[An Environmental History of Australian Rainforests until 1939](#) Warwick Frost, 2020-06-10 This book provides a comprehensive environmental history of how Australia's rainforests developed the influence of Aborigines and pioneers farmers and loggers and of efforts to protect rainforests to help us better understand current issues and debates surrounding their conservation and use While interest in rainforests and the movement for their conservation are often mistakenly portrayed as features of the last few decades the debate over human usage of rainforests stretches well back into the nineteenth century In the modern world rainforests are generally considered the most attractive of the ecosystems being seen as lush vibrant immense mysterious spiritual and romantic Rainforests hold a special place both providing a direct link to Gondwanaland and the dinosaurs and today being the home of endangered species and highly rich in biodiversity They are also a critical part of Australia's heritage Indeed large areas of Australian rainforests are now covered by World Heritage Listing However they also represent a dissonant heritage What exactly constitutes rainforest how it should be managed and used and how much should be protected are all issues which remain hotly contested Debates around rainforests are particularly dominated by the contradiction of competing views and uses seeing rainforests either as untapped resources for agriculture and forestry versus valuing and preserving them as attractive and sublime natural wonders Australia fits into this global story as a prime example but is also of interest for its aspects that are exceptional including the intensity of clearing at certain periods and for its place in the early development of national parks This book will be of great interest to students and scholars of Environmental History

Australian History and Comparative History **Rainforests** Rhett Ayers Butler, 2011-09 An overview of tropical rainforests for kids Rainforests describes tropical rainforests why they are important and what is happening to them Rainforests is based on the award winning mongabay com web site Rainforests includes discussion of topics including conservation and protected areas biodiversity and ecology environmental activism sustainable development consumption and economics The Last Wild Wolves Ian McAllister, 2007 Through text and photographs describes the lives of wolf packs living on the coast of British Columbia Ancestral Rainforests And The Mountain Of Gold David Hyndman, 2021-10-28 The ancestral rain forests for the Wopkaimin people have long been a sacred geography a place that has allowed them to act out the obligations of the male cult system and social relations of production based on kinship Today the people and their place are suffering disastrous consequences from the sudden imposition of one of the worlds largest mining projects which has brought about severe social and ecological disruptions Based on fieldwork spanning more than a decade David Hyndmans book traces the extraordinary socioecological transformation of a traditional society confronting modern technological risk Across the island of New Guinea the clash between the simple reproduction and subsistence production system of indigenous peoples and the expanded production and private accumulation system of mining has resulted in environmental degradation **Indians, Markets, and Rainforests** Ricardo A. Godoy, 2001 Godoy investigates five lowland Amerindian societies of tropical Latin America all of which are experiencing deep changes as they modernize to discover the results of a market economy on both indigenous peoples and the conservation of tropical rainforest flora and fauna The Journal of Ecology , 1918 Vols 16 21 include supplement British empire vegetation abstracts **Protect the Rainforests** Rachel Walker, 2025-01-01 Focus Skills R controlled vowel Long u Printed reports of the annual meeting Hawaiian Sugar Planters' Association, 1920 Section 2 of each volume consists of committee reports **Proceedings** Hawaii. Poisoned Forests Honor Head, 2018-12-15 Forests are the lungs of our planet and it is essential that we keep the plant life healthy for Earth s well being Yet it is no secret that our forests are in great danger This book explores the science and politics behind exactly what is happening to the forests and why along with the current and potential ramifications we may face in the future The reader is confronted with staggering case studies and is challenged to think critically about the problems with how we are using this important resource This book captures readers attention with colorful pictures and edgy fact boxes while raising awareness levels about this matter of ever growing importance **The Last Cold Place** Naira de Gracia, 2024-04-09 Lab Girl meets Why Fish Don t Exist in this compelling blend of memoir environmental writing and scientific exploration Kirkus Reviews from a young scientist studying penguins in Antarctica a firsthand account of the beauty and brutality of this remote climate the direct effects of climate change on animals and the challenges of fieldwork Offering a dramatic captivating window into a once in a lifetime experience The Last Cold Place details Naira de Gracia s time living and working in a remote outpost in Antarctica alongside seals penguins and a small crew of fellow field workers In one of the

most inhospitable environments in the world for humans anyway Naira follows a generation of chinstrap penguins from their parents return to shore to build nests from pebbles until the chicks themselves are old enough to head out to sea Naira describes the life cycle of a funny engaging colony of chinstrap penguins whose food source krill or small crustaceans is powerfully affected by the changing ocean in lively and entertaining anecdotes Weaving together the history of Antarctic exploration with climate science field observations and her own personal journey of growth and reflection The Last Cold Place illuminates the complex place that Antarctica holds in our cultural imagination and offers a rare glimpse into life on this uninhabited continent

Indians, Markets, and Rainforests Ricardo Godoy,2001-08-01 This book addresses two important and related questions does participation in a market economy help or hurt indigenous peoples and how does it affect the conservation of tropical rainforest flora and fauna Oddly there have been few quantitative studies that have addressed these issues Ricardo Godoy s research takes an important step toward rectifying this oversight by investigating five different lowland Amerindian societies of tropical Latin America all of which are experiencing deep changes as they modernize Godoy examines the effect of markets on a broad range of areas including health conservation of flora and fauna leisure folk knowledge reciprocity and private time preference He concludes that contrary to considerable anthropological theory the effect of markets on the quality of life and the rainforest are often unclear or benign Godoy uses multivariate techniques to examine the changes modernization has had on many indicators of the quality of life and the environment and concludes that the seeds of socioeconomic differentiation may already lie dormant in simple economies The impact of modernization on lowland Amerindians is a topic of great concern to anthropologists researchers and policymakers in developing nations and this book is a significant contribution to the debate about the likely future of indigenous people

Gliders of Australia David Lindenmayer,2002 This book deals with all six species of Australian gliders which range in size from the tiny 12 gram Feathertail Glider to the 1 3 kg Greater Glider It relates the story of this extraordinary group of animals which possess a fascinating array of adaptations to their nocturnal and gliding existence
