**Solitary Confinement** Lisa Guenther, 2013-08-01 Prolonged solitary confinement has become a widespread and standard practice in U S prisons even though it consistently drives healthy prisoners insane makes the mentally ill sicker and according to the testimony of prisoners threatens to reduce life to a living death In this profoundly

important and original book Lisa Guenther examines the death in life experience of solitary confinement in America from the early nineteenth century to today's supermax prisons Documenting how solitary confinement undermines prisoners' sense of identity and their ability to understand the world Guenther demonstrates the real effects of forcibly isolating a person for weeks months or years Drawing on the testimony of prisoners and the work of philosophers and social activists from Edmund Husserl and Maurice Merleau-Ponty to Frantz Fanon and Angela Davis the author defines solitary confinement as a kind of social death It argues that isolation exposes the relational structure of being by showing what happens when that structure is abused when prisoners are deprived of the concrete relations with others on which our existence as sense-making creatures depends Solitary confinement is beyond a form of racial or political violence it is an assault on being A searing and unforgettable indictment Solitary Confinement reveals what the devastation wrought by the torture of solitary confinement tells us about what it means to be human and why humanity is so often destroyed when we separate prisoners from all other people

*Freedom* Eric Leif Davin, 2012-07-10 This book explores the relation between democracy and industrialization in United States history Over the course of the 1930s the political center almost disappeared as the Democratic New Deal became the litmus test of class with blue collar workers providing its bedrock of support while white collar workers and those in the upper income levels opposed it By 1948 the class cleavage in American politics was as pronounced as in many of the Western European countries such as France Italy Germany or Britain with which we usually associate class politics Working people created a new America in the 1930s and 1940s which was a fundamental departure from the feudalistic and hierarchical America that existed before They won the political rights of American citizenship which had been previously denied them They democratized labor capital relations and gained more economic security than they had ever known They obtained more economic opportunity for them and their children than they had ever known and they created a respect for ethnic workers which had not previously existed In the process class politics re defined the political agenda of America as for the first time in American history the political universe polarized along class lines Eric Leif Davin explores the meaning of the New Deal political mobilization by ordinary people by examining the changes it brought to the local county and state levels in Pittsburgh Allegheny County and Pennsylvania as a whole
