyses the emergence evolution and theory of property rights and establishes the limits for privatization of state owned enterprises in the transitional economies of Eastern Europe She counters the assumption that reduction of the state sector helps to create the basis for a private property system showing that privatization actually presupposes a stable framework including property order She makes use of an outstanding methodological approach reaching well beyond the limits of pure economic observation This is a major contribution to the understanding of the emerging economic order of Central and Eastern Europe **The Transformation of Property Regimes and Transitional Justice in Central Eastern Europe** Liviu Damşa, 2017-01-03 This volume examines the property transformations in post communist Central Eastern Europe CEE and focuses on the role of restitution and privatisation in such transformations It argues that the theorisation of restitution in post communist CEE is incomplete in the transitional justice scholarship and in the literature on correction of historical wrongs The book also argues that for a more complete theorisation of post communist restitution the transformations of property in post communist societies ought to be studied in a more holistic way The main legal vehicles used for such transformations privatisation and restitution should not be studied separately and in abstract but in their reciprocal relationship and in connection to the dimension of justice which each could achieve Finally the book integrates privatisation in a theory of post communist transformation of property *The Technological Role of Inward Foreign Direct Investment in Central East Europe* J. Trappman, Vera Trappmann, 2013-05-07 Through the prism of Nowa Huta a landmark of socialist industrialization Trappmann challenges the one sided account of Poland as a successful transition case and reveals the ambivalent role of the European Union in economic restructuring An exemplary suggestive case of multi level analysis research **Divergent Paths in Post-Communist Transformation** O.
