**The Ghost Forest** Greg King,2023-06-06 The definitive story of the California redwoods their discovery and their exploitation as told by an activist who fought to protect their existence against those determined to cut them down Every year millions of tourists from around the world visit California s famous redwoods Yet few who strain their necks to glimpse the tops of the world s tallest trees understand how unlikely it is that these last isolated groves of giant trees still stand at all In this gripping historical memoir journalist and famed redwood activist Greg King examines how investors and a growing U S economy drove the timber industry to cut down all but 4 percent of the original two million acre redwood ecosystem King first examined redwood logging in the 1980s as an award winning reporter What he found in the woods convinced him to leap the line of neutrality and become an activist dedicated to saving the very last ancient redwood groves remaining in private hands The land grab began in 1849 when a green gold rush of migrants came to exploit the legendary redwoods that grew along the Russian River Several generations later in 1987 Greg King discovered and named Headwaters Forest at 3 000 acres the largest ancient redwood habitat remaining outside of parks and he led the movement to save this grove After a decade of one of the longest most dramatic and violent environmental campaigns in US history in 1999 the state and federal governments protected Headwaters Forest The Ghost Forest explores a central question an overhanging mystery What was it like this botanical Elysium that grew only along the Northern California coast a forest so spectacular but also uniquely valuable as a cornerstone of American economic growth that in the end it would inspire life and death struggles Few but loggers and surveyors ever saw such magnificent trees ancient sentinels that like ghosts have informed King s understanding of the world On a lifelong journey King finds himself through the generations and through the trees A Next Big Idea Club Must Read Title *Listening to the Land* Derrick Jensen,2004-03-01 In this far ranging and heartening collection Derrick Jensen gathers conversations with environmentalists theologians Native Americans psychologists and feminists engaging some of our best minds in an exploration of more peaceful ways to live on Earth Included here is Dave Foreman on biodiversity Matthew Fox on Christianity and nature Jerry Mander on technology and Terry Tempest Williams on an erotic connection to the land With intelligence and compassion *Listening to the Land* moves from a look at the condition of the environment and the health of our spirit to a beautiful evocation of eros and a life based on love **Anthropology and Contemporary Human Problems** John H. Bodley,2012-04-12 We live in a time of global mega problems of unsustainable growth and consumption resource depletion ecosystem degradation global warming escalating energy costs poverty and

conflict Cultural anthropologist John H Bodley trenchantly critiques these most pressing issues and shows how anthropology makes it possible to find solutions The focus on culture scale suggests that many solutions may be found by developing local communities supported by regional markets and ecosystems rather than by making the continuous accumulation of financial capital the dominant cultural process throughout the world Now in its sixth edition this classic textbook continues to have tremendous relevance and is more timely than ever in light of the recent global economic crisis It exposes readers to the problems of a world out of balance with misdirected growth by the elite Bodley offers examples from prehistoric and modern tribal societies along side of ancient imperial and contemporary commercial societies Students will find this to be the trusted source to build a world view Anthropology and Contemporary Human Problems is ideal for adoption in anthropology and sociology courses on globalization cultural ecology social class and inequality the environment sustainability and development

Faraway Ranch Special History Study, Chiricahua National Monument Elizabeth Wegman-French, 2006 The history of Faraway Ranch and the Erickson Riggs family is a rich and complex story However if viewed simplistically as we often have the Faraway Ranch story is one more tale of Western settlement Two Swedish immigrants one a soldier and the other an officer's family servant meet at a frontier military post fall in love and decide to homestead along the banks of Bonita Creek in the Chiricahua Mountains from the introduction

**Explorations in Ecocriticism** Paul Lindholdt, 2015-04-09 A chief innovation of Explorations in Ecocriticism is to push ecological criticism beyond its focus on literary studies to engage with other arts and culture One chapter closely examines the pictures commissioned by the U S Bureau of Reclamation to valorize its big dam projects Previously no one has written about the large art collection that toured the nation under the auspices of the Smithsonian in the early 1970s when the Bureau of Reclamation was under fire and new environmental regulations were becoming law Another chapter An Iconography of Sabotage previously published in France as part of a Paris symposium looks at the pictorial dimension of saboteurs throughout American history with a special emphasis on the IWW and Earth First The book draws extensively on the social sciences Ecology and environment are treated too often as technical topics that go over the heads of lay readers Many Americans care about air and water quality the extinction of species and the unfortunate politicization of science But they also find the discourse daunting the details exceedingly complex By leavening such heavy subjects with current events Explorations in Ecocriticism makes environmental issues accessible to lay readers and offers routes to sustainability in the United States today

**Anarcho-primitivism**, *The Culture of Make Believe* Derrick Jensen, 2004-03-30 Derrick Jensen takes no prisoners in *The Culture of Make Believe* his brilliant and eagerly awaited follow up to his powerful and lyrical *A Language Older Than Words* What begins as an exploration of the lines of thought and experience that run between the massive lynchings in early twentieth century America to today's death squads in South America soon explodes into an examination of the very heart of our civilization *The Culture of Make Believe* is a book that is as impeccably researched as it is moving with conclusions as far reaching as they are

shocking
