Miller, 2012-08-02 Although considered a

relatively new genre the mockumentary has existed nearly as long as filmmaking itself and has become one of the most common forms of film and television comedy today In order to better understand the larger cultural truths artfully woven into their deception these works demonstrate just how tenuous and problematic our collective understandings of our social worlds can be In *Too Bold for the Box Office* The Mockumentary from Big Screen to Small Cynthia J Miller has assembled essays by scholars and filmmakers who examine this unique cinematic form Individually each of these essays looks at a given instance of mockumentary parody and subversion examining the ways in which each calls into question our assumptions pleasures beliefs and even our senses Writing about national film television and new media traditions as diverse as their backgrounds this volume s contributors explore and theorize the workings of mockumentaries as well as the strategies and motivations of the writers and filmmakers who brought them into being Reflections by filmmakers Kevin Brownlow It Happened Here Christopher Hansen The Proper Care and Feeding of An American Messiah and Spencer Schaffner The Urban Literacy Manifesto add valued perspective and significantly deepen the discussions found in the volume s other contributions This collection of essays on films television programming and new media illustrates common threads running across cultures and eras and attempts to answer sweeping existential questions about the nature of social life and the human condition

Modernity Britain David Kynaston, 2014-12-02 This edition collects both volumes of *Modernity Britain* for the first time Following *Austerity Britain* and *Family Britain* the third volume in David Kynaston s landmark social history of post war Britain Triumphant A historian of peerless sensitivity and curiosity about the lives of individuals Financial Times This superb history captures the birth pangs of modern Britain It is a part of Kynaston s huge achievement that such moments of insight and pleasure should accompany what has become a monumental history of our recent past The Times

David Kynaston s history of post war Britain has so far taken us from the radically reforming Labour governments of the late 1940s in *Austerity Britain* and through the growing prosperity of *Family Britain* s more placid 1950s

Now Modernity Britain 1957 62 sees the coming of a new Zeitgeist as Kynaston gets up close to a turbulent era in which the speed of social change accelerated The late 1950s to early 1960s was an action packed often dramatic time in which the contours of modern Britain began to take shape These were the never had it so good years when the Carry On film series got going and films like Room at the Top and the first soaps like Coronation Street and Z Cars brought the working class to the centre of the national frame when CND galvanised the progressive middle class when youth emerged as a cultural force when the Notting Hill riots made race and immigration an inescapable reality and when meritocracy became the buzz word of the day In this period the traditional norms of morality were perceived as under serious threat Lady Chatterley s Lover freely on sale after the famous case and traditional working class culture was changing wakes weeks in decline the end of the maximum wage for footballers The greatest change though concerned urban redevelopment city centres were being yanked into the age of the motor car slum clearance was intensified and the skyline became studded with brutalist high rise blocks Some of this transformation was necessary but too much would destroy communities and leave a harsh fateful legacy This profoundly important story of the transformation of Britain as it arrived at the brink of a new world is brilliantly told through diaries letters newspapers and a rich haul of other sources and published in one magnificent paperback volume for the first time

Network Nations Michele Hilmes,2012-05-23 In Network Nations Michele Hilmes reveals and re conceptualizes the roots of media globalization through a historical look at the productive transnational cultural relationship between British and American broadcasting Though frequently painted as opposites the British public service tradition contrasting with the American commercial system in fact they represent two sides of the same coin Neither could have developed without the constant presence of the other in terms not only of industry and policy but of aesthetics culture and creativity despite a long history of oppositional rhetoric Based on primary research in British and American archives Network Nations argues for a new transnational approach to media history looking across the traditional national boundaries within which media is studied to encourage an awareness that media globalization has a long and fruitful history Placing media history in the framework of theories of nationalism and national identity Hilmes examines critical episodes of transnational interaction between the US and Britain from radio s amateurs to the relationship between early network heads from the development of radio features and drama to television spy shows and miniseries as each other s largest suppliers of programming and as competitors on the world stage and as a network of creative business and personal relationships that has rarely been examined but that shapes television around the world As the global circuits of television grow and as global regions particularly Europe attempt to define a common culture the historical role played by the British US media dialogue takes on new significance [The British Cinema Book](#)
